Don't let an ACCIDENT spoil your Holiday!

Christmas and The New Year again usher in a season of festivity and good fellowship.

As in the past it will also be marked by increased dangers — more traffic, more hours of darkness, slippery roads, and holiday haste and impatience.

I appeal to Ontario citizens to overcome these added hazards by greater care and common sense when walking or driving.

Don't let an accident spoil holiday happiness for yourself or for others.

Anyone still unconvinced of the need of a new community hall should make it a point to try and get in to the annual Milk Producers' Meeting at the Town Hall. We tried for a couple of hours on the occasion of their recent annual meeting and the closest we got was about four inches inside the back door. We noted that even the new President was stymied at that location for a considerable period and we understand the proceedings were held up for nearly an hour as he endeavored to navigate his way to the platform following his election. It wasn't until Bill MacMurphy agreed to run interference for him that he was able to reach his goal.

While it is easy to try and be humorous about the situation it can hardly be viewed in that light by those responsible for these functions. It must almost drive them crazy. Something of the same situation pertained at the turkey draw at the Arena on Saturday night. It was said that the floor was slipping four inches under the weight of the crowd. We would certainly question that statement, but the fact remains many people are doubtful as to the safety of that building, despite authoritative reports to the contrary.

The fact is we do need a new community hall. A hall that will accommodate the needs of the community. It will have to be a fairly big building and it should have up-to-date facilities. Such a building will cost a substantial amount of money and if such a building is erected it will have to be paid for. So far some progress has been made with respect to planning for the building but, to the best of our knowledge, little, if anything, has been done with respect to financing.

It would seem likely that if the contrary.

hall is built, ownership will be vested in the municipality. Therefore the municipal council should assume some measure of leadership in any campaign to build a new community hall. With the annual nominations coming up shortly it would seem to us it would be an opportune time to discuss, and possibly try to arrive at a solution — or at least a plan — for financing such a building. It appears nearly everybody wants a new community hall providing some one else assumes the responsibility that must be attached to its creation.

In any event all citizens of the municipality should be present at the annual nomination meeting and it would, therefore, be an opportune time to hear the opinions of the citizens. It would also be a good time to learn the opinions of the present council or any one who may be aspiring to council for 1953. As one taxpayer, we would like to know if the council would be prepared to issue debentures, if necessary, to finance the building of a new community hall.
