and W. WILLIS

GOOD MORNING — take a happy word of greeting — a smile to young and old makes a never try to make the morning bright and cold. I often hear "Good Morning" and pleasant whichever way they "ing" — sometimes it's just a phrase.

Pen, Scissors and Paste

We received a note from William Hodgson, at Beausarra, Lake Muskoka, this week where he and Mrs. Hodgson and family are spending the summer. He reports having caught three seven pound lake trout but says that landing some of the small energetic sun fish provides most of his fishing pleasure.

We note that the Editor of the Port Dover Maple Leaf was assigned the job of moving a vote of thanks to the Honourable the Prime Minister on the occasion of his visit to Port Dover last week. Had we known our steamed contemporary was going to take to the platform we would have most certainly gone to Port Dover to hear him. We know of no one more capable or better qualified to perform a task of that nature than Sam Morris. Of course with the new Post Office nearing completion, his heart would quite naturally be filled with gratitude.

If we had as many advertisements as we have this week we could produce a better newspaper. Bards that we wouldn't have any difficulty in getting the paper out on schedule because we would have it's mumbled by so many who'd listen in amazement if you told them that "Good Morning" a blessing should bestow, and in the hearts most lonely should leave a kindly glow.

more help. But it isn't every week that politicians want space in the paper and after this week we doubt if they will be doing much advertising. It's terrific what a person has to do to try and get elected to Parliament. It should be urged people to become candidates for election and then go out and work for their candidates. Instead the poor candidates themselves have to take the initiative. When people haven't sufficient enthusiasm to even go out to vote we wonder how candidates can go through the ordeal and still keep their sanity.

We have here a few blasts these past few days regarding suggestions in the columns of this paper about contributions to the Jarvis Community Hall. It seems people don't like suggestions from any source when they can't say we blame them. However that doesn't change the situation so far as we can see. It has been decided to build a new Community Hall. The cost is pretty well determined. Further — it has been decided to raise the necessary funds to build the hall by personal contributions. It can also be determined how many people there are to meet the financial requirements. Consequently it follows that there must be some help from contributions in order to carry out this plan. If we have hurt anyone's feelings we would be glad to say so as far as we can see it still remains a fact.

The United and Anglican Church Schools of Nanticoke will hold their Annual Beach Picnic on Wednesday August 12th at 3:30 P.M. along the beach at the Bruce Miller fire lakeshore in front of the home of Mr. Graydon Field.

The Annual Parish Picnic of St. Columba's will be held Thursday August 13th at 2:30 P.M. at the home of Mrs. Mary Ann. Cars will be at the Church at 1:45 P.M.

for **STRONG, CAPABLE Representation**
Re-elect John A. Charlton

"The man you know will work in your interests"

HIS RECORD AND HIS POLICIES ARE PROOF OF HIS ABILITY TO GIVE YOU STRONG, CAPABLE REPRESENTATION

VOTE JOHN A. CHARLTON
Progressive Conservative Candidate BRANT-HALDIMAND

Published by the Brant-Haldimand Progressive Conservative Association.

These are the policies of JOHN CHARLTON

John Charlton is actively behind the 16-point programme of the Progressive Conservative Party, believing it to be a program which should and CAN be put into effect and one which will be of immediate and also lasting benefit to all Canadians.

- * TAX REDUCTION ***
He believes that taxes should and CAN be reduced by \$500,000,000 yearly by eliminating wasteful extravagance and increasing efficiency. That our present system of taxation should be reviewed and revised. That there should be sales and excise tax exemptions for municipalities.
- * AGRICULTURE ***
He believes that there should and MUST be a national agricultural board, including representative producers, to establish fair floor prices as related to farm production costs, assuring the farmer a fair and steady return for his labour and investment.
- * WORLD MARKETS ***
He believes we should and CAN take immediate and vigorous steps to restore and expand our world markets for agricultural and other primary products.
- * LABOUR ***
He believes there should be and CAN be national labour legislation that will improve collective bargaining procedure, expedite conciliation of disputes, assure fair employment practices, provide equal pay for equal work. That the provisions of the Unemployment Insurance Act should provide for payment of benefits for unemployment due to disabling sickness or accident.
- * HOUSING ***
He believes there should be and CAN be a housing program which makes it possible for people with small incomes to buy homes by improving the terms and conditions under which they can be built and purchased.
- * HEALTH INSURANCE ***
He believes there should and CAN be contributory health insurance, in co-operation with the provinces, to assure every Canadian proper diagnostic, medical and surgical treatment WITHOUT introducing state medicine.
- * SUPREMACY OF PARLIAMENT ***
He believes we should and MUST return the control of the nation's business to the elected representatives of the people, putting an end to government by secret orders - in-council and to the Emergency Powers Act.
- * COMMUNISM ***
He believes the Criminal Code of Canada should be amended to make it an offense punishable by due process of law to engage in Communist or other subversive activities designed to destroy our democratic system.
- * OTHER POLICIES ***
He believes there should be:
A review of civil service legislation; Senate reform;
An improved freight rate structure;
A national policy for the proper exploitation, conservation and development of our natural resources;
Full support of the Commonwealth, UN, NATO and other world bodies.
These, briefly, are the sound constructive policies for which John Charlton stands and for which he will work strenuously and capably. With his background of training and experience, his record as Member of Parliament for Brant and for Brant-Wentworth, BRANT-HALDIMAND can be sure of vigorous, capable and hard-working representation if John Charlton is re-elected. He has proven himself worthy of your vote and your support.

Farmers Caught In Price - Cost Squeeze

FROM 1946 TO 1953 — CANADIAN FARM PRICES UP 35% — FARM COSTS UP 84%

In the last 2 or 3 years, the prices of many farm products have declined sharply. That's the chief reason the cost-of-living has come down a few points in recent months — entirely at the expense of the farmer!

PRICE OF BEEF — June 1951, \$33.76 per cwt. June 1953, \$20.75 per cwt. A 40% DROP

The CCF does not believe we should climb to a higher standard of living on the backs of our Farmers!

CF WILL ESTABLISH GUARANTEED FORWARD PRICES

Guaranteeing the farmer a fair return and protection against wild market fluctuations. Farmers must have security and stability — they must know before they plan their production that they are going to sell their produce and livestock at fair prices. The forward-pricing policy proposed by the CCF will be carefully worked out in consultation with the farm organizations and with the best trained advice available.

WITHOUT THIS GUARANTEE, HERE'S WHAT HAPPENS

In 1949-50, Maritime potatoes were in over-supply. The Liberal government refused the growers' appeal to set floor prices. Potato prices fell drastically. In 1951 potato acreage was reduced by 22% and weather conditions caused further reductions. In 1952 and weather conditions caused further reductions. In 1952 a potato shortage — **Prices Up**. Housewives paid out \$55 million more for potatoes that year! With consistent price support, there would not have been such a sharp acreage reduction — prices would not have skyrocketed — consumers would have saved many times the cost of the price support program. Price supports to farmers mean cash savings to the housewife.

FOOD PRICE SPREAD BETWEEN FARMER AND CONSUMER

All too often the processors, packers and other middlemen exploit both the farmer on one hand and the consumer on the other hand. When the housewife pays 22¢ a can for peaches, the fruit farmer receives only 5¢! When she spends 27¢ for a can of tomatoes, the tomato grower receives only 3½¢. The farmer gets only 2½¢ from a can of peas selling for 22¢. Certainly there are processing and other costs involved, but even allowing for that, the CCF feels such spreads between producer and consumer are still too great.

FOR SALE
Kitchen etc. Reasonable rates. Estimates freely given without obligation. Thos. Butler, phone 1621, Jarvis, Ont. 277P

Mr. and Mrs. Fred Keyworth and daughters, Margaret and Anne of Waterdown, spent Saturday and Sunday at the home of Mr. and Mrs. A. L. Belbeck.

This Week - -

— By Fred Chate —

The Civic Holiday week-end took a staggering toll of accidental deaths in Ontario. A Canadian Press compilation showed 24 fatalities from Saturday morning to Monday night. The week end toll followed the Merrisburg bus crash that cost 20 lives last Friday.

Drowning caused the greatest loss of life with 15 dead. Traffic accidents were a close second with 10 victims, and one person was burned to death.

There were two multiple drownings. Three persons, a middle-aged couple and their fishing companion, were swept to their deaths when their small outboard boat was sucked into the rapids and capsized in the Missisquoi River 60 miles east of Sault Ste. Marie. Two hydro workers were drowned when their fishing boat was caught in the tall race low island Falls power plant 40 miles north of Cochrane.

FESTIVAL HUGE SUCCESS

A small Ontario city whose only connection with William Shakespeare is that it was named after his birthplace, has been making North American theatrical history this summer. Directors of the Stratford Shakespearean Festival said that 20,000 persons attended the productions of "Richard III" and "A Midsummer Night's Dream" during the first half of the six-week program.

That figure represents 97 per cent of a capacity house for the first 18 nights and a box office revenue of \$88,000. With ticket sales still brisk, it is expected that total sales will be close to the \$200,000 mark.
