The police are smarter than we gave them credit for. We said last week they would have the post office robbers within two weeks, but they did even better than that. They had them (pardon us — they have arrested some suspects) in six days and, to prove that the law has a long arm, the arrest was made in Port Arthur. Ah, yes — when Mitchell A. Hammond gets on a case something's bound to happen.

The Delhi News-Record columnist (Rever Van Horne) has been leading his readers to believe that we have been quarrelling with Samuel Morris, our revered contemporary from Port Dover. Nothing could be further from the truth. All we have been trying to do is enlighten Sam concerning the importance of Haldimand to Norfolk. Although he is probably one of the best informed men in the combined counties of

Haldimand-Norfolk on almost any matter one would want to discuss, he does apparently need enlightenment on the general question of soil productivity. Any information we have been giving has been written without malice aforethought and absolutely free of charge.

Jack Mohlenbacher has been chosen by the American Hockey League to handle all the games in the finals between Providence and Pittsburgh. The selection was made by a poll of all teams in the league which indicates the popularity of the Nelly-Corner artist.

Despite fast hockey play-offs are going on all over the place in these parts there is just enough spring in the air to make us realize that pretty soon somebody will have to be doing something about organizing the cow pasture pastime for the coming season. Having reached the age when life begins we can recall when the game called softball was played in cow pastures and nothing else. In these days, however, we call them floodlight parks. Somebody supplies the balls and bats and even the umpire. The players deck themselves out in brilliant sweaters, wear spike shoes and also wear gloves to protect their fly-whisk hands. And besides that the deal has to be attractive enough, so they will utilize their time following some other pursuit. It appears to us that softball has become a bit too organized to provide the best possible enjoyment for fans and players alike. For that reason we would like to see a local league (men and boys) organized in Jarvis this year without any outside affiliation. We have the tenacity to suggest that everyone interested in softball would be happier if such an experiment were tried.

The Infantry Recruit...
Keyman in Canada's Future Security

Growing in size and strength the Canadian Army Active Force needs more Infantry Soldiers.

The Infantry recruit is a keyman in our defence plans. For as he finishes his training he will take his place in the front lines of our freedom at home and overseas.

But it takes time to produce these highly trained soldiers. And to maintain our security, to discourage aggression, we must be able to meet any eventuality. That is why we must have more young men for Infantry training now.

If you are interested in Canada's future, now is the time to do something about it. Serve with the most important men in the Army — the Infantry.

There are outstanding career opportunities for young men in the Canadian Army Active Force.

You are eligible if you are 17 to 40, tradesman to 45, and ready to serve anywhere.
