Theory of Radiation Pressure.

Mr. Meehan points out that Mr. Hull was been and raised in Garnet, a son of John Hull, who was a school teacher. Some of our older residents may remember Mr. Hull.

Me are informed that motorists and bicycle riders were anything but helpful to the Fire Department when an alturn was responded to at its money and any afternom. Fortunately the fire truck arrived. But, had it been necessary to manoeuvre the vehicle for a water supply, it would have been encompossible to do so, due to the conimpossible to do so, due to the conimpossible to the contest of the supply it would have been to produced a water truck arrived. But, had it been necessary to manoeuvre the retruck arrific. Parent men the fire truck hars that it is mpossible to be leieve that society will continue to produce supply it would have been to produce that fire free movement of the vehicle. Besides it is dangerous to their prevalue and the free truck hars the right-of-way pulsiblers have to work the 60-hour weekly newspapers will be produced by a co-operative organization own-which for the motorists and bicycle riders were anything to the part of the United Church Another the fire truck has the fire truck has the right-of-way pulsiblers have to work the 60-hour week without wailing and are rapidly whenever there is a fire and that they should do nothing to jeopardia whenever there is a fire and that they should do nothing to jeopardia will not only the produced by a co-operative organization own-which fire truck has the right-of-way bullshers have to work the 60-hour week juneary service next Sunday. All are cordially invited to attend the fire truck has the right-of-way pulsiblers have to work the 60-hour week without wailing and are rapidly whenever there is a fire and that the fire truck has the right-of-way pulsiblers have to work the 60-hour week produced by a co-operative organization own-which is designed to the produced by a co-operative organization own-which for the form of the part of the first produced to the

with the law. This should be a pleasant reflection for all citizens. We flect that for nearly eighty years our always associate our local police chief paper has been serving the communwith this happy situation. The enity and we haven't the heart to make forcement of law and order is a complex proposition. Some people are naturally ornery cusses and invite contests with the law. Making arrests is not necessarily and primary duty to a policeman, particularly in a small community such as this. The phsycological approach tends toward a peaceful community and our local police chief knows his people such as decision. We'll admit that we're not much in the way of a newspaper, but we'll wager that not many local folk would be happy to see the present or future generations. At the same time we can't for the life of us same time we can't for the life of

calves were sold at the third annua Niagara District Guernsey Club Sal last week for an average of \$191.50 each. This figure did not include two calves. The top price for the day was \$440.00 which is the highest price et realized at this sale.

Feeder cattle may now be bought FISHERVILLE auction at the Ontario Stock Yards in Toronto. The first of these sales took place on Wednesday, October 17th, and they will be continued on Wednesday of each week. Truck and carlots will be offered with 10 head being the minimum lot size. Nearly 800 head were sold at the first sale with 19 cents being the top price. 126 Talbot St. Most lots moved out at 16 to 17 cents. This is a new departure for the Stock Yards and it is hoped it Regular Meeting

Latest reports indicate an increase Latest reports indicate an increase of 51.5 per cent in the movement of Canadian feeder cattle. Up to the end of September some 201,000 head moved from plants and yards to the country. The movement of cattle from West to East during the first nine months was 98 per cent greater for feeder cattle and 193 per cent greater for feeder cattle and 193 per cent greater for feeder cattle and in 1955.

The Municipal Council of the ship of Walpole met on Oct. 5 suant to adjournment, with members present, and Reeve Cox presiding.

Minutes of the September members of the September in the movement of the suant to adjournment, with members present, and Reeve Cox presiding.

Minutes of the September is the first nine months was 98 per cent greater for feeder calves than in 1955.

not seem to get any brighter as the season advances. Reports now would indicate that the alfalfa seed crop may be the smallest on record and far below average. In Ontario, it is estimated that the production will not exceed 40 per cent of last year's crop. Practically the same story holds for the red clover situation. It is estimated that the crop in Eastern and Western Ontario will be about 35 per cent of the 1955 crop while in Northern Ontario it may not be more than 10 per cent. of last year's production.

1955.

Small seed production prospects do not seem to get any brighter as the season advances. Escason advances.

Stored grain insects can cause tremendous damage in a very short period of time. This year when every pound of 'grain is important no farmer can afford to let this happen. It is estimated that in the U.S. alone, the damage caused by these pests the damage caused by these pests will be at least \$300,000,000.00 per year. If your grain is showing signs of damage taking place, be sure to get the latest information on methods of control and stop the damage before it has gone too far.

than one million eggs and larvae in 150 days. This will give some idea as to how quickly an infested bin can be destroyed.

Do you eat like a bird? This phrase which usually describes a small eater is really a misnomer as birds ordinarily devour 100 times thteir own weight in a year. A man with a good healthy appetite will only eat about eight times his own weight in a year.
