

Loafing for a Living

The "Loafing" or "Pen" type dairy barn is just one of the many recent improvements in farm buildings. You will be looking into new types of buildings, and new ways to arrange present buildings before you go beyond the planning stage of construction or repairs. Modern farm buildings are designed to save labour, protect herd health and lead to greater profits.

Discuss your financial problems with the local Commerce manager. He represents a bank that has for many years taken a keen interest in promoting better farming and in looking after Canadian farmers' banking needs. Why not pay him a visit?

Read! How bad can things get? Just when we thought we had the Old Record revived for at least a limited period, we get opposition in the publishing field. We have found it tough enough to buy paper and ink with our revenue from the advertiser's dollar without local competition. To make matters worse it is a scion of the old man, whose hair is fast fading away at the temples, who is competing for that elusive advertising "buck". To make matters worse, we have been hearing from customers we haven't been able to crack in nearly twenty years in the business. If this thing keeps on we're going to disinherit him. The only other alternative would be to try and buy his services away from the School publication, "The Maple Leaf". Maybe we couldn't afford it but we're not going to be put out of business without a struggle — not when we are fast approaching our seventy-fifth anniversary — the "Record" that is!

The percentage of failures among first year students at The University of Toronto should be cause for concern among those who are responsible for teaching in Ontario — as it surely is for the taxpayers who are being asked to meet the ever increasing costs of this commodity. Commenting on the situation Dr. Sidney Smith, President of the University throws considerable doubt on

We don't know what other people want done with the Town Hall but we hope we might find out tonight when we attend the meeting and find the building taxed to capacity with citizens of the Village who are ready to assume their obligations of citizenship. In ship whenever contentious problems concerning the situation Dr. Sidney Smith, President of the University throws considerable doubt on

"Front Lines of Freedom" in the INFANTRY (QUEEN OF BATTLES)

Modern inventions have not taken away from the Infantry its all-important part in victory. Again and again, in the battles of 1939-45 and in Korea, Infantry has proved itself — "Queen of Battles". The job of the Infantryman has become tougher, more complex. He must be able to handle more weapons and to meet a greater variety of situations in defence and attack.

To attain the specialist rank of Leading Infantryman, and the extra pay that goes with it, calls for intensive training in many varied subjects. For the Canadian Infantry Soldier is one of the most thoroughly trained men in our army. He ranks with the finest fighting men in the world.

More men are needed right away to serve with the Infantry — the most important men in the Canadian Army.

To enlist you must: Volunteer to serve anywhere. Be 17 to 40 (Tradesmen to 45).

THE QUALITY OF TEACHING THAT STUDENTS RECEIVE. Obviously something should be done to determine the qualifications of students before they are admitted to the University entrance. It should not be enough to tax the facilities of the state of higher learning merely because the "Old Man" may have the means to meet the financial obligations involved.

as our taxes don't go up. We would be happy to settle on an expenditure that would not exceed the profits the building has produced for the Village over the past twenty years.

If Sam Morris is successful in de-hyphenating Haldimand-Norfolk as he was in getting a new highway built between Port Dover and Simcoe, we are going to start a movement to bring him to Jarvis. We need a new waterworks and sewage disposal system, a new community hall, a dog pound as well as several other things that come to mind at the moment. Maybe all this Village needs is a few less Editors.
