TO GIVE YOU GOOD VALUE...

Because telephone hands and brains are working all the time to find better and cheaper ways of doing things, the most anybody pays for a home telephone is 18¢ a day.

Chances are you pay even less than that... less than the cost of a casual soda at the corner drug store.

We will go right on keeping your telephone service good, your telephone cost low.

This is a bad week. The last few days before the annual May 24th celebration always cause a lot of fellows to start chewing their finger nails. First of all there is the weather to worry about and we don't like the way it has started out this week. Then there are the incalculable factors. There is no way of telling exactly what kind of a calithumpian parade we will have until the parade starts. Of course a lot of faithful friends have indicated they will take part in the parade but it is the little extras that make it outstanding. That is why we are hoping a lot of people are planning to make an entry in the calithumpian parade. Then there is the amateur show. Indications are that it will be a real entertainment. Twenty entries are now in and more are needed. Likely they will come but here again we can't tell what we will have until the show takes place. But what are we worrying about. Such fears have always vanished in the past and there is no good reason why they will not do so again.

A reader complains about the parking facilities in neighbouring towns and cities. He claims he couldn't find a place to park in Simcoe the other night within eight blocks of the downtown section. Port Dover has local parking problems too judging by the number of lake-side citizens who are on the main street of Jarvis during their weekly marketing. Personally we think the cities have the only parking situation that really complains about. Besides paying a toll in the parking meters one usually ends up at the Police station to contribute another \$10.00 before getting out of the darn place.

The effect of Twentieth on distinguished professional men is shown by the will of Sir Patrick Hastings, Q.C., one of Britain's greatest advocates. Prior to his retirement in 1935 Sir Patrick had earned an average of \$60,000 a year for many years, drawing \$120,000 at the peak of his career. But on his death, last February he left only \$40,000, which will take \$5,000. United Kingdom papers estimate that over a period of years, he paid about \$20,000 in taxes.

High School Pupils Visit Guelph OAC

By Diane Miller

On Friday, May 16th, four busloads of Hagersville High School students left Hagersville at 8.00 o'clock for High School Day at Guelph. We arrived at the Ontario Agricultural College at 9.30 and were divided into groups. Each group visited various departments of the College, soil department; animal husbandry; agricultural economics; entomology and zoology; horticulture; nutrition and many others. Pamphlets and books were given to the visitors concerning O.A.C. and Macdonald Hall and a program for the day. At noon everyone was served dinner, compliments of the Ontario Department of Agriculture. Nearly 1,000 people were served dinner as many other schools attended the special day at Guelph. Immediately after dinner, Dr. J. D. MacLachlan, President of the College, welcomed the visitors in Memorial Hall and introduced the campus personalities. We were then able to visit the buildings and departments we were anxious to see. At 4.00 o'clock, Macdonald Hall and the Veterinary College attracted a great percentage of the visitors. The girls took a liking to Macdonald Hall and it is likely some of them will go to it following their graduation from High School. At 4.40 o'clock we started home, after a very interesting but long day. We arrived home about 6 o'clock with some very good impressions of the College and an urge to visit the grounds again.

Do not forget "Opening Night" on Thursday, May 22nd at Hagersville High School. The doors will be open at 7.30 P.M. and everyone is welcome.

an appeal to All citizens

TO KEEP MAY 24th WEEK-END FREE OF ACCIDENTS

Holiday week-ends bring unusual traffic hazards to Ontario. More drivers and pedestrians use the streets and highways. More miles are travelled. More time is spent out of doors, and thousands of children are released from school. All these factors swell the normal traffic volume and increase the danger of accidents.

I earnestly urge all citizens, and all leaders in community and municipal life, to encourage widespread awareness of the need for safer driving and safer walking.

The traffic accident record can be kept down—if each of us does his part.

The Department of Highways is conducting a planned attack on accidents. Let us all work together to keep the approaching holiday period free of accidents.
