Telephone Round-up

Every parent knows how easily a two-gun cowboy can lose track of time especially around mealtime. But she also knows it's a

simple matter to round him up by telephone. And any vague feeling of anxiety about where he is or what he is doing is quickly dispelled by that eager voice at the other and solve. at the other end of the line.

It means more security when you're alone at night. It means more things done with less time and effort... Yet this endlessly useful servant works for you for just a few cents a day.
