What Canadian Politician Was Assasinated on an Ottawa Street ?

One of the very few victims of murder in Canada's history was Thomas D'Arcy McGee, a talented journalist and poet and one of the Fathers of Confederation. Born in Ireland, he was implicated in the rebellion of 1848 and obliged to flee the country. After a career as journalist and editor in the United States, he moved to Montreal in 1858. A delegate to the Charlottetown and Quebec Conferences in 1864 and an eloquent advocate of Canadian union, he was in a very real sense a father of Confederation. His opposition to Irish extremists incurred the enmity of the Fenian Brotherhood and on April 7, 1868, just after he had made a speech in parliament, he was shot at the door of his boarding house in downtown Ottawa by a young Fenian who was convicted and executed. McGee was one of the most brilliant orators in Canadian parliamentary history, an accomplished writer and poet, and an able administrator.

Who Composed "Tramp, Tramp, Tramp, The Boys Are Marching ?

This famous marching song was composed by Lachlan McGoun, painter and decorator, who came to Canada from his native Scotland about 1857, and after living in Montreal and Port Hope, settled in Napanee, Ont. He composed the song while serving with the artillery during the Fenian raids of 1866.

Who Was Simon Fraser ?

Simon Fraser, a fur trader and explorer of the early west, is most famous for his amazing journey down the B.C. river that bears his name This feat ranks with the great explorations of all time, but Fraser was disappointed because he had thought that the river was the Columbia. Between 1805 and 1808, when he made his famous journey, he established numerous trading posts for the North West Company, in which he was a partner. He failed in some business ventures after his retirement from the fur trade and died in poverty. A bust of Fraser was erected at New Westminster to mark the centenary of his great journey, and the Hudson's Bay Company placed a monument on his grave.

HOLIDAY IN MEXICO

Canadian Pacific Airlines' Toronto-Mexico City, Vancouver-Mexico City non-stop flights aboard DC-6B "Empress" airliners provide holiday-bent Canadians with an opportunity to visit the fabled Land of the Aztecs. The white sands of Acapulco beckon beach and surf enthusiasts, and the Mexican divers provide daily thrills for tourists as they risk their lives in high dives from rocky pinnacles into the Pacific Ocean. Pottery decoration at Puebla by native artists and the ruins at Tula are extra attractions for the visitor. (Canadian Pacific Photo)

ROCKFORD

(Intended for last week)

Mrs. Andrew Buck has spent a week visiting her son James, wife and family at Kingston.

Mrs. Stanley Anderson is visiting with Mr. and Mrs. Lindsay Irvine at St. Thomas.

Mrs. Earl Fisher, Mr. Frank Smith, Mr. Andrew Buck and Mr. and Mrs. John Thomson attended the funeral of Mrs. Ashton Somers at Burford on Tuesday.

A goodly number gathered at the church on Tuesday evening to bid farewell to Rev. and Mrs. Percy Page and family, who are leaving for Newport, N.S. in the near future. A program of readings and musical numbers was given, which had been prepared by Mrs. Don Chambers. Mr. Andrew Buck acted as chairman for the evening. Mr. and Mrs. Page were presented with two lovely blankets and the children with books. The address was read by Mr. Bud Priest and presentations made by Mr. Wilbert Howard and Lynell Slack.

Lunch and a social time brought the pleasant evening to a close.

ON THE FARM FRONT

Brief Notes for the Busy Farmer

BY HALDIMAND HARRY

Tomato growers in Haldimand should be on the alert for late blight this year. Already this disease has shown up on potato vines in some parts of the province and these can act as a source of infection for tomato crop as well. In addition it has been reported that some of the plants that have been imported from the Southern States have shown signs of being infected. It would be well to start the spray program earlier than usual this year.

—o—

Speaking of tomatoes brings to mind the last issue of the Can Crop News which shows the acreage of this crop to be greatly reduced in Haldimand in 1956. As a matter of fact it was only 592 acres as compared with an average of 1,110 acres for the past five years. The total yield is reported to be 2,263 tons or an average of 3.82 tons per acre. The average yield on the five year average of 1952 to 1956 inclusive is 6.09 tons. This is nearer the 6.47 ton average for Central Ontario for the same period.

—o—

Some further evidence on the deer population comes to light in a recent release from the Department of Lands and Forests to the effect that in the neighbouring county of Welland at least ten deer have been killed in six of the townships. Of these seven were by cars, two by trains and one was drowned. This amounts to one casualty every three days and is estimated to be one half of what it will be later in the season. Three of those killed were does carrying two fawns each which gives some idea of the increase to be expected This is another indication of the need for some control measures to be taken in so far as the deer population in Haldimand is concerned.

—o—

The horn fly is one of the commonest of the biting flies that trouble cattle at this season of the year and later on throughout the pasturing period. Indeed they are probably the most serious of the various pests that attack cattle on pasture. They are not so serious around buildings. It has been estimated that twenty of these flies are capable of draining a pint of blood from a cow in a week's time and this combined with the discomfort they cause will reduce the milk yield by as much as 25 pounds.

—o—

There are a number of commercial treatments on the market and if used they should be applied according to the manufacturer's directions. Certain insecticidies such as DDT should never be applied to milking cows or to beef cattle within two months of slaughter. Methoxyclor 50 per cent wettable powder can be used either as a spray or a dust. There are a number of space sprays available and as well the newer types of backrubbers or self treatment devices are reported to give reasonable control. If you need any further information ask your Agricultural Representative for a copy of the latest circular on the subject.

—o—

Haldimand hog producers marketed about 300 fewer hogs during May of this year than in April. This in itself is not so serious but the fact that only 520 or 26.06 per cent were in a "A" grade is serious. This is a drop of 5.27 per cent from April. One of the reasons for this drop is that there were almost as many "C" hogs marketed in May as in April (Just a drop of nine). There were more heavy hogs sold this past month than in April. If we are to maintain any semblance of quality it is necessary that more careful attention be paid to the time of marketing as well as to the methods of feeding and the basic conformation of the hogs that are being used.

1600 men will be watching you drive this summer

Provincial Police Officers—using patrol cars, helicopters, motorcycles and radar—will be keeping a watchful eye on Ontario roads this summer. They aim to protect you, the travelling public, by encouraging obedience to the highway laws.

For your own safety and that of your neighbours, be careful whenever you drive. Stay within the law and avoid inconvenience, as well as possible prosecution. It will be a more pleasant summer if you do.

NEW TELEPHONE RATES EFFECTIVE JUNE 29th

The standard rate of 10 cents for each local call from public and semi-public telephones became effective in Jarvis on Saturday, June 29th, according to D. A. McArthur, Bell Telephone manager for this region.

Approval in principle of the 10 cent rate for local calls from all of Bell's public and semi-public telephones was given in November, 1956 by the Board of Transport Commissioners for Canada. However, because of equipment shortages at the time, the Bell asked for the higher rate to be applied immediately only in the larger centres.

With equipment to modify the public telephones in the smaller centres now installed, the company has decided to complete the application of the standard rate throughout its territory.

This Week's Recipe . . .

PINEAPPLE SQUARES

2 tablespoons sugar.
1 tablespoon butter.
2 egg yolks.
1 cup flour.
1 tsp. baking powder.
½ teaspoon salt.

Mix in order given. Roll out to line tin. Drain one small can of pineapple and spread over lining.

Cover with the following well mixed:
2 cups shredded cocoanut.
2 egg whites, beaten until stiff.
1 teaspoon butter.
Add slowly 1 cup white sugar.
—Mrs. K. N. Brueton.

COCOANUT TART FILLING

½ cup cocoanut.
½ cup butter.
½ cup brown sugar.
½ teaspoon salt.
½ cup corn syrup.
½ teaspoon vanilla.
½ cup broken nuts.

PEPPER RELISH

2 cups (14 ozs.) prepared pepper.
7 cups (3 lbs.) granulated sugar.
1½ cups cider vinegar.
1 bottle Certo.

To prepare peppers: Cut open about 1 dozen medium peppers and discard seeds. For best color, use equal parts red and green peppers. Put through food chopper twice using finest knife. Drain pulp in sieve. Measure sugar and vinegar into large kettle. Add prepared pepper, packing it solidly into cup until juice comes to top. Mix well and bring to full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 2 minutes. Remove from fire and stir in Certo. Then stir and skim by turns for just 5 minutes to cool slightly to prevent floating fruit. Pour quickly, paraffin and cover.

Note: Sets slowly, sometimes takes weeks to come to a full set.

—o—

Canada marked her 90th Birthday since Confederation on Monday and, we expect, the middle-aged and older groups will reflect upon this as a relatively short time. Take, for example, Mr. J. J. Parsons who has passed his Ninetieth birthday. He, no doubt, can recall every significant event in the development of Canada as a nation. Four Provinces constituted Canada in 1867 and since that time six more provinces have joined the union to complete a nation bounded on three sides by mighty oceans and on the other side by a friendly neighbour. Within the four borders we have unlimited natural resources which are being developed at a rapid pace and there appears little doubt that Canada will, in a relatively short time, emerge as one, if not the leading nation in the world We are indeed a fortunate people.

- - - - - -

There are many who will regard the most significant event in the year of Canada's 90th birthday as being the election of the Diefenbaker Government — tories, of course. Others and particularly those residing along the Nanticoke sideroad will recall 1957 as the year the pot-holes were finally taken out of the road they most frequently travel. Other events will hold first place in the minds of others. Except for the tragedy that is a part of everyone's lives at some time most Canadians will have pleasant recollections of the events of 1957 and by a continuing spirit of co-operation that is the state of affairs that should continue within the forseeable future.

- - - - - -

We see by the paper that Mrs. John Diefenbaker sat next to the Duke of Edinburgh at one of those dinners being attended by Canada's new Prime Minister and his wife while in London. We were happy to note that the Duke apparently found pleasure in Mrs. Diefenbaker's company because the report says he was in jovial spirits throughout the dinner. Well, all we can say is the Duke has nothing on us. We had the pleasure not too long ago of sitting with Mrs. Diefenbaker at a dinner and we found her company most exhilarating. Just knowing Mrs. Diefenbaker gives one confidence that the man of her choice is competent to administer the affairs of the nation. Sam Morris, of course, wouldn't understand this because he has never taken the trouble to get acquainted with the Prime Minister's wife.

Roy and Johnny Edwards association with sport in this locality has enlivened interest in athletics the past few years. Roy's advancement in the game of hockey has taken him from active participation in softball in these parts this year but it is interesting to note he is now emerging as an expert hardball pitcher. So far as we know he has only competed in two games for St. Catharines but in both cases he has, like his brother Johnny in softball, bewildered the batters facing him. His second game was in an exhibition contest at Port Dover last Monday and — according to those watching the game — he may have a real future in baseball as well as in hockey. It couldn't happen to a better guy.
