On The Farm

> Frant BRIEF NOTES FOR THE BUSY FARMER

Farmers generally have been co 50-ACRE FARMS—One on No. 3
Highway, close to Jarvis, very best clay loam land, 7-room house, with built-in cupboards, 2 barns, large garage, brooder house and other buildings, hydro and gas.
Apply Russell J. More, Real Estate Broker, phone 37, Jarvis, Ont.

Farmers generally have been concerned about the price of red clover seed and at least one of the reasons the low offering price is the estimated size of the crop. According to latest reports the 1951 crop is like by to amount to 9,000,000 pounds of clean seed which is nearly 2½ times the 1950 crop. Most of this increase seems to be in Ontario and Quebec. As a matter of fact the crop in On-As a matter of fact the crop in Or

UNITED CHURCH PASTORAL CHARGE OF JARVIS WESLEY UNITED CHURCH On the other hand a small crop of alsike seed is in prospect for rhe current year. Latest reports indicate the yield to be around 2½ million pounds of clean seed. This is slightly larger than last year but it is still almost a million pounds short of the average. Most of this seed will come from Alberta. The total yield from Ontario is expected to be less than 200 000 pounds.

UNITED CHURCH PASTORAL CHURCH Rev. R. J. Irwin, BA., Minister 10,000 A.M. — Morning Worshin GARNET UNITED CHURCH 11.00 A.M. — Morning Worship 11.00 A.M. — Sunday School

ANGLICAN CHURCH SATURDAY, NOVEMBER 3rd OF YOUR NEW

WHITE ROSE A somewhat similar picture exists in the alfalfa situation. As one farmer put it the other day, "There is some or none." In many cases there seems to be "none". The pre-liminary estimate places the yield in Canada at close to 7½ million pounds which is forty percent less than the 1950 crop and the smallest since 19-43. The estimates for Ontario place the yield at 1 ss than half of the 19-50 crop. Rev. K. Richardson, Incumbent CHRIST CHURCH, NANTICOKE
