CLARENCE MITCHELL ORDAINED DEACON

Clarence Mitchell, B.A., was ordained Deacon at St. Mary's Anglican Church Hamilton, on Sunday morning by the Right Rev. Walter E. Bagnall, B.A., D.D. Bishop of Niagara, who was also the celebrant at Holy Communion.

Mr. Mitchell, a native of Woodnouse, is well known in musical circles and for the past two years had been cholirmaster of the Huron College Choir and St. John's Church Choir. London. He studied at the Hamilton Conservatory of music and was at one time a member of the Bach-Elgar Choir there.

Mr. Mitchell will serve as Curate assistant to the Rev. H. R. Bagnall, Holy Trinity Church, Welland.

Will this make news!

OLDSMOBILE

LUNDY & HENDERSON

There's something so heartwarming in just the look of the car-long, low, and sleek, with a lively harmony of glamorous colors. Then, there's

the sense of power you get from the history-making new edition of the famous "Rocket" engine. And this great, high-compression 185 h.p. power plant is so beautifully balanced by Oldsmobile's superb riding qualities that you're cradled in comfort, easy and safety, always.

But words can only tell you so much! We suggest you let your eyes and driving experience tell you the full story of this year's magnificent 88 and 98 Oldsmobiles. Ask your nearest dealer to let you get behind the wheel. And from the moment you turn the ignition key,

you'll find the pleasure's all yours-in more ways than you believed possible.

YOUR HYDRO the lifeblood of industry

Power, supplied by Ontario Hydro is the vital factor in making the Province's industry the Colossus that it is today. The 19,913,540,926 kilowatthours of electricity supplied to the Province in 1953 by Ontario Hydro was equivalent to a labour force of 88,500,000 men. Few indeed are the industrial activities that are not dependent on electricity and many of today's wonder products are possible only because of the magic of Hydro power.

More versatile than any other form of energy, electricity supplies industry with light, power, heat and control in a wide range of applications. Here is another example of . . .
