THE NEW OLDSMOBILE FOR 1952 is offered in two series - the Classic "98" and the 38". Both series are powered by the improved "Rocket" engine whose horsepower has been stepped up from 135 to 160 and which is equipped with the four-barrel Quadri-Jet carburetor. Hydra-Matic Drive, an option at extra cost on both series, has a new super range for increased performance. A new rear stabilizer improves car handling and minimizes side sway at high speeds. GM Power Steering is optional at extra cost on the "98" series. A total of eight models is available with new styling and more luxurious interiors. Shown here is the 1952 Oldsmobile Super "88" four-door sedan.
