ANNE HIRST Your Family Counselor

"Dear Anne Hirst: I've been | • Hold on to your faith. Many going steady with a boy who is away now at college, and I am a bit disturbed. I haven't been out with anyone else since he left and he writes he hasn't either, and I believe him. But all of my friends say I should wake up, that no 18-year-old boy in college is going to be faithful to someone who isn't there.

"I am 16, and I am contented the way things are. He is a good Christian (I hope I am) and we are very happy when we are together. Will you please give me your advice? A WEEKLY READER MISGUIDED FRIENDS?

It is a common practice am-* ong unattached young people * to envy others whose romance * is blooming; ;they cannot bear * their jealousy sometimes in spires them to instill doubts, in * the hope they can break up * the friendship. Whether your * friends are so moved I can-* not say, but I urge you dis-* count their opinions and hold on to your faith in the lad who

The important associations * in life are founded on mutua * faith; the business of the * world is conducted on belief * in the integrity of one's part-* ner. Friendships that last a * lifetime depend on the same * trust, the sure knowledge that * they will never let one down. * How much more, then, should * two who hope to marry some * day believe with all their * hearts in each other! It is true * that either can change as one matures and finds a more * satisfying companion, but how * many more cling faithfully to * their common yows and en-* joy their full reward.

* This young man apparently * has been just as faithful as * you. Trust him as you always * have, and close your ears to * those who would arouse doubt * of his loyalty. Should he re-* gret his promise, you will * know; until then, don't insult * him by entertaining any fears. * Remember that faith begets * faith, as doubt engenders * doubt. You are happy as * things are, and so is he. * If the day should come when you find your belief misplaced, you will have the com-* fort of knowing that you * kept your part of the bargain * How dreadful it would be if * you listened to these so-called friends only to find you had · misjudged him!

* an absent sweetheart has re-* sisted temptation because he knew his girl trusted him.

A DESERTED WIFE "Dear Anne Hirst: I have separated from my husband because he has been going out with another woman. I love him so much it would break my heart to lose him, and I am so frightened and confused I don't know

where to turn. "We have a little girl, and expect a baby in a few months. Do you think my husband will come back home? His family are so ashamed of him, and have tried to persuade him to return; he seems unmoved. Of course I have pleaded desperately with him, but he is cold to me. "Would you advise getting a divorce now, or waiting?

MARIE" If you have any family nearby, talk this over with them; not, discuss it with your husband's people. They are sympathetic and can be of comfort. Beyond this, there seems little vou can do. In his present mood you * hasband will pay no more attention to anything you say than he has to his family. But as the time nears for his second child to be born, he may come to his senses and realize at last how much you need him If you can wait a little longer to consider divorce, I * hope you will. You have my * deep sympathy.

What boy is going to keep on loving a girl whose faith in him blows hot and cold? Trust the one you care for, and let him know it. Anne Hirst is here to help you get the most out of living. Write her at Box 1, 123 Eighteenth St., New Toronto,

How they finally solved the problem I don't know. Increasing the number of appliances without inspection of the wiring is like pouring into a pitcher that is already full and a lot more dangerous. Old houses were never wired to take the load that is expected of them now. Dee and Art found that out to their sorrow after moving to another house last spring. They soon called in an electrician to look over the situation. What he discovered in the way of faulty homewiring was a crime Of course everything is all right now but

it was naturally an unlooked for Which reminds me - David went to hospital again last Thursday and can'e home on Friday - minus his tonsils and adenoids At first he seemed so well but now he is running a temperature. We hope it is only temporary and that this con-cludes his visits to the hospital for a little while Honey is having her turn too and is in the Dogs' Hospital for observation and treatment for partly paralyzed hindquarters. I asked Daughter if Honey's hospitalization came under the Blue Cross. You can imagine her

answer. Well, we thought we had heard almost everything in the way of advice to farmers, but last week Professor D. R. Campbell, head of the O.A.C. came out with something quite new. In brief he said there were too many farmers and of one evening blow- those in low income groups ing fuses and replacing them. should move to the city and

IT'S SNOWING!-Pretty Nancy Garrison gaily lifts her face to the snow as the fluffy flakes fall on Memphis was having its deepest snowfall—five inches and more falling—since 10½ inches fell there on Jan. 19, 1948. But 16-year-old Nancy seems delighted. And why not? School was let out at noon because of the snow.

seek more profitable jobs in industry. As if young farmers need encouragement in that direction! Promising young fellows, showing every indication of becoming modern and progressive farmers, have already been lured away by industry's shorter hours and higher wages As for hired help a good man is hard to get. In fact this problem alone deters many farmers from operating their farms to capacity - and in that way they help increase the number of low-income farmers. We have a great many, industrial plants in this district and jobs are already being filled by men and boys from nearby farms. A young lad, who has already quit farming for a factory work would undoubtedly listen to Professor Campbeli's remarks with glee. I can imagine him turning to his father with the remark - "There, Dad - you see I am on the right track. That chap says there are too many farmers. And he should know." A young fellow wouldn't stop to analyze the fying remarks.

statement and sift out the quali-It is all very confusing. A great hue and cry about farm and being taken over by the St. Lawrence Seaway, Department of Highways, subdivisions and industrial plants — and then Professor Campbell says in a public statement there are oo many farms. What are we to think?

Lost Rings

Something that sparkled the gutter caught the eye of a Swedish teacher as he hurried home from school on a gloomy afternoon recently. He picked it up. It was a diamond ring. He took his find to the near-

est police station. "Well done," said the police chief. "It's worth about \$3,000 and belongs to an Indian prinher finger somewhere. She treasures it so much that the police of half Europe have been looking for it."

stantial reward. Queer stories of lost ring restored to their owners are constantly hitting the cords

JUST A MILE TO THE NEIGHBORS-Straight down that is. Caretaker Louis Hillis shovels snow from the roof of North Rim Lodge at Grand Canyon. A mile below his 8500-foot eyrie is the nearest neighbor, at Phantom Ranch on the banks of the Colorado River. If Hillis longs for company, only alternative to becoming an angel by stepping off Bright Angel Point, where the lodge is located, is to snowshoe 44 miles to Jacob Lake, Ariz. From October to May, Hillis and his wife are isolated save for radio contact. Then come lodge employees and the tourists.

BALD EAGLES

Last October two ardent Duck Shooters, Sandy Stuart and Doug

Matthews, had the thrill of While crouched in their duck blind early one morning they. were startled at seeing a great Bald Eagle swoop down and take a look at their home-made decoys bobbing in the water. After sizing up the situation and apparently being satisfied with the prospects of an appetizing neal (from the wooden decoys), the big bird pounced on its choice seizing it by the head and making off only to have its breakfast jerked from its talons when the long anchor cord tightened.

This interesting episode is related here as it seems to tie in with the recent article on Bald Eagles published in "Conservation Corner" and reprinted be-

"Under legal protection Ontario in recent years. Bald Eagles have been enjoying a slow but steady return to some thing resembling their former abundance. This is true in all but areas most densely popula-ted by humans, yet Bald Eagles are by no means abundant in Ontario, and probably never will be, according to District Forester A. J. Herridge, of the Ontario Department of Lands and Forests.

'Of the more than two dozen different kinds of birds of prey that occur in Ontario, only the Bald Eagle, and the Osprey or Fish Hawk are legally protected,' he points out, 'although all but one or two species are essentially or completely bene-'The one large area in North

were killed primarily because of their alleged depredations upon the salmon.

Because of the controversy

status of Bald Eagles, and because of the unusually high de-gree of popular nterest which attaches to these birds, they have been the subject of much study,' Mr. Herridge points out. 'Interest undoubtedly was

further aroused because early in the history of the United States the Bald Eagle was selected as that country's national emblem by Act of Congress, June 20, 1782, when a design for the national Coat-of-Arms displaying the Bald Eagle was adopted. 'In their economic effects, the carrion-feeding habits of the Bald Eagle are considered to be neutral. Walter Barrows, writing of conditions in Michigan some forty years ago, which are as true today, says,' Mr. Herridge points out: "Although

it frequently captures worthy prey, in open flight or by direct attacks, it often robs the fish

hawk. When nothing better of-

fers, it feeds freely upon decom-

'This is still essentially true in

most of Canada and the U.S.,'

says Mr. Herridge. 'The princi-pal difference is that the Bald Eagle's potential for either good

or harm is now significantly

of the bird's decreased numbers.

'In Ontario, Bald Eagles are

never likely to become abund

ant. If adequately protected, however, by an understanding

and appreciative public, they should remain in modest num-

bers as an integral part of this Province's wildlife population."

ANOTHER TOMORROW - Two dawns are pictured here—dawn over Vernalis, Calif., and some future dawn, key to which is this huge balloon. The gigantic bag is a new type of meteorolo-gical balloon being tested by the Air Force. It carries instruments slung in a gondola beneath the envelope. Balloons of this type are used to probe secrets of the upper atmosphere in efforts to extend man's range of flight.

Danger A-head Karl Schneider, Hitler's chauffeur, who provided the petrol for the Fuhrer's funeral saying that Hitler's head was sent to Moscow soon after the

The heads of people who died violent deaths have often gone on strange journeys. When Mrs. Ruxton was killed by her doctor husband, her head was found in a ravine in remote Scotland. Mrs. Crippen's head was never found but it is believed that Dr. Crippen took it with him in a handbag when crossing to Dieppe and dumped it in mid-

oured this technique was Kate Webster, who killed her landlady, Mrs. Thomas. She carried the old Lady's head in a black handbag when she went to meet friends and later dropped the bag over a Thames bridge. Sir Vere Goold also used handbag. He owed money to a wealthy Swedish widow, Mad-

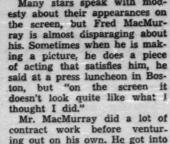

ame Levin, and when she pressed him for it, he killed her.
French police arrested him as
he was coming out of a hotel carrying her head in a handbag. Some killers, moved by sirange impulse, have preserved the heads of their victims. When Voisin killed Madame Gerard in Soho during the first world war he preserved her head and hands in a cask of bran. Sgt. Preyvost, a French gendarme, killed Lenoble for some jewellery which his victim had brought to show him. He put the dead man't head up the chimney where it was smoked dry.

Another killer fascinated by heads was Madame Jabourvuski a Polish woman living in Paris in the last century, who had a number of young men admirers. Their heads were found on her premises, preserved in acid.

But when Voirbo cut up
Desiree Bodasse's body, he bored holes in the ears and filled
the head with molten lead. Then

he threw it into the Seine.
