selves as nothing can be more grateful than an honorary reward from ANGLICAN CHURCH NOTES

Pen, Scissors and Pastepot

A lady informed us this morning that sometime during the night some one was kind enough to pick several tulips from her garden. Some narcissus were also taken. The discovery made her blood temperature rise slightly and who could blame her. Like many other p ople who have nice gardens and flower beds we know she would gladly pick boupuets and give them to anyone who would appreciate them. But it is altogether another thing to have someone deliberately strail the product just tely steal the product just by have reached their bloom ity. It seems the world has en plagu d with people of such

We have been worried as to what the Department of Highways plan-nd to do on Talbot Street after start-ing to smash up the roadbed a cou-ple of weeks ago. When we saw the digger at work this morning we the digger at work this morning we railzed they must be making a start on an Iron Mine. Having heard so much about the prospect of a huge ron ore body being located somewhere under the earth up in Norfolk County it may be possible that it will critend somewhere b yond the county bord r. In the meantime the sidewalk superint ndants are doing dewa'k superint ndants are doing

The Forest Department Station at it. Williams will ship out 7,000,000 how many will be planted in this particular area? Despite the warn ings of eventual economic disaster that is bound to follow by the practise of stripping the soil of trees the every citizen to plant a minimum of ten trees every year. Even at that it would take a long time to get nature back in proper balance.

ing to Canada.

BRAY STARTED PULLETS will help you "CATCH UP and CASH IN" when egg prices are UP next fall

Bray pullets should be "right in there pitching".

They are very reasonably priced - and as started chicks take less fuel and time you can raise them more cheaply. Usual vigorous, fast-growing, early-laying, big-egg Bray stock which has done so well for others....why not for you? Wide choice breeds and crosses. Ready now. (Day-olds too, of course.) Drop in, or phone.

"I put away my hard-earned money"

This young bank depositor recently wrote to his bank manager:

"I made a goal of \$1,000 for this year. It is two years since I opened the account with two dollars. I owe thanks to you that I put away my hard-earned money where it will benefit me . . . I do not wish to touch it for the time being."

Building up a bank account means work and sacrifice. But Canadians know the value of having savings handy in time of opportunity or need: they maintain 71/2 million savings accounts in the chartered banks-almost twice as many as ten years ago. At the same time bank staffs have almost doubled. That and higher wages, have increased bank

payrolls almost three times. More people use the banks, more people work for the banks than ever before.

was planned for May 30th. It was decided to enter an Institute exhibit at Caledonia Fair and a committee was named to take care of this.

BRIEF NOTES FOR THE
BUSY FARMER

During the month of April, Haldimand farmers marketed 2274 hogs which is 688 head more than were sold during the same month a year ago. This is a 43 per cent increases of this number 765 head were in the top grade. This is 33.64 per cent as compared with 33 22 per cent for April, 1951. By far the greatest proportion of the increase in numbers went into the BI grade although there were significant increases in the C grade as well as in Heavies and in Sows.

Creamery butter production made quite an advance in March of this compared in March of this control of the march of this control of the increase in the C grade as well as in Heavies and in Sows.

ATER Sandusk W.I. held their May meeting at the home of Mrs. Ivan Creamery butter production made quite an advance in March of this control of the march of this control of the control

The there were significant increases in the C grade as well as in Heavies and in Sows.

ODCreamery butter production made quite an advance in March of this year as compared with the same mon that a year ago. This is rather unusal and probably reflects the general situation existing in the dairy industrial and probably reflects the general situation existing in the dairy industrial and probably reflects the general situation existing in the dairy industrial and production for the year. In Haldimand the production for large and adopted. Business was then the usual manner with the President in the chair. Roll Call was answering evident before June which is considered the dairy month of the year. In Haldimand the production for March was produced during the butter production for Haldimand for the first three months of 1952 stands at 402,933 lbs. as compared with 318,3515 bs. a year ago.

There are a couple of dates which the farmer second with the farmer second with the farmer second with the farmer second which the farmer second with the second with the farmer second with the second with the farmer second with the farmer second with the second with the farmer second with the second with the farmer se

up job enhance the beauty of the farm lay-out, but it also assists in removing many of the hazards that exist around the farm. During the production season the farmer cannot afford to lose any time through unfortunate accidents. A good time to prevent them is now. Clear away the danger spots. Remove the accumulation of debris that is bound to gather during the winter. Plan for a "safe" summer.

-oCoThere is no gainsaying the fact that the present live stock situation is far from good. However, the fact that the situation is serious, is no reason to become panic stricken. Should that happen we are apt to do the very thing that would add to the difficulty. The best advice advanced thus far, comes from W. P. Watson, Ontario's Live Stock Commissioner, when he says "that the producer who recognizes the fact that orderly marketing tends to create price stability is playing the safest role." Panic selling would be the live stock market right now.

GROW-LAY and PAY

Feed Puring ALL THE WAY!

A fast, strong healthy start for your chicks this year with Purina Chick Startena will help develop big pullets early and ready for a long steady laying life. Mind you, they need more than just a good start. They need proper nourishment during growing and laying as well. But the right start is mighty important. Purina Chick Startena contains Purina's right combination of the fabulous new growth factors and vitamins (Formula 1028) to help to do a better-than-ever starting job. It builds chicks with lots of growth and strong, sturdy development - gets birds moving toward the nests early and ready to shell out plenty of big eggs. Ask us about the Purina

 For pep, energy and total nutrition for your dog, we recommend Purina
