Progressive Conservative Candidate BRANT-HALDIMAND

Published by the Brant-Haldimand Progressive Conservative Association

Pen, Scissors and Pastepe*

Our friend, George Drew's political opponents are anything but nice to him. One of them said he was the most hated man in Canada. Then the Prime Minister, being the gentleman that he is, promptly denied the allegation. But judging by what is happening down in Carleton County, where George Drew is seeking re-election, the Liberal Party must regard him as something special. Ten different cabinet ministers are campaigning down there in an effort to defeat George Drew. If the Government figure George is the most hated man in Canada they should just let the voters do the job of defeating him. Maybe it is just the Liberal party that hate George. And if George is as stupid as they would have us believe he would have been forgotten long ago. We still like George Drew.

The Canadian Chamber of Commerce is organizing a campaign to get everyone out to vote on August 10th. The Canadian Chamber of Commerce is we are told by the C.C.F. — representatives of big business and big business oppressors. The common man, however, is not so much interested in the common man as the C.C.F. wants the common man to get out and vote if the members of that organization want to suppress his rights.

There is a phobia in Norfolk County which has led some newspaper editors to believe that they have the biggest and best of everything. For that reason it was of more than passing interest for us to learn that Simcoe is not the biggest town between Windsor and Fort Erie in Southern Ontario. A Simcoe Taxi Owner, a Barber and a Travel Agent also in Hagersville, Ontario, who she stated Leamington deserved that doubtful honor. The Mayor, however, by private correspondence, has proved her point by the authoritative statistics available through the Department of Municipal Affairs. The population of Leamington is 7,532 while the population of Simcoe is 7,425. No doubt Simcoe, and Norfolk County, will do something to correct this unsatisfactory situation forthwith.

Port Dover took \$154.60 through their parking meters in the first week of operation. It is even a better racket than we suspected.

Stan Mitchell says

"Life insurance investments can be arranged to coincide with any future need"

Confederation Life
Jarvis

They didn't get any of our money and we were in Port Dover twice during that week. The first time we just drove up to one of the penny gougers and stayed there for a good ten minutes talking to the Village Solicitor's niece without putting in a farthing. We'll admit we didn't get out from behind the wheel and would have made a quick exit if the long arm of the law had appeared suddenly. On the other occasion we met up with a meter that had twenty minutes good time left get out and note if the members of that organization want to suppress his rights.

The responsibilities of citizenship are being pushed further in the back ground all the time. An example of it was noticed a couple of weeks ago in Hagersville when a non-partisan meeting to name candidates to fulfill a vacancy in Council was held. It was a meeting to name candidates to fulfill a vacancy in Council was held. It was a meeting to name candidates to fulfill a vacancy in Council was held. It was a meeting to name candidates to fulfill a vacancy in Council was held.

The Liberals say they can't cut your taxes!

WE CAN... WE WILL!

the Main Issue in this election is YOUR MONEY!

We will budget for Government's legitimate needs... we will stop budgeting for bloated surpluses which in three years—look from the people's pockets the staggering sum of \$1,618,000,000 more than the Government needed.

We will end the shocking conditions in our Defence Department which the Government's own investigator, (Col. G. S. Currie) described as: "A general breakdown in the system of administration, supervision and accounting... Accounting records in a chaotic condition and of little use in determining the nature and extent of irregularities... Waste and inefficiency far more costly in loss than that covered by actual dishonesty!"

We will, without impairing the efficiency of our Armed Forces, correct the appalling inefficiencies in the administration of the Department of National Defence.

We will provide the nation with an administration whose attitude towards the spending of public monies will be one of prudence and common sense. A new Government in itself will mean substantial savings to arrogant indifference to economy was best expressed by Mr. Howe's scornful remark, "What's a Million?"; Or, buy it!"

We will reduce or eliminate countless hidden, indirect taxes which grossly inflate the cost of consumer goods, add to the grievous cost of living, increase the price of homes beyond the capacity of most of our people to pay, discourage saving and initiative.

We will reduce federal taxes by at least \$500,000,000 a year... without reducing any pensions, family allowances, or other social security payments.

\$500,000,000 TAX CUT NOW!
