

# LOWER GAS RATES

for  
**UNION GAS**  
customers in  
**JARVIS**  
and district

Ever since we began serving your area, on April 15, we have been negotiating with a committee representing most of the municipalities concerned, in an attempt to agree on a schedule of lower gas rates. These rates, which have been approved by the Ontario Fuel Board, apply to bills delivered ON AND AFTER AUGUST 14.

## HERE'S WHAT THE NEW RATES CAN MEAN TO YOU:

If you use 10,000 cubic feet per month,.....	you save \$1.12	each month
If you use 20,000 cubic feet per month,.....	you save \$2.62	each month
If you use 30,000 cubic feet per month,.....	you save \$4.12	each month
If you use 40,000 cubic feet per month,.....	you save \$5.62	each month
If you use 50,000 cubic feet per month,.....	you save \$7.12	each month

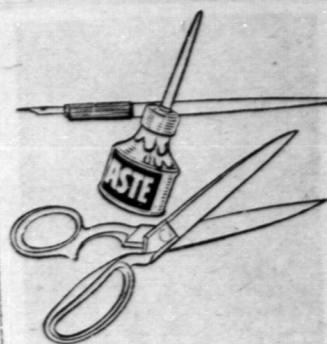

Moderate savings will be realized by many customers using less than 10,000 cubic feet per month, but the amount of money you can save increases with the amount of gas you use. Families that heat their homes with gas, and large volume commercial and industrial users can look forward to really substantial savings.

If you don't already heat your home with natural gas, you can cash in on big savings this winter by having natural gas heating equipment installed in your home today! Even if you do heat your home with gas, you can enjoy even greater savings by having additional modern, automatic gas appliances installed in your home.

For the latest in automatic gas equipment, see your local appliance dealer, heating and plumbing contractor or Union Gas Company.

REMEMBER, THE MORE GAS YOU USE: THE LESS YOU PAY PER CUBIC FOOT!

**UNION GAS COMPANY**  
OF CANADA, LIMITED

We often wonder if other people have the same trouble with mosquitoes as we do. Do other people spend nights in restless semi-consciousness, dreamily listening to those vicious bugs dive bombing for a landing on an ear lobe or a knuckle joint? Do other people take a swing in the general direction of the sound, that lands on one's nose, thereby eliminating that state of semi-consciousness that brings one to a full state of wakefulness? Then do other people turn on the bedroom light, get up with a fly swatter in hand and grope about the room in search of the villain?

Whether it is a general custom or not, we've got to admit that is about what we do two or three nights a week during the mosquito season. The results of these experiences, we believe, makes us something of an authority on the mosquito situation. For example, after you get up and finally locate a nice fat (bloated with your blood) mosquito taking a siesta on the ceiling and swat him mercilessly, leaving a dirty blotch, don't go back to bed thinking your troubles are over. They're not. There is always another one lurking near by. Just sit down for a moment or two, smoke a cigarette, or, in fact, do anything that is sure to arouse your better half, who is immune to mosquitoes. After all she is supposed to share your problems. After butting the cigarette, get up casually and slowly circle the room. Sure enough you'll find the mate of that first one you slaughtered weeping somewhere around his grave. Have no mercy, give it to her or him, whichever it may be, crawl back in bed and sleep peacefully. You have earned it.

The softball play-offs get under way this week. Jarvis will have three teams in the Play-offs. Watch for the hand bills announcing the dates and give the boys your support.

This establishment will be closed next week for the purpose of enjoying a holiday. We find that getting ready for it, in this business and catching up with it after the so-called holiday is over, can sometimes cause more work than would ordinarily be done in the week off. It's something we can't reconcile, but

**COMING TO SIMCOE DRIVE IN THEATRE**

**THE TEN COMMANDMENTS**  
"The Ten Commandments", Cecil B. De Mille's spectacular Biblical picture for Paramount release, opens August 22nd at the Simcoe Drive-In Theatre. Filmed in Vista Vision and Technicolor in authentic Biblical backgrounds in Egypt and the Sinai Peninsula, the production, biggest in the history of movies, stars Charlton Heston as Moses and costars Yul Brynner, Anne Baxter, Edward G. Robinson, Yvonne DeCarlo, Sir Cedric Hardwicke and a long list of other top players, drawn from every theatrical field.

In his role as Moses, Charlton Heston followed in the footsteps of the great prophet, traversing the desolate Sinai desert and ascending the rugged slopes of Mount Sinai itself. Location shooting in these surroundings was followed by another period of filming of indoor scenes and close-ups in Hollywood.

Over all, the filming of "The Ten Commandments" required more than two years - after ten years of preliminary planning for the production, and exhaustive research in the Bible, the Koran, the ancient Hebrew writings and those of early historians. Reproducing for the screen the life and times of Moses demanded more than 100,000 individual props and miscellany, with hundreds of animals and even living lotus bloom long associated with Egypt, its history and art. Special Egyptian music themes' Mille's 44th year of film production.

**Can't beat GAS heat!**

**IF YOU MISSED OUT ON COMFORT LAST WINTER CONVERT NOW TO NATURAL GAS!**

**ONLY GAS GIVES YOU ALL THESE BENEFITS:**  
SPEED ... ECONOMY ...  
CLEANLINESS ... SILENT OPERATION ...  
DEPENDABILITY ... AUTOMATIC CONTROL

**FREE SERVICE:** Your gas company is on call 24 hours a day ... gives your burner a free yearly cleaning and adjustment.
