ANNE HIRST Your Family Counselor

SHE'S 11 YEARS OLDER SHOULD THEY MARRY?

"Dear Anne Hirst: The man I've loved for five years is 29, nd I am 40. Almost from the Arst he has begged me to marry him, but I have hesitated be cause of our ages. He declares that doesn't matter, and if I didn't know his age I would think it was my own because we are so at home together. But I have to fair, and perhaps he should find someone younger.

You should know that I am widow with two teen-age children; he loves them, and they think he's wonderful. (He was married at 19 and lost his wife.) I have stopped seeing him several times, but we found ourselves completely miserable apart. Now he is pleading once more that he needs a wife and that it is me he wants. But if don't make up my mind soon he will leave town for good; the suspense is telling on him. "I have read your column for years, and now he is reading it, oo, and thinks it makes sense We are putting it up to you.

From your long experience, 11 years too great a span to conquer when we are both so much in love? I'm not getting younger, and I never thought of marying again until I met him. We ask your most thoughtful coun-IN DOUBT"

HOUR OF DECISION Isn't five years long enough to test this man's devotion and faithfulness? He is responsible, single-hearted, impa * tient to marry. If you waited * another year woul you know him any better?

You both have been married before. You are rich in experience, familiar with the complications of family life. * He is eager to share your responsibilty for the children. If you had the faintest doubt * that he would make his own place with you all, I would not suggest marriage. But you * say he and the children get along as though he were already their father.

The man is obviously older than his years. Your heart is young; and you two enjoy the same things, have similar * ideals of marriage. The trust you have in each other has been unswerving almost since * the beginning.

I agree that the man you love has waited long enough. * For once I can enjoy the * pleasure of recommending the marriage a reader desires. Go * ahead. * * *

YOUNG LOVE "Dear Anne Hirst: I am 17 and all mixed up. I am in love with a boy a year older, but there is another one who thinks he is in love with me, although he knows I don't return it. "My sweetheart thinks I should stop seeing this young man because if he gets to care more for me he would be hurt worse when I must send him

away.
"What do you think? Isn't it all right to date him so long as I don't lead him on? WONDERING"

If you are engaged to the boy you love it is not considerate to date anyone else. If you and he are not pledged * to marry, however, you are free to see anyone you wish. * At your age it is smart to * accept the fact that the boy you are in love with may not become your hsuband; either one of you can change your mind in the next year or so. * If this happens and you have given up other friends, you'll have to start finding new beaux all over again. Meantime you'll have no dates at That isn't practical, is it? If this other boy wants to date you, knowing you are in * love with someone else, that is

* up to him. When doubts assail you, turn to Anne Hirst. Her opinions are sound as well as honest, and she will disagree with you if she must. Write her at Box 1, 123 Eighteenth St., New Toronto,

"Do you think you can make good portrait of my wife?" said a prospective client to an "My dear sir, I can make it

so life-like that you'll jump Box 1, 123 Eighteenth St., New every time you see it," was the

FOUR FEET ABOVE SEA LEVEL—Foot-loose and fancy-free here's a vacation scene from a vacationer's eye-view. The cool drinks and lower extremeties belong to a pair of contented visitors in Daytona Beach.

BARBECUE-Bandleader Spike Jones demonstrates that he's serious about reforming his band - and his wardrobe. Spike and his wife, Helen, "barbecue" his loud plaids in the backyard of his Beverly Hills home. It's navy blue cashmere from now on for Spike, who's determined to get rid of his "musical clown" title. He says his television audience "likes the old favorites."

should be of interest to anyone living in an area where a new hospital is under construction. Last Saturday I went to the cornerstone ceremony of the South-Peel Hospital just two miles from our new home. I went because up to that time I hadn't been able to get any factual information about the hospital at all. Now I at least know a few of the details. For instance I discovered it is to be a 125-bed hospital with possible expansion to 250 beds if and when that becomes necessary. The first meeting called to consider the building of a hospital was held as far back as March, 1953. Committees were set up and the work of planning and development begun. As a reinderway and completion of the hospital is expected in January 1958. In addition to the Board of Directors there is also a Women's Auxiliary with a paidup membership of 1900! The

nembership fee is \$1 per year per person. The chairman for the official eremony on Saturday was Gordon Jackson, Q.C., chairman of the Board of Directors. Thomas L. Kennedy introduced Lieutenant-Governor Louis O. Breithaupt, who was presented with a silver trowel by the architect, Chester C. Wood, with which the cornerstone was formally laid. A copper box inset in the cornerstone contained a number of items - a set of 1957 Canadian coins; copies of the Toronto Star, the Port Credit Weekly and the Streetsville Review, all containing news reports relating to the bospital - names of directors, and minutes of the first meeting. I mention this as it may be an idea for other districts under similar circumstances. And do you know, according to the chairman the Board had no financial worries! However he admitted there might be some at a later date "when the time came to equip the hospital," "But that," said Mr. Jackson, "is a worry that we shall pass on to you, the people!"

isn't a matter of quantity but of quality." It was a very nice little ceremony, although held under threatening skies. The Lieutendon, England, stressed the imant-Governor and Mrs. Breithportance of making older peoaupt were attended by Lieut-Colple feel wanted - a part of the onel J. G. McInnes and drove up community, with confidence and in a beautiful black Cadillac. an interest in life. It was all very interesting - to the young Mrs. Breithaupt and Mrs. Jackwith aging parents; to the old, son were presented with gorgeous bouquets of red roses. There comforted by the fact that aging is getting some attention; and to the middle-aged, because forewere quite a number of platform guests but I noticed there was only a mere sprinkling of peowarned is fore-armed. How to ple among the general public. Perhaps the weather had somemeet old age is more practical than trying to forestall it - and thing to do with it - but I not nearly so pathetic. doubt it. If people really want to go anywhere they just go, regardless. It is hard to under-

Here is an item of news that | stand the apathetic attitude so many people take in regard to the building of a hospital in their own district. You would think it didn't affect them at all. And yet there is hardly a person who hasn't been, or probably will be, a patient in a local hospital. Small towns and districts are rapidly becoming bigger towns and bigger districts and the faster they grow the more urgently hospital facilities are

are born healthy and do not likely to be needed. catch the disease unless they South-Peel, for instance, serves live in close proximity to the sufferers. But the Negro lepers, a populated area of 65,000 peoboth through the influence of their witch-doctors and because ple. On the basis of population one wonders how a 125-bed hospital could possibly be large of their reluctance to believe in enough to accommodate those in white men, were loath to part with their babies, and couldn't need of nursing and surgical care - especially when the avunderstand that mothers who erage life expectancy is being kept their little ones at their sides were passing the "living In that regard last week

Likes Williams but Not Rabbit Ball Ted Williams, says Ty Cobb, is one of the nicest fellows he ever met, a boy with a tremen-

lous heart and a healthy, down-o-earth outlook on life. So said the greatest player in the history of baseball, at Kan-sas City for an old-timers' night before a game between the Red Sox and A's.

in the past to build up a sort of feud between Williams and me," began the man whose re-cords still dominate the Little Red Book. "But anything in that wein written in the newspapers r sent out over the radio is most unfair and entirely incormber the first time I

ever met Ted. It was before a Vorld Series game between the Yankees and Dodgers. Grant-land Rice and I were walking up a ramp and 'Grant' spotted Ted ahead of us. When Rice introduced us Ted asked me if I could teach him how to hit to left field. I said I couldn't each him, but I could tell him

"Well, the next day — and I still don't know how they got any part of the story, because they didn't get it from Rice a story came out that when I tried to show Williams show to hit to left field, he popped off ttled me, as well as all belittled me, as well as all times. It wasn't true. I have talked with him two or three times since and he has always been just as nice to me as any-

one could be."
Cobb was told that Williams
has been hitting to the left side ore than ever this season, one of the reasons his average has been over or around the .400 mark. "I figured Ted loses about ase hits a year because they shift on him," Ty said. "In one game alone I saw him hit three line drives right at the second an, who was playing in short right field. But as I've ays told him, he can break It up if he hits to the opposite field. Bab Ruth did. The Babe would even bunt when they shifted on him.

I'm glad to hear Ted has been ing to left more. That's Il he ever needed to be one of greatest. He has all the

Cobb told how a California writer had called him on the one after Cleveland's Herb Score had been hit with line drive. "The fellow wanted me to blame night ball for ore's accident, but I couldn't," e went on. "How can you rap something that has done so much for baseball — that makes t possible for the working man go out to the park after ing hours?

one thing I don't like t the modern game is the vely ball. It has taken away value of the single run and eliminated the smart, scientific game. The low score, close was a thrilling thing to often wonder what Larry

would have done against this lively ball," Ty said, smiling. "He had a wonderful smiling. "He had a wonderful troke, like Williams, and would troke, like Williams, and the third tear the legs off the third man, even with the dead Keep your better SILVER FROM TARNISHING by wrap-

ates an oasis of green. The grass was a bit shabby to be sure; the young oaks although resplendent in their green garb usually had a broken lower limb or two, and the crosspaths were rocky, but it was a great spot just the same. Many a game of mumblety-peg had een played on the turf; many a broken jacknife blade resulted from striking a rock that prior desultory probing had failed to

locate. Directly across from the upper end of the park, stood a large duplex house. One corner room had been used as a grocery for as long as I can re-member and it is probably so occupied today. As you entered the door, the penny candy counter with its sloping glass front, spotted with the ent impressions of small noses and sticky fingers, was at the left. As often as not, the room was empty, for the owner lived in an apartment above and behind the store. A small window in the rear wall opened into his kitchen. When the bell over the door jangled, a face would ap-

P.M.

SAFEST TIME to drive is between 8:00
A.M. and 4:00 P.M. Study shows that although the flow of traffic is heavier during these hours, the risk per unit of traffic is less

RISKY DRIVING comes in a period when only five per cent of the traffic volume is on the roads. Thirteen per cent of all fatal traffic accidents happen between midnight and 3:59 A.M.

SAFER DRIVING hours are between 4:00
A.M. and 7:59 A.M. In this period id
per cent of fatal traffic accidents happen, with only eight per cent of the traffic volume on the road.

MOST LETHAL time of day to drive is
ofter 4:00 P.M., because that's when the
chances for fatal accidents are greatest.
Between 4:00 P.M. and 7:59 P.M. is when
27 per cent of fatal accidents happen.

SAFETY TIME - Did you know that the safest time to drive

your car is when the traffic is heaviest? That's the surprising conclusion drawn by Dr. A. R. Lauer and C. O. Swanson of

towa State College's driver-training laboratory following ex-exhaustive studies. This and some of their other findings are illustrated on Newschart above.

ly, an all-persuasive odor of pickle lingered in the vicinity of the candy counter. It came from an ornate jar, once used for candy, that stood on top of the counter. A whole pickle was five cents; a generous slice was a mere three pennies. Pickles and I have never been great friends, but I'll readily admit that a candy counter can only be the real thing if you can sniff pickle smell around it. Closing my eyes and scanning case went something like this.

line-up in the Pomer candy First came mint juleps, a tangy candy that was two for a cent and had a flavor that made them dangerous things to eat in a classroom. Any teacher could detect the smell of a mint julep, or the green leaves, at a good half mile. Or at least so Next in the row came non-

parells, the little chocolate wafers with the white jimmy. Next came bull's-eyes, which require no description. If you have never eaten a bull's-eye, yeu've never spent a childhood in Massachusetts. Maple sugar cakes came next, followed closely by little tin dishes complete with a small tin spoon. The dish was filled with a soft creamy mixture that usually proved to be tougher than the spoon. You wound up scraping the sweet from the tin with your teeth, but this was considered all part of the game.

One of my favorite candies was a small bar about two inches long, one-quarter square, a muddish brown in color and rather coarse in texture. Its flavor was a bit on the minus side, but its name made up for all deficiencies. With typical Yankee forthrightness it was called a mud bar, and it was worth a cent any day. In fact, I'd gladly pay almost any sum for one right now.

You can't write about penny candy and omit such items as the small candies which came fastened to a narrow strip of white paper. Memory fails to produce a name, but the amount of paper consumed along with the candy kept this item from being held in high esteem by Along the bottom of the case
