sermons. In the morning a former pastor, Rev. W. G. Shaw of Toronto gave a timely message entitled "Inner Strength." He said that if one could acquire the inner quietness and serenity of spirit that is the result of listening to and obeying God's will one would receive the power to overcome all obstacles. Mrs. Alex. Thomson of Hamilton favoured with the solo "Trusting in Him." The choir contributed the anthem "God's House." In the evening the pastor, Rev. Newman Truxa spoke on the subject "Direct Heirs." He intimated that we can all be direct heirs of God the Father and it behooves us to avail ourselves of the priceless legacy which is eternal life. The choir rendered the anthems

Your Pullets Will Really Lay and Pay on this Purina

This Helps, Too! Make Sure You are Not Wasting Feed on Parasites:
Even the best of feeds cannot give you the results of which it is capable if a large part of its value is going to support parasites, internal or external. Worms, lice and mites can cut down your egg income very sharply. It's well worth while to make sure they are not doing it. Most pullets are infested with roundworms - some more, some less. It's easy, effective, and economical to worm with Purina Check-B-Ton. The first extra egg will pay for the treatment! Most Pests will handle the lice problem - insect oil the mites. Check up, and see if you need these products.

YES, if you want lots of Fall eggs without the body run-down that so often sends a pullet flock into a slump just when they should be laying and paying their best, follow Purina's "Body and Egg Plan".

You see, during first 4 or 5 months of laying, your pullets are still growing and developing. So you are asking them to do 3 jobs... finish growing, keep up their bodies, and lay 20 eggs a month or more. That's a heavy strain. Many flocks on ordinary feed find it's too much for them.

What they need is extra-ordinary feed! That's what Purina provides... Laying Chows that have what it takes, plus a new product, Poultry Booster Checkers, to take care of the extra demands of that critical 5 months. Come on in to The Store with the Checkerboard Sign, and let's talk it over.

Make money on runty pigs? Why, that's impossible, you say! Not if you give them a boost with Purina Pig-Plus (concentrate) or Pig Startena (ready-mixed).

Give those cockerels two weeks on Fatena Checkers before you market them, and they'll pay off in weight and finish. Just pen them up, and feed them.

BOOSTERS for PIGS FATENA CHECKERS
