

Mr. J. Roger Pichette, New Brunswick Minister of Industry and Development...

The Letter-Review properly points out that Ottawa is currently sending some \$15 million annually into New Brunswick...

We see yesterday's issue of the Simcoe Reformer that this column made the front page in Canada's biggest town weekly...

Editors Sam Morris of the Port Dover Maple Leaf and Laird Miller of the Jarvis Record are going to it again, hammer and tongs...

These Norfolk County Editors have no business distorting the truth. We were not pinched for speeding...

There seems to be some difficulty in generating sufficient enthusiasm in this county...

It is interesting to note by the recently published statement of the Jarvis Community Hall Board...

SPECIAL MEETING OF HOSPITAL BOARD

A special meeting of the Board of Governors of the Halldimand Memorial Hospital was held on Monday evening, January 31st.

The meeting was held at the home of Mrs. John Zacher on Monday evening, January 31st.

Mr. David Featherstone, B.Sc. of Dumfries was introduced as the new representative for the Town of Dumfries...

WALPOLE MUNICIPAL COUNCIL MEETING

The Municipal Council of the Township of Walpole met on this date pursuant to adjournment with all members present and Reeve Charles Cox presiding.

1955. Carried. Hopper and Parkinson - Resolved that the minutes of January meeting be adopted as read.

1955. Carried. Hopper and Parkinson - Resolved that this council appoint Nelson W. Dennis Assessment Commissioner for 1955 and 1956.

Husbands! Wives! Want new Pep and Vm?

Thousands of couples are waking up each morning with a new pep and vim...

Several from this vicinity attended the dances and dance held in Wiggins Hall on Friday night.

It has sometimes been said that the only time the public knows that the hospital exists is when it appeals for funds.

The Halldimand War Memorial Hospital was built and completely furnished by public subscriptions...

This letter is not an appeal for funds. First, its purpose is to urge the citizens of Dumfries and surrounding municipalities to get better acquainted with the work of our Hospital.

Classes are being made for a church parade on Sunday, February 13th. Cubs and Scouts will be notified of dress and time.

Next regular meeting on Monday, February 17th. Cubs at 7 P.M. and Scouts at 8:15. Be on time.

Classes are being fixed for Friday, March 11th at the Town Hall. Fourteen are elected. Others are appointed.

It is natural that not every location is a good one in Matheson vicinity. One season there has been much too wet. The previous was much too dry.

About July 15 we left Matheson bees after having placed all our employees on them. We were ob-

liged to move our extractors and other supplies from a fruit grower's orchard and several colonies mentioned of last week had also to be moved.

We returned to Matheson about August 10 not knowing our fortunes. On a certain Saturday afternoon we began looking through our hives again at Matheson. What we saw caused us to sing "Praise God from Whom All Blessings Flow."

We had a few fine warm days. Some of our honey in new comb was "white as snow", of excellent quality. By reputation there are few other places where honey can come in so rapidly - as much as 20 lbs. in a day.

Our first impression was not lasting. Frost came very early and repeatedly. Fall weather was very wet and very cool as here. Bees had no choice in the matter but to draw upon their supplies for maintenance. We were surprised at a late harvest time to find that many colonies from in good yields had literally nothing for their keeper.

Matheson has plenty of land. Five acres of Golden-rods and Aster come into bloom earlier than here and precariously yield a white honey there in contrast with an amber honey here. All these factors combine to make Matheson a beekeeper's paradise.

It is natural that not every location is a good one in Matheson vicinity. One season there has been much too wet. The previous was much too dry. It is possible that a third will be just right.
