Here's why Chevrolet
Out-Lasts
all comparable makes!

Learn what engineering leadership brings to V8 power

Modern 12-Volt electrical system
This 12-volt system, with its heater, faster spark, is exclusive with Chevrolet in the low-priced three. It gives faster, surer starts on cold mornings, and provides a big supply of reserve power.

Controlled full-pressure lubrication
Controlled full-pressure lubrication results in greater oil economy and in longer engine life. The oil is forced to every working part of the engine.

Better all-round performance
Chevrolet's "Turbo-Fire" V8 makes use of General Motors' long experience in making unbeatable V8's for high-powered cars. That's why Chevrolet's V8 performance is unrivalled by comparable makes.

Highest horsepower per pound
In Chevrolet's "Turbo-Fire" V8, thorough engineering has eliminated all the dead weight and unnecessary mass that slows down other engines in comparable makes.

Saves 1 mile of engine wear in 12
Because the piston moves a shorter distance, it actually saves 1 mile of engine wear for every 12 miles you drive. This also puts lighter loads on the bearings.

Only Chevrolet offers you the choice of a V8 or 6

ating a flourishing publishing business augmented, we have, no doubt, with outside contracts of a profitable nature. We, of course, struggle along serving our immediate community as best we can and must operate on a limited budget. We do not know, therefore, the joys of a southern holiday in the month of May such as Sam is experiencing this week. We have to hand a card, dated Monday night, May 8th, from Culpeper, Virginia. In the body of the card Sam presumes that about that time he is writing it that we are cheering James N. Allan the P.C. candidate for Haldimand-Norfolk. How right he is in that particular. He then goes on to say

If the Jarvis softball team turns out to be as smart as the new uniforms the members will be sporting in a couple of weeks there can be no doubt about a Provincial Championship this year. Thanks to the generosity of Fred Reichel the team will be completely outfitted for the season and the uniforms used last year will be available for a second team now in the process of being developed for an O.R.S.A. group.

Monday, May 23rd, will be here before we know it. There is a lot to be done. First of all Bill Clark wants to have a parade a mile long with helen entries then ever and in order to achieve that all the parade minded folks will have to get busy right away. As the parade goes so goes the celebration, so let's make the parade this year the best yet. Every business in town should be represented. We'll admit it takes a lot of work but if we get started early the job can be spread out and something nice really accomplished. We all love a parade. Let's help make it a good one.

We have to hand an epistle from our friend Bob Smith up at Lake Onaping. Bob, as many in this community know, left his home here a couple of weeks ago to open his camp at Lake Onaping for the season. Most folks know too that he took along a fellow known in some quarters as the "Little Farmer" but generally as Cy Saunders. "Regular reports on Cy's conduct at Onaping. It seems he is doing pretty well, having fallen off the dock only once to this date. He has also acquired a black eye and an assertion that he ran into a door. It must have been one of the doors where the hinges had been allowed to rust, a feature, incidentally, one of the cabins at Bob's camp.
