New Report Card For Public Schools

During last school term a committee of teachers and parents attempted the problem of revising the existing report cards in the Haldimand County Elementary School.

The Committee was made up of teachers representing all of the schools in the Haldimand County.

At the time the first report is issued this Fall, the parents will be asked to come and pick up the report card. This will give the parent a chance to see it first and will also provide an opportunity for discussion between the parents and the teacher.

It is hoped that the new report cards will be a step toward giving parents a better picture of their children's progress in school.
