Shown above is an artist's conception of how the Canadian Pacific Railway's newly-ordered train ferry will appear when she goes into operation between Vancouver and Nanaimo in May, 1955. William Manson, vice-president of the C.P.R.'s Pacific region at Vancouver, announced that a contract for building the ship has been let to Alexander Stephen and Sons Ltd. of Glasgow, Scotland.

POWER STEERING - Until you've tried it, you can't even imagine the miraculous driving ease of Oldsmobile Power Steering! It actually takes 80% of the effort out of steering, yet leaves you the vital "feel" of the wheel - you always know you're in full command of the car. Thanks to Power Steering which is optional at extra cost, you can take hair-pin curves, sharp city corners or pull into "tight" parking spaces without any effort whatsoever!

NEW PEDAL-EASE POWER BRAKES -Now pull up to a safe sure stop with the touch of a toe! You no longer need lift your foot from the accelerator and lose precious seconds in emergency stops. Oldsnobile's new Pedal-Ease Power Brakes, ptional at extra cost on models with Hydra-Matic Drive, have a new, low, lightpressure pedal next to the accelerator, making it easy for you to pivot on your heel from accelerator to brake pedal.
