**CENTREPOISE POWER RIDE**  
Engine vibration and power impulses are "absorbed" — isolated from driver and passenger. Engine seats flexibly suspended between new high-tensile mountings — control, poised, cushioned in rubber.

**EXTRA LARGE BRAKES**  
Chevrolet's Junior-Deux brakes, with their big 11-inch brake drums, supply more leverage for more stopping power. Stops are smooth, safe, with less driver effort. Handlings last up to twice as long.

**EXTRA WIDE TRAIL**  
Chevrolet's famous Kame-Action ride is now even softer. Another new shock absorber action smooths bumps and jolts more quickly and effectively than ever.

**POWERFUL VALVE-HEAD ENGINE**  
Tuned with Powerglide is the powerful valve-in-head engine — an outstanding performer. This Powerglide, with its 4-cylinder, 160-cubic-inch displacement, improves Chevrolet's exclusive Powerglide transmission.

**POWERGLIDE AUTOMATIC TRANSMISSION**  
It's an oil-smooth, oil-cooled automatic transmission. It's a slipper with fewer parts to wear or require adjustment. It's smoother because oil does it all without complicated intermediate gears. Optional on De Luxe models at extra cost.

Canada's lowest-priced fine car!  
Lowest-priced in its field!  
Chevrolet, the Leader, is the lowest-priced car in its field. It's Canada's most beautiful low-priced car — and Canada's most wonderful motor car value!

## Pen, Scissors and Pastepot

Some city papers are worried about child labor on the farms. They are afraid it will have an adverse effect on the education and the future prospects of the children.

Our observation is that lack of some useful work to do among city children is a greater threat to their education, their future prospects and their moral characters than child labor on the farm ever was or ever is likely to be.

The Gore Bay Recorder tells of a slip made by a Western Ontario paper concerning the presentation of an ornamental mantle time-piece as a farewell gift for the local minister.

The so-called Free Hospitalization Plan inaugurated some years ago by the socialist government of Saskatchewan has proved to be one of the few really popular things that government has done since the election year.

credit it with saving the Government's life in the recent election. But a somewhat similar plan in British Columbia has proved itself unpopular that it is said to be responsible for the Government's defeat.

Why should this be? Why should the people of B.C. so emphatically reject a plan that the people of Saskatchewan just as emphatically endorse?

The explanation seems to be that the politically astute government of Saskatchewan made a better job of concealing the fact that there is nothing free about the plan, and so smoothly that they hardly knew it was being done; while the B.C. Government bluntly told the people how much it was costing them and that they would have to pay it.
