When we are on the subject of feeding the kind of hay and how measuring quantities of feed, it is long it has been in the now. Well, it is well to know something about settled affairs is estimated to how much hay is in the now. A requirement of 400 cubic feet for a ton while gain, the first step is to get the estimate and then to mix hay may be of the content of the now and then require as much as 625 cubic feet to divide this figure by 400 to 575 de-ton.

Looking To You For Help...

If your child looked to you with a poignant expression like this, needing help or comfort, you could not refuse. But what of the child who is mistreated, or has no father, or whose parents are unable to care for him?

Here is where the Children's Aid Society steps in, with trained help and guidance; always aimed at protecting the child. Only the Children's Aid Society offers help to unmarried parents, protection service for children, adoption service and similar assistance.

And only your generous contributions will ensure the continuance of this valuable work. Please give from the heart, to the canvasser who calls next week, or through your local chartered bank.
