All The World Is Pepper-Hungry

If Peter Piper picked a peck of peppers to-day, he'd be har-vesting a fortune. When thieves stole a ton of white pepper from a London grinding mill recently. they snatched nearly half of Britain's available supply, a haul worth over \$8,000. Before the war, when the orld had a stock-pile of 50,-

All the world is pepper hungry. Not long ago the Customs seized an illicit shipment worth \$45,000 at the London docks and put it on sale - but not to the home market. The pepper was bought by the United States for \$90,000, representing a spicy profit for the British taxpayer. Speculators once tried to cor-

"These young people," he ex-plained, his eyes glinting with the lights of ancient wisdom, "don't really want religion. What they love is to have somebody tell them how they can sin and be happy." There are a lot of peo
