NEW DRY CLEANING DISCOVERY

means

all fabrics can be cleaned to be

free of lint

and stay...

free of static

and stay...

for brighter, cleaner clothes, insist on lint-free... cling-free cleaning, completely safe and effective on all fabrics and on all colors.

YOUR CLEANER IS YOUR CLOSET-BEST!

It's new... a miracle process! Now all fabrics... from dark, soft finished wools to new synthetic "man-made fibres"... can be dry cleaned through the "Buckeye Clean-Charge" process with this amazing result: the fabric actually repels lint... even minute lint and dirt particles. The fibres themselves are cleaner, and stay cleaner... colors and patterns remain bright and fresh looking weeks later. Even troublesome "clinging" static is removed. Buckeye Clean-Charge, tested and approved by leading independent laboratories, has solved one of the major problems of the dry cleaning industry. Watch for the progressive cleaner in your community who features "Lint-free", "Cling-free" cleaning.

On the Farm Front

BRIEF NOT. 8 FOR THE BUSY FARMER

— By Haldimand Harry —

Reference was made in this column a couple of weeks ago to the new revised Ontario Farm Account Book. It has now been announced that a limited supply of these books is available from the Department of Agriculture in Canada.

If you have not already written for your copy to the effect at Guelph you may be able to pick it up at your local Agricultural Representative's office in Canada.

The Haldimand Soil and Crop Improvement Association annual meeting is being held this week and it is expected that a large number of farmers will avail themselves of the opportunity of being brought up to date on soil management.

The speaker for the day, Mr. W. E. Brecken, will be recalled that Mr. Brecken was recently crowned as World Wheat King. A new departure this year is the holding of the meeting during the day with a dinner at noon.

Congratulations are in order for Murray W. Coverdale of North Cayuga Township again this year. It was just been announced that Mr. Coverdale was again well up in the Alfalfa classes in Chicago. A year or so ago, Mr. Coverdale had the Championship exhibit as the top place in the world was awarded the Reserve Championship.

It is also carrying off fourth place in the red clover classes at the same show.

Plans are also shaping up for the Annual Convention of the Ontario Soil and Crop Association to be held during the last week of January. This year's general sessions are giving special attention to alfalfa and the theme being "Aids to Nature." A five year plan for farm improvement and Mr. Lawrence Kerr who is well known in Haldimand will be the speaker on "Building Fertility with Cash Crops."

There will be a couple of panel discussions on "Storage and Preservation of Silage" and "Handling the Water Problem."

Dutch elm disease seems to be on the increase in Ontario and during the past year it was found here in Haldimand so it has just been announced. Unfortunately there is no very practical method of control, but up are trying to curtail its spread by cutting and burning infected trees. The only known method of spreading this disease is by bark beetles. There is a bulletin on this disease available from the Canada Department of Agriculture.

Now that we are well into the winter feeding period it might be well to briefly review our cattle feeding methods. For instance it might be a

good idea to ask ourselves if we are feeding sufficient concentrates to our dairy cattle. Needless to say it is wasteful to feed all the cattle in the herd the same amount of grain ration. It is generally conceded that the best method is to feed in proportion to the productive capacity of the cow. By experimentation the feeding of one pound of grain mixture for each 2 to 5 pounds of milk produced is about right. It may vary a bit with the cow and that will have to be discovered by the feeder. If the cow responds to a little more feed she will be that much more economical as a producer and it will pay to give her more up to the limit of her normal capacity.

Expensive farm equipment should never be left outside when it is put under the shelter of a shed or covered and located where livestock and poultry can have no access. These machines should be kept in good condition and they should be good for the result. There are plenty of rust-proof compounds on the market and they should be applied. The machines should be carefully cleaned before applying the compound. Fertilizer drills should be cleaned very carefully after each use to avoid damage from rust. Be good to your equipment and it will be good to you.

Haldimand hog producers marketed 1955 hogs through inspected plants during November which is six hogs less than during the same month a year ago. The interesting thing is that 4822 of those or 55.31 per cent were in the top grade. This is the second month in a row that we have had over 55 per cent grade "A". It is a long time since that has happened and the hope is expressed that the "jim" has been lifted and that Haldimand may get back some of her prestige as a producer of high quality. There are still too many overweight hogs going to market, that is C's and E's.

If you are interested in any of the Short Courses that are being put on at the Ontario Agricultural College, Haldimand, please write to the college in immediately. Most of these courses will run from January 3rd to 15th and cover a variety of subjects. The Soil and Land Use course will be outstanding as will

When Haldimand consistently led the Province in the Victory Loan campaigns during World War II, J. N. Allan was at the head of the County organization for each one, and his relentless drive towards success in each instance was equalled only by his own disregard for personal comfort, and he saw his home but seldom during those hectic days. When a campaign for a new hospital was necessary, again J. N. Allan took over the responsibilities, report indicated healthy activity in the County. He is also a past president of the Haldimand Lions Club, and the largest spending departments in the government, and therefore will be in a position to exercise as much or more influence than any other cabinet member.

When Haldimand consistently led the Province in the Victory Loan campaigns during World War II, J. N. Allan was at the head of the County organization for each one, and his relentless drive towards success in each instance was equalled only by his own disregard for personal comfort, and he saw his home but seldom during those hectic days. When a campaign for a new hospital was necessary, again J. N. Allan took over the responsibilities, report indicated healthy activity in the County. He is also a past president of the Haldimand Lions Club, and the largest spending departments in the government, and therefore will be in a position to exercise as much or more influence than any other cabinet member.

Truly, Premier Leslie Frost and the Province of Ontario are fortunate in that James N. Allan acceded to the demands that he represent this riding in the Ontario Legislature in the last election, and a new and outstanding Department of Highways is bound to come of this appointment. Hon. James N. Allan, Minister of Highways for Ontario cannot, and will not, settle for anything less than perfection, and will work day and night towards this goal. If anything, Dunnville will be the loser in the deal, since this will develop into a full time job practically, and we in the Minister's home town will see less of him than anyone. Be this as it will, we here already know, and Ontario will soon learn that this was one of the wisest appointments the Premier ever made.

On Sunday afternoon last there were 526 hockey fans at the Port Dover Community Arena to enjoy the hockey game between Delhi and Port Dover teams. It was a good game to watch and the result of the 60 minutes of play certainly delighted the fans.

It's a great pastime and a fine place to get a good game, the folks congregated on a Sunday afternoon to see a good game, even if they do have to contribute 50¢ or 35¢ to get in, which is divided between the teams and helps to keep the arena operating. And the same goes for the Sunday evening crowds at the Skating Club—a couple of hours of entertaining fun and exercise for those who love this great winter sport—at a small cost of 25¢ if you have membership in the Port Dover Skating Club.

In the winter time, its hockey and skating; in the summer time its baseball at the Lions Playground every Sunday afternoon for a very small admission fee which also is divided between the participating teams and the park management. And here, too, we can see nothing wrong with it just because one has to pay a small entrance fee. What better way to spend a summer afternoon than sitting on the bleachers at Lions Park under the blue canopy of heaven, watching an hour or two of your favorite sport? And what else is there to do as an alternative in Port Dover (or Jarvis, or most any other municipality for that matter)

THE JARVIS RECORD

Let Us Have Faith That Right Makes Might And In That Faith Let Us Dare To Do Our Duty As We Understand It

JARVIS, ONTARIO, THURSDAY, JANUARY 13, 1955

MEMBER FOR NORFOLK-HALDIMAND INSTALLED IN NEW OFFICE BY LIEUT. GOV. LOUIS BREITHAUP

ON WEDNESDAY, JANUARY 5th, 1955

NOT WITHOUT HONOUR IN HIS OWN HOME TOWN

(Dunnville Chronicle)

It was with feelings of pride that the people of Dunnville in particular, and of Haldimand-Norfolk in general learned of the appointment this week to the Ontario Cabinet of Mr. James Noble Allan, member of the legislature for Haldimand-Norfolk, who was on Wednesday afternoon sworn in as Minister of Highways by the Lieutenant-Governor of the Province, Hon. Louis Breithaupt. That the choice is a good one, those that know Hon. Mr. Allan will realize best, and he will carry into the office a personality and integrity, plus a self-sacrificing but driving energy that will reflect more than a modicum of the constituency he represents. The position is far from being an easy one to fill, especially since during the past four months a firm of management consultants have been introducing a gradual reorganization of the Department. Some of these changes have already been put into effect, but others are still pending, and to build up the Department, and to get it running smoothly again under a complete change-over is going to produce more than a modicum of headaches for the new Minister and his staff. That he was more than capable of handling the situation, however, has long been obvious to Premier Hon. Leslie Frost, as it has to all of his colleagues in the Legislature, and the fact that Hon. Mr. Allan represented a rural community helped considerably. That J. N. was cabinet material was obvious from the time of his election, and that such a position as this — calling for tact, time and experience — should fall to his lot seems to be more than just chance.

That Hon. Mr. Allan goes into his new job with experience is indicated by his background, which includes many years of active interest in highways on a municipal, county and provincial level, and he is a past president of the Ontario Good Roads Association, having sat in the prexy's chair for the year 1944. He is at present a life member of the Association. James Noble Allan was born in Canboro, and attended the public school in that township, coming to Dunnville High School and later to the Ontario Agricultural College, where he received the degree of B.S.C.A. In 1916, Mr. Allan was married to Lilian Jane Harvie, and they have two children, Harvie J. and Lilian Jean (Mrs. A. Sabiston). Mr. Allan continued to farm until 1919, working some 300 acres, and then he came to Dunnville, where he acquired the Dunnville Dairy.

The fact that he had worked so large a farm set J. N. out as industrious, and the same sense of responsibility and ever-driving energy made him build up a thriving real estate business in Dunnville and he served as Mayor, as well as Reeve and Deputy Reeve, thus putting in many years on the County Council, and rising to the position of Warden — the highest honor his County could offer him. For some years he resigned from public life officially, that is, but at the same time he was always available and ready to lend in any cause that called for his attention — and he came back into the public eye when he was elected to the Ontario Legislature in 1951. That he should have been chosen last year as chairman of a committee to investigate Garden Type Cemeteries in Ontario, and in 1955, only a little more than three years after his election that he should be appointed a Cabinet Minister, certainly shows the measure of the man. Added to this is the fact that in the Highways Department, Hon. J. N. Allan will head one of the largest spending departments in the government, and therefore will be in a position to exercise as much or more influence than any other cabinet member.

When Haldimand consistently led the Province in the Victory Loan campaigns during World War II, J. N. Allan was at the head of the County organization for each one, and his relentless drive towards success in each instance was equalled only by his own disregard for personal comfort, and he saw his home but seldom during those hectic days. When a campaign for a new hospital was necessary, again J. N. Allan took over the responsibilities, report indicated healthy activity in the County. He is also a past president of the Haldimand Lions Club, and the largest spending departments in the government, and therefore will be in a position to exercise as much or more influence than any other cabinet member.

Lions Stick To Business At First Meeting in 1955

The opening meeting of the year 1955 was confined strictly to business as the members discussed plans for the coming months and heard committee reports.

Lion Bob Lysch, chairman of the Boys and Girls Committee, gave a report on Scouting activity on behalf of the leader, Keith McDonald. The report indicated healthy activity in the Scouts and Cubs and also that the finances of their organization were at a low ebb. Lion Bob moved that the Club make a \$25.00 grant to the scouts which was quickly approved.

He also announced that the scouts are planning a series of paper drives in the months ahead. It is expected the first paper drive will be in early February and the date of the paper collection will be announced later.

He also reported that the first skating party at Port Dover last Wednesday night saw 141 children from the community enjoying the healthful activity afforded them through the kindness of Lundy & Henderson and the Lions Club. Skaters were appointed for the next two Wednesday nights.

Lion Porter, chairman of the Health and Welfare Committee, reported several cases of assistance through the Christmas Season.

As chairman of the Civic Improvement Committee, Lion Bill Anderson started the ball rolling when he asked the members what they thought of the suggestion of building a store for Lions Club materials. He thought the building should be 40x60 feet, built on a concrete foundation. It was immediately agreed to build a storage, but the site and type of building brought forth many ideas. These ideas included an annex to the present Community Hall; a new shell, and new bleachers at the ball park. Before proceeding with any type of building it was suggested by Lion Art Right that permission to build would first have to be secured from the Village Council. A committee composed of Laird Miller, Geo. W. Walker and David Banks, was named by the President to wait on the Council and endeavour to reach a working agreement for the operation of the park.

Lion Bryce Linklater will have charge of the Minstrel Show for 1955, and the event is scheduled to take place sometime in March. Considerable discussion took place as to the best method of selling tickets. The proposal of selling tickets from the final decision in this respect and an early announcement is expected. The admission price this year will be 10¢ per person.

CARD OF THANKS

I want to take this opportunity to thank all of my friends and neighbours for the gifts of fruit, cards and presents given to me during my illness. I would also like to thank Mr. Richardson for his kindness and prayers. The Rebekah Lodge, The Past Noble Grand's Club, C.E.T. girls, Mr. McDonald and Cubs, Miss Saunders and Grade 4 - 5, Lions Club for loan of wheel chair and all the other people who were so kind to me. Once again, Thank You All. Larry Cassidy

O-O-H - THE POOR HEN -

Charlie Stone brought a hybrid hen's egg into the office this week that measured seven and a half inches in circumference. Measuring around the long way the rule stretched out to nine and a quarter inches. Our only conclusion was that Charlie's hen must be a first cousin to the ostrich. Eggs of this type are certainly too big to be producing on the basis of present price levels.

A report on the Marshall Dairy Christmas Party was given by Mrs. Evelyn Brown. N.G. Marjorie Mitchell announced that the members of the club had been divided into two sides, namely pink and green. The leaders being Mrs. Nelson, the Backhouse and Mrs. Evelyn Brown. There were twenty members supporting the green side and nineteen members for the pink side present for this meeting. All members are asked to support their side for the meetings during the term of a C.P.T. card party is to be held this Thursday evening in the I.O.O.F. Hall.

Mr. and Mrs. Alfred Wardell, of Port Dover, will announce the engagement of their daughter, Marion Isabel to Mr. Gordon Harold Kindree, son of Mr. and Mrs. Harold Kindree, Jarvis, Ont. The wedding will take place Saturday, February 5th, at 2-30 P.M. in Grace United Church, Port Dover, Ont.

ENGAGEMENT

A goodly number of Haldimand Junior Farmers attended the Annual Junior Farmer Conference which was held in the King Edward Hotel, Toronto, on Tuesday, January 4th. Marie Saunders of Nanticoke represented Haldimand in the public speaking competition when she spoke on "Canada's Northland". Marie had the honour of being chosen as one of the five finalists who spoke at the evening program. She was presented with a Farmer pen and pencil set by Col. C. H. Reeve of the Eaton Company Ltd. as were each of the other finalists. Col. Reeve in his remarks commended each of the final speakers on the high calibre of their work.

The Haldimand Mixed Quartet and Ladies Trio also took part in the day's program. Members of the Mixed Quartet were Ruth Hewitt, Ruth Goss, Howard Hewitt and Larry Hise and the trio members were Molly Hedges, Molly Jackson and Ruthanne Vokes. All of those who took part and represented their county did an excellent job and are to be congratulated for their efforts. A great deal of credit is due Mrs. Whitelaw for the work she did not only with the Mixed Quartet but also with the Mixed Quartet and Ladies Trio which she directed as well.

The winner of the competition was Harold Shiry of Preston in Waterloo County.

The Haldimand Male Quartet which was directed by Mrs. A. Whitelaw of Hagersville and included Larry Hise, Roy Hare, Roy Doughty, Albert Sheppard and Howard Hewitt was placed second being beaten only by Ontario County which was placed first in this competition.
