The Courteous Tourist

It is possible today to travel from London to Paris to Vienna to Rome and back again to London and have a wonderful time without having to speak anything but English.

On the other hand, it now is possible to travel the same route for very little money by booking through-class or less and by staying and eating at modest places where frequent English is not spoken.

What then is the Canadian to do who is planning just such a trip this summer and wants to see and learn something about the rich and old continental civilization, where many people speak only French or German or Italian?

Advice from those who return is varied. But here are some tried tips which may help:
Make an attempt to learn a few words at least of your host country's language.

HOME FOR HANNA

Christian George Hanna, born at sea, an orphan at six and a wanderer for most of his 23 years, won a round in a legal battle and may have found a home at last.

Mr. Justice Henry Sullivan of the British Columbia Supreme Court ruled a deportation order against Hanna would be "undisturbed" at least for the present.

so that Europeans who know only a few words of English may get what you mean with the least effort.

It's Garden Time Again!

Once again its gardening time in Halldam County. Local 4-H Club Ladies met on Friday, March 29th, at the Rural Youth Centre.

Each club member will be required to plant, fertilize and care for a garden during the summer as well as attend four club meetings.

A further step to assist in increasing the fertility of Ontario farm lands was taken recently when Hon. W. A. Goodfellow, Minister of Agriculture announced a substantial increase in Government assistance given in meeting transportation costs of agricultural line-tone.

ON THE FARM FRONT

Brief Notes for the Busy Farmer
BY HALDMAND HARRY

One of the facts brought out at the Special Corn Meeting recently held at the Rural Youth Centre was that more attention should be given to the planting of corn at an earlier date.

There is an excellent circular on the various corn varieties available which you can have for the asking at the office of your agricultural representative.

It will not be so very long before the cattle will all be turned out on pasture and now would be a good time to get all the calves vaccinated before they become too old.

Observation and down-to-earth common sense are two of the farmer's best aids when dealing with livestock and particularly when spotting anything that may be wrong.

speakers more definitely. The County Farm Forum submitted a recommendation favouring putting Farm Forum on television at least once a month as a trial next season.

bert Pond of Jarvis is on the Board of Directors for 1957.

The Annual Meeting of the Ontario Farm Radio Forum held recently in Toronto voted in favour of dating the topics for the coming season so that forums could plan ahead for

Somehow has figured out that every baby born these days creates a lifetime market for 45,710 pounds of milk for the total production for eight years of the average cow.

Condition as revealed in the handling of the skin is another indicator. The appearance of the droopings is when there is any. The good husbandman will note this normal variation of what the normal appearance of the animal may be and then variations from this normality will provide the symptom of something being wrong.
