

Bruce Pearce made another recent observation in his paper that we can't help but agree with. Having witnessed the final play-off game in Detroit for the Stanley Cup, Bruce concluded that the announcers were being as favorable as they might have been concerning the play of "Red" Kelly. Nothing could be true but it has been going on for a long time. We were announcing in this journal that "Red" rated among the greatest hockey players of all time long before he gained any semi-fame as a player in the National League as "Red" Kelly. It finally came however and "Red" received the plaudits due him. During this past season there has been some talk that "Red" is slowing up. There is nothing to justify that through his play. As Bruce points out there is no other player in the National League as many minutes in every game as "Red". Nor, we suggest, is there a greater threat to the opposing goal tender when the Norfolk County hockey team is in the game than "Red". He has played more hockey during his eight years in the league than the average player gets in in twice as many seasons. If he began to slow up who could blame him?

We suppose small are being harrowed on a commercial basis. But if they are we haven't heard of it. Small is without a doubt, one of the tastiest fish to come out of the lakes and it is time that these fish were made available to the public at all seasons of the year by means of the fast freezing processes now in use. We can't imagine anything that would taste better in November or December than a mess of smelt.

There is always a demand for a good product and that we suppose, is the reason the winners of the Big Four League in Hamilton last year would like to add Johnny Edwards to their roster. We can relax, however, with a measure of satisfaction in the knowledge that their overtures have not been sufficiently enticing

to lure Johnny away from all the advantages of living in Jarvis. It is also gratifying to know that Johnny thinks this is a fine place to live and work — and above all to play ball. With the Lions Club making certain improvements to the park this year it should add up to a great ball season. The objective is a Provincial championship which was almost within our grasp in 1954.

The young people of the community frequently ask why dances are not being held in the Community Hall. Well, the Lions Club are holding a dance there on Friday night and they hope that the young people were serious in their many enquiries. If the dance on Friday night is patronized they can depend that more will be held.

Our good friend Sam, having conjured up the subject of political acclamations would be interested, no doubt, to learn what is going on down in the constituency of Prince Edward Lennox. It seems no one wants to contest the riding against the sitting P.C. member. The Toronto Telegram observes that "A Liberal defeat there will show the constituency content with the Frost regime and appropriately inaugurate the campaign with an acclamation."

FIRESIDE CLUB TO MEET
The Fireside Club will meet at the Sunday School Rooms on Thursday, April 21st at 8:15 P.M.

Chevrolet paves the way

Takes the jolt out of riding

New suspension systems, front and rear, are engineered to give the smoothest ride you've ever known.

Takes the lean out of tight corners

The new low centre of gravity, wider wheelbase and torsion bars give an amazing new grip of the road.

Flattens the hills — hugs the road...

Brilliant new high compression, valve-in-head V8 or 4-cylinder engines combine with a new low weight-to-power ratio that means breathtaking response.

... And Looks So Lovely, Too!

It's not just the exciting ride that makes Chevrolet dramatically new. For when Chevrolet decided to combine the agility and safety of a sports car with the room and comfort of a family car, the designers were free to set the pace for things to come in functional, dashing styling. The result is a new kind of family car, as you will discover for yourself when you take a "Pleasure Drive" at your local dealer's. Why not call him today?
