## ANNE HIRST - your Family Counselor -

"Dear Anne Hirst: I am a bewildered and unhappy fiancee because for nearly a year I have kept my man waiting. I am afraid to marry him. My mother is badly handicapped, besides being one spoiled woman, and she would have to live with us, for I cannot pay board for her

elsewhere.
"She has always objected to any man I knew because she hates the idea of my marrying. My fiance is patient and wond-erfully kind, but she doesn't get along well with him and I know it is mainly her fault. Wouldn't it be harder for him after we marry? I really am frightened

at the prospect.
"I must take that chance, though, or end my engagement. We love each other deeply, but I can't ask him to wait any inger. (He is 31 and I'm 26.) He insists we shall all manage somehow, but have I the right to expose him daily to my mother's irritating ways and her foolish whims? I value your

opinion, so please give it.

IN LOVE BUT AFRAID" · Your fiance is old enough to see your mother as she is yet · so eager to marry that he is · unafraid of the consequences.

## CHRONICLES GINGER FARM

There has to be a first time for everything and last week we had it. That is to say for five days we had the privilege of taking care of our grandson without the help of his parents. Daughter was away to camp with her troop of Girl Guides and Art was busy on the transportation end of the affair. So ... we had Dave. He was asleep in his cot in our room when his parents left and we wondered what the reaction would be the next morning. We need not have worried. Dave accepted the sitnation and took everything in

because it is pleasantly cool. In the Old Country I was never warm enough but I can certainly take the cool weather better than the heat, especially when it goes on day after day. It is exhausting to say the least. Sometime I think there should be a law against working in temperatures over 90 degrees. Who was it said — "Only mad dogs and Englishmen lie out in the mid day sun."—or words to that effect. Here's hoping we don't get another heat wave for a little while. Some jobs are quite impossible in hot weather.
