

The weatherman might not be aware of it but he was responsible for developing quite a crop of stomachache victims last week among those responsible for arrangements on the Victoria Day Holiday on Monday. A week ago, for example, the show had been called off. Less than a day later it had been called on again. Many things that should have been done were left undone until the last minute because the condition of the park prevented anything being done about it. When Monday arrived however, the ulcer sufferers began to realize it doesn't pay to worry about things. Except for a passing threat of a shower around two o'clock, the program was run off without any serious trouble and everybody seemed to have a good time.

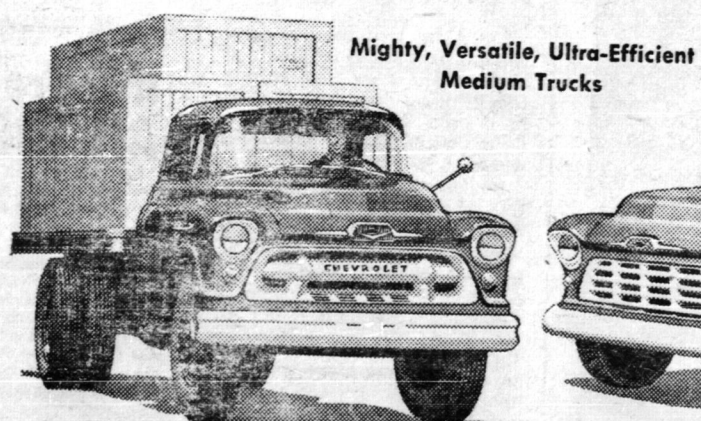

If the attendance at the first British Motor Club race at Harewood Farms is any criterion this development can grow into big things.

GARNET WOMEN'S INSTITUTE

The May meeting of the Garnet Women's Institute was held on May 10th in the basement of the United Church with Mrs. E. Phillips as hostess.

Our new president, Mrs. M. Phillips opened the meeting with the Ode followed by the Mary Stuart Collect and the Lord's Prayer. She read a poem "Spring Cleaning" and then welcomed the 24 members present to the first meeting of her 7th year.

Mrs. E. Phillips acted as secretary in the absence of Mrs. R. Phillips who is attending the conference at Guelph and read the minutes of our last meeting.

It was agreed to donate \$10.00 to the Blind and also to join the Canadian Consumers Association with Mrs. J. Ebert as representative.

It was also agreed to give Mrs. R. Phillips \$10.00 for her work as secretary. Our President reminded us of the District Annual which is being held on May 24th in the United Church in Cheltenham.

Mrs. R. Nichol convulsed the appreciation of the members for the untiring efforts she put into her work in presenting our past President, Mrs. G. Cherry with an Institute Pin. The motto was given by Mrs. J. Burgess and the topic was prepared by Mrs. R. Johnson and read by Mrs. R. Nichol. Mrs. G. Cherry gave a very interesting paper on the social life of Ceylon.

Current Events were very well taken care of by Mrs. H. Nichol. There was a bearing on the display year after year, and conditions seemed just about right last Monday night.

Good morning... I'm your Census Taker

When I call at your home during the next few weeks I will have only a few simple questions—the name, age and marital status of those living at your address. If you live on a farm, there are some additional questions about acreage, crops, livestock and equipment.

The information you give me will be kept in strict confidence. Every Census worker has taken an oath of secrecy. By Act of Parliament, the personal information gathered by the Census about individual Canadians can be used only for general overall statistics. It cannot be disclosed to any government agency or private organization.

Canada is taking count to keep up with her rapid growth. Census facts are required to meet and plan overall national needs—schools, public utilities, welfare services, farm and industrial production, employment.

The 1956 Census—the essential measure of Canada's growth.

It's a big job—your cooperation will help us do it quickly and accurately.

Every census taker carries this official identification card to show that he or she has been appointed by the Government of Canada to help take the Census. Ask to see it.

THE PRICE of a basic industrial product in an expanding country such as Canada should be low enough to encourage maximum sales against world-wide competition. The price should also be high enough to recover all costs and provide an adequate profit.

Without profits further expansion could not be paid for, and expansion is necessary if there are to be new jobs for our increasing population.

In fact, without profits there would be fewer and fewer jobs than now, instead of more and more.

And without profits there would be no return for the shareholders on their investment; and there are almost as many shareholders in industrial companies as there are employees.

The right price for Canada, then must include a profit for investment in our future growth.
