HOW CAN 1?

Q. How can I prevent odors in the refrigerator?

A. If a piece of charcoal, about two inches square is placed in the corner of the refrigerator, melons queumbers become ator, melons, cucumbers, banan-as, etc., may be placed together with other foods without making the foods distasteful. This will keep the refrigerator odorless. Q. How can I make a dry shafpoo?

meal with one ounce of powdered orris root. Sprinkle this powder in the hair and then brush thoroughly.

Q. How can I chop nuts quickly?

A. Instead of chopping nuts them in a cloth and running the rolling pin over them.

Q. How can I heat the oven

more quickly?

A. After lighting the gas burners of the oven, wait about two minutes and then open the oven door for a second. This permits moist air to escape and the oven consequently will heat far more quickly after the ventilation. Q. How can I check nose-

A. Try the following remedy Sit erect with arms raised and the head thrown slightly back.

Apply ice cold wet cloths to the back of the neck and forehead. Q. How can I preserve patent

white of an egg is good for pre-serving patent leather shoes. Finish the job by polishing with Q. How can I keep paint rom blistering? A. Be sure never to apply

new paint over blistered paint. Always scrape or burn off the acquired. Otherwise, the new paint will blister just where the

Terry Cloth Beach Togs Fill Summer Needs

The Turkish Towel Goes Modern

THE things that are currently happening to terry cloth are nothing short of miraculous. For spring and summer, terry will decorate the outdoors, beaches particularly, in the shape of stoles, separates, shorts, middy

ticularly, in the shape of stoles, separates, shorts, middy tops, beach coats and tapered slacks.

Designer Harry Berger uses this homespun fabric for a pullover middy-top to team with jeans or slacks for picnicking. This is also a natural towel-top to pull over a bathing suit after a dip. The top has the long middy look with a turn-up cuff at the bottom. Red-and-white terry shorts are worn with this. They zip up the center of the back to insure snug fit. Both pieces are pre-shrunk to wash easily just like a bathroom towel.

This same designer uses terry for a beach coat that can dso double as a lounging coat with matching pajamas. One side of this finger-tip length coat is pre-shrunk terry. The other side is crisp broadcloth. Fabric from the reverse side provides color accent and extra large pockets on both sides hold incidentals. The coat is teamed with matching pajamas. Terry colors are tropically vivid this year. There are

many hot pinks, clear blues and sunny yellows. Terry may even be striped, but anyway at all it's a fashion first. Combination beach and lounge coat, at left, in finger-tip length is reversible. It's terry on one side and broadcloth on the other. Big pockets hold a lot el little things.

The terry top, at right, is a cuffed middy worn over terry shorts in red-and-white stripe. This beach outfit is pre-shrunk, and best of all, it needs no ironing. Just wash and dry it.

closet more attractive, but will Q. How can I get rid of

things that attract roaches. El iminate these attractions, and there will be no roaches. Q. How can I clean marble most effectively?

A. Cover it with a paste of soda, one tablespoon each of salt and powdered pumice, and some cold water. When Q. How can I give linens a good color?

A. A coat of blue enamel paint on the shelves of the linen paint on the shelves of the linen same difficult to remove.

When the spread paste has dried, rub it off with a cloth and wash the marble well with soap and water. Repeat this process if the stains are difficult to remove.

Your Child's Health And Care By STELLA McKAY

skinned knee or any slight inry, it's usually the sight of the treatment or the thought of the "stingy stuff" that frightens a youngster, not the slight injury. Whenever your child comes to you with a scraped elbow, try to be calm. Tell her in a confident but kindly tone that you are going to wash her elbow and make it better. Wash the elbow gently using soft, sterile plain that, "now it's clean I am going to paint a cat on it" and start painting the antiseptic on the uncut skin. When your toddler is interested in what you are doing to paint over the injury, the 'fright" is gone and the sting is scarcely noticed. If the antiseptic is colored she'll boast her "picture" to her friends, and even if it is colorless she will watch you pretend

about non-stinging antisep EATING OUT WITH JUNIOR: Eating out with Junior or uniorette needn't be a problem. meals away from home even with a toddler, can be a family delight. Try to choose a place that is fairly quiet and the service on the speedy side. No youngster eats well in hubbub, nor can you expect him to sit

FIRST AID WITHOUT | quietly through a dinner of several courses.

Most restaurants provide high chair, and some provide bibs. However, your child is more apt to eat as usual, if you take along his own familiar bib. spoon, cup and even his own plate. It's wise, too, to take his own "canned" dinner and have it warmed for you. This will prevent stomach upset. If you'd rather order Junior's dinner, try to get food as much like the food. to get food as much like the food he eats at home as possible. Get your toddler comfortably seated as soon as you can, if you can get a booth, he can stand on the bench and look around or he can walk around the table. If he gets restless while waiting for his food, take him on a little tour. He'll like this. Most people smile at a small child, but it is better not to encourage Junior to get too friendly. Too much it may embarass him and you. Junior may have to wait for you

since you will most likely have to help feed him. In this case, don't let him wander about but produce the toy you brought to help fill in this time.

Chrysanthemums In China

After birds, Grandfather's greatest passion was chrysanthenums. He never failed to get new specimens each autumn. Once, after one of our morning walks with the birds, he suggested taking me to the famous garden of the Li family, situated at he Yo-ssu gate in the city wall of Kiukiang. It was not far from he wood. As the blue autumn sky was high and cloudless and was early for us to go home, Grandfather thought he might ook for some new specimens of chrysanthemums, as it was the season of blooming. The garden had long been famous for the beauty of its structure and the skill with which it was planted. . When we arrived I found that the head gardener knew my randfather. Leading us to a painted bower he served tea and ing an appendectomy, he had for-

ing for Janey." says Mrs. W. caught by a tall wooden stand bearing different kinds of chrysanthemums in pots, arranged in tiers to form a kind of 'hill' of flowers. The arrangement is actually called 'chrysanthemum flower hill' — Chu'u-hua-shan. Presently the head gardener conducted us round the garden, showing us flowers of every shape and colour. Grandfather told me that there were about sixty varieties of chrysanthemums-more varieties than those of any other flower. . . . While we were slow-

combination of rice, cheese, and eggs. The eggs form the decoraly promenading the garden Grandfather made, as usual, some tion on this come-back-for-more reference to the first Ming emperor. He mentioned that this emperor had written a poem on the chrysanthemum, and that it

While a hundred flowers If I burst into bloom, they are afraid to show themselves. ussling with the west wind all night before the doorstep,

mums waves its golden armour. Grandfather went on to explain how the poem conveyed the heroic nature of the emperor; for the chrysanthemum has always been admired by our poets and scholars for the way in which it looms in spite of frost and sharp weather, as no other flower does. The first Ming emperor was by

great mass of chrysanthe-

birth a beggar and an illiterate: he ascended the throne by driv-ing out the Tartars. Before leaving the garden of the Li family, Grandfather ordered the gardener to send a few pots of chrysanthemums to our house. How well I remember what care he took of them and of his other chrysanthemun watering them himself and tenderly, pruning them! It may sound a waste of time, but surely it was a pleasant way for an old man to pass his time?-From "A Chinese Childhood," by Chiang
