

# The right man in the right job

LOUIS ST. LAURENT sees for Canada's future an exciting adventure of national development . . . to provide here in this rich land a more abundant life for all our people.

Under his leadership, our population has increased over 25 per cent . . . a million new homes have been built . . . our standard of living is higher . . . and national developments underway will bring great benefits to every part of our land.

Above all, Louis St. Laurent knows and understands the needs of our people. The Government he leads has provided greater social protection to the Canadian people . . . social security benefits have been increased . . . federal legislation for a nation-wide system of hospital insurance has been proclaimed.

Canada's progress shows that Louis St. Laurent is the right man in the right job. Vote for your Liberal candidate and keep Louis St. Laurent at work helping to create a better life for all Canadians.

For a greater Canada . . . for tomorrow's opportunities . . .

LAST YEAR - 4 BULK BINS  
This Year - 40 Bulk Bins

Saving Dollars For Haldimand Farmers  
Through Bulk Handling of Cafeteria Feeds

Cafeteria feeds are money MAKERS. Bulk handling is a money SAVER. So when you can buy CAFETERIA FEEDS AT BULK PRICES, you have a proposition with a lot of pocket-book appeal.

A year ago, we offered that proposition to the farmers in our Nelles Corners trade area. Within a few months, the demand had swamped our original 4-bin set-up and we had to build more. Within the year, we have expanded to 16 bulk bins at Nelles Corners, and they're all working at top capacity.

Recently, we have installed 8 new bulk bins at Selkirk and 7 at Cayuga, to extend the same money-making-money-saving proposition to feeders in these areas. And our plans call for an 8-or-9-bin set-up at Hagersville, as soon as we can get around to it.

If you are within reasonable distance of any of these bulk-bin installations, it will pay you to take advantage of it. Cafeteria feeds are absolutely tops in quality. Our bulk-delivery prices are \$5.00 per ton less than we have to charge for the same feeds in bags . . . with another \$2.00 off if you haul them yourself.

**FAST AND SLOW**  
There is no place on our main highways for either speeders or slow drivers. Both are a menace to safety. -Parkville Progress.

**Who Was Abram Kean?**  
Abram Kean was a noted sealer who commanded ships in the spring-time seal industry for 47 years and brought in more than 1,000,000 seals during his career. In 1916 he set a record by bringing back in his ship 46,281 seals weighing 1,106 tons. Born in Newfoundland, he served as a member of the assembly and was created M.B.E. Kean, who died in 1945, wrote an autobiography, "The Millionaire in Seals."

**How Did The Game of Lacrosse Get Its Name?**  
The game was so named by early French settlers because of a similarity between the curved, webbed sticks used by the players and a bishop's crozier, or "la crosse." Said to be the oldest organized sport in America, lacrosse is Canadian in origin. A form of lacrosse called baggaway was played by Indians long before Europeans arrived. Although it has lost to hockey and football its former place as the most popular Canadian sport. It was referred to as Canada's national game - lacrosse - still is very popular in some parts of the country in other lands. Practically all of the lacrosse sticks in use are made at St. Regis Indian Reserve near Cornwall, Ontario.

**Who United the Co-operative Movement in Canada?**  
An English-born journalist named George Keen is credited with forming the Co-operative Union of Canada in 1909. He remained general secretary of the union until 1943. He was widely known as editor of the Canadian Co-operator, which was the oldest co-operative organ on the continent when it ceased publication in 1947. His memoirs, "Birth of a Movement," were published in 1950 and he died at his home in Brantford, Ontario, in 1953.

**What Was A Horse Boat?**  
A horse-boat was a vessel for which motive power was provided by horses on deck and the power applied to a paddle wheel. Horse-boats were used on the Niagara River as early as 1793. These boats varied from two to five "horse power."

### On the Farm Front

By Haldimand Harry

Just in case you missed the original announcement that was made in this column concerning calfhood vaccination it is being repeated here. As of April of this year, the whole of the Province of Ontario has been designated as a supervised area under the Brucellosis Act, 1956, and as a result it now becomes obligatory for all cattle owners in all parts of Ontario to have their calves vaccinated. This is really nothing new for the cattle owners in Haldimand where the act has been in force for more than a year.

It does mean however that cattle may now be transported anywhere within the province without permit or blood test and this will overcome a good deal of inconvenience for a great many farmers. It should be remembered that all calves in Haldimand must be vaccinated after they have reached the age of four months and before they reach eleven months of age. However, if you happen to be selling any cattle to the U.S., then the vaccination has to take place between the sixth and eighth months of age. In all cases where the work has been done by an approved veterinarian the cost of vaccination will be paid for by the Ontario Government.

"Agriculture is the world's first industry and men of the soil are men of peace. Farmers feed the world and without them our giant industrialized countries could not exist," so stated UN Secretary Hammarskjold in his message to the meeting of the IFAP held recently at Purdue University in Indiana. Some two hundred farm leaders from every continent took part in the meeting which coincided with the 10th anniversary of the founding of this world producer organization.

Thursday, June 27th has been set aside for the program to mark the half century of service to the Ontario farmer by the agricultural representatives. This will be the last day of the annual conference of the Extension Branch of the Ontario Department of Agriculture and will be held at the O.A.C. Guelph. The service has grown from six men appointed in 1907 to 54 agricultural representatives, 30 associate and assistant representatives, 41 home economists, 19 fruit and vegetable specialists, 14 agricultural engineering fieldmen, 1 tobacco specialist, as well as the administrative staff.

The office in Haldimand was opened in 1913, with Mr. H. M. King as the first agricultural representative. Mr. King later became Professor of Animal Husbandry at the University of British Columbia and only recently retired from that position. Others who have served in the county include George Woltz, C. C. Main and A. Gordon Skinner. In addition, E. L. Gray, Chase Galbrith, Walter Smith, and A. E. Springstead each spent a few months in the county.

A new treatment for the control of warble fly has now been under test for some months. It consists of giving the animal a large pill containing the necessary drug. In the latest report the information is to the effect only one animal in ten

# OLIVER

We invite you to COMPARE the New 1957 Oliver No. 35 S.P. with ALL COMPETITION

- Greater Separating Capacity than any other S.P. - 5495 square inches.
- Increased Cleaning Area to 1575 square inches.
- New Fold Back Unloading Auger.

**VOTER'S CAPACITY**  
The average citizen is a lot smarter than most politicians apparently realize. He knows what he can expect and what is expected of him. The average citizen does not have a lack of interest. But if there appears to be, to some observers, the politician has brought it on himself. -Humbolt Journal.

**THINGS TO SEE**  
Along with the vacation sights, don't forget to keep a sharp look-out for the other driver's signals - or forget to make them yourself when needed.  
The army last week demonstrated what it calls the "K" - a new vehicle five years in the making, that travels over land, snow and water. It cost \$300,000 to develop it.

Both have a bank account - and a purpose for saving

You probably have your own equally good reasons for saving. There are thousands. One way to be sure you will have the money you want when you want it is to make regular deposits in your bank account. It takes will-power. Sometimes it means doing without things you are tempted to buy. But as you advance steadily toward your chosen objective, you know the satisfying feeling that comes with getting ahead financially. You realize that you are creating a reserve of ready cash that can be a gateway to future opportunity, or serve as a bulwark in time of need. You can always count on a bank account. Save at a bank - millions do!
