It is our sad duty to relate this week that Vic MacDonald has beef forced to retire from the wrestling wars. His shoulder injury, which he suffered earlier this year, was further than the suffered earlier this year. ther aggravated during a training period with his protege, Bob Phibbs, last Wednesday night, so Vic is retiring. He let it be known at the same time, however, that Bob Yule is taking over where he left off so Bob's training will not suffer as a result

Here it is the first of December and no Christmas tree lights are shining yet. When the Board of Trade indicated they were going to do something this year at their November meeting our hopes for a little colour in the old town shared. We remembered so distinctly the health the town something. It wouldn't surprise us in the least to see a couple of dozen local merichants out this afternoon decorating the business section for the Christmas season. If there is any place in a number of neighbouring municipalities which reminds as that later this month Jarvis and Walpole citizens will be called upon to do some nominating sto. Some places, Caledonia particularly, had a packed hall for their nominations, which indicates the present Council has something in view that may cost the taxpayer something.

Farm Forum findings turned up the fact that Urban-Rural tensions were due to several things Ex: The high cost of food, with little or no realization of the urban consumer as to how many times the product has to be handled.

It was felt that a better public relations job between the urbanite and the farmer would have to be done in future to inform and educate the consumer as to the facts of farming. There is room for improvement in the Foderation work along the lines of keeping the farmer informed, how ever, much more so in helping keep the urban population informed as to how much the farmer is receiving for his work and produce. The farming industry of this country can only grow as fast as the urban industry so there is a need of co-operation and understanding between them. The farmer financially better off in relation to Industry than our fellow farming neighbours in the U.S.A.
