We hope not too many of our readers will be offended by the editorial in another column this week concerning George Drew, which was taken from the Brantford Expositor. We are anxious, however, to convince, if we can, that there are others with reasonably good opinion of Mr. Drew. We might say that only last week we were greatly disappointed to discover that one of our most respected and admired Lady friends, down St. George street, does not share our opinion of George Drew. We found she shared the opinion of many others that George wears boiled shorts even when he is playing tennis. The realization that the poor lady is another victim of this vicious anti-Drew propaganda leaves us with tears in our eyes.

Everybody is ignorant, only on different subjects. (Will Rogers).

A woman near Hamilton uses her own secret weapon on people who

monopolize party telephone lines. When a couple of housewives are firmly entrenched on a line, she simply shouts into the mouthpiece, "Oh, something's burning" and hangs up. Nine times out of ten, she claims both parties think the other has gone so they hang up and leave the circuit free.

The most important single ingredient in the formula of success is knowing how to get along with people. (Theodore Roosevelt).

In this rural area it would be safe to say there are very few people in sympathy with strikers. It is generally recognized that workers should have the right to strike but sympathy for the strikers is lost by the tactics followed by the hot-heads among them. A couple of days ago the strikers at the Brown Reef Mines at Timmins defied an injunction limiting pickets to 12 in each shift, and 300 men blocked the entrance at the mine gate under the pretext that they were merely unemployed miners looking for work. William Sefton, Union Local 12, Toronto, on Monday that the Noranda strike may last six months. He based this prediction on the statement of J. Y. Murdoch, President of Noranda, who said: "If you want to strike well (Mine management) most you in three months and see if you still want to strike; and then we'll see you in six months." They are the last stronghold of feudalism in Canada. We would suggest that possibly Mr. Sefton is overlooking the Union in that statement.
