ANNE HIRST - Your Family Counselor

"Dear Anne Hirst: I am almost son with other friends will open your eyes to its possibili-17, the boy is a year older, and we've been dating for almost two years. Many times he has asked me to marry him, but I wasn't certain I wanted to get married. know that is a big step in life ind I wanted to make sure beore I gave him a final answer. know I have hurt him, but I elt I had to tell the truth intead of leading him on.

"He has gotten so sick of beng turned down that now he has eft me! He said I should know by now whether or not I want

"That is true. Since this hapsened, I know how much I love iim and need him, I told him o, but he doesn't seem to believe inything I say. He even has his own doubts about me now! "I realize I've been a fool, and

[know what I have lost. Is there anything left for me to do?

— A SORRY GIRL"

YOU ARE FORTUNATE

Instead of offering sympathy, * I congratulate you on the * situation, painful as it seems at the moment. You have been * going only with this one boy since you were 15, and all along you have realized that · marriage is the greatest ad-· venture of your life, a decision not to be made hastily. That • is commendable. Only when * he grew tired of waiting and left, do you conclude that you

love him.
It is human to want the unattainable. It is his leaving you that has suddenly made him doubly desirable. Because you have no other beau your life seems empty now, and living in such a vacuum alarms you. Believe me, you have not been a fool, you have only been honest with yourself.

It is well that the boy has gone. His doubts that you are not the girl for him show how shallow his emotions are; if he were more mature, your putting him off would only have made him more eager to to win you, and he would have realized you are a well-balanced young woman who does not give her heart away without knowing the value of her gift. You are both too young to think of marrying or even being engaged. A girl 17 can hardly be sure that what she feels is an enduring emotion that will last the rest of her life. You both need other companions, and to learn someting about this thing called love. It comes in several packages, you know, and compari-

PROTECTIVE MOTHER

"Dear Anne Hirst: I am a highschool sophomore, and need some advice. Since last March a boy and I have gone together, and then my mother liked him, allowing me to invite him to my birthday party and the school dance. Then suddenly she changed her mind - when his brother got into trouble through no fault of his own!

"Now she won't allow me to see him. He lives on our street, and I'm not allowed out of the house unless she is with me. She even follows me to school! "I tried not seeing this boy, but it just didn't work, I like him too much. Please help me out.

— DISTRESSED TEEN-AGER"

It is of no use to appeal to anyone else for the answer you want. Somehow (and only you know) you have lost your mother's faith, and she feels that out of her sight you will * be seeing this young man. What have you been doing that she distrusts you so? Whatever * it is, stop it.

ruling and obey it.

· If you will give her your word that you will not see him * again without her permission, · and in other ways show you can be trusted, perhaps later on she will relent. Meanwhile, • it is up to you to prove your integrity in every way you can. . . .

In A Snowball

rock-strewn farm.

"Too busy," he explained. And then, Jakob noticed that the snowball-now 10 feet wide and 4 feet high—was threatening to skid and get out of control. Throwing aside the ax with which he had been chopping wood, he ran to the children. Straining, he put his shoulder against the snowball. His feet

One piercing cry was all that Jakob had time to utter before the giant snowball engulfed him and began careening down the slope. It must have weighed a ton by the time it struck an open space and broke apart. The children, rushing after it, found Jakob's body. The life had been crushed out of it.

· Don't despair. By this time * next year you may both be · quite certain that you were * made for each other - or you * will have discovered that other boys can attract you, too. If * that happens, won't you be re-lieved that you did not get en-

It is unfair, perhaps, that * one boy's misbehavior reflects · on the whole family, but it is true. Your mother knows how * unwise it is for you to be see-• ing each other, and she is trying to protect you from any unfavorable gossip. You are · too young to appreciate this, but you will have to accept her

Don't let any boy rush you into a promise to marry. Marriage is not a game, it is a lifetime contract, and only by careful comparison with others can a girl he sure she is ready to take the step. In time of doubt, write Anne Hirst, and save yourself from a mistake. Address her at Box 1, 123 Eighteenth St., New Toronto, Ont.

Sudden Death

It was all great fun. The first snow of the season had fallen in the remote village of Egnat, high in the Alps, and all the kids were out, huffing and puffing to build a giant snowball to send thundering down the

Watching them, 15-year-old Jakob Giezendanner, the oldest of his family's eight children, smiled. Jakob had rolled snow. balls in his day, too, but now he was a grownup, helping his father grub out a living from their "Jakob, help us," the children

leave the house for very long because he never knows what changes he'll find when he gets back. That, of course, is a slight exaggeration but still it has some foundation in fact and indicates one difference between a man and a woman. Most men like things left in the home more or less the way they are, year in and year out. Women love to move things around, creating a change of scenery within four walls. And after all, why not? Who wants to see the same thing in the same place, month after month, winter and summer? It gives a lift to the soul to change one's outlook. Except, of course, to the conservative type, and they are beyond hope. Not only that but summer arrangements are often unsuitable for winter months. And another thing. changing things around may dispel a guilt complex if a person has been doing a little wishful thinking . . . "If only I had

a chesterfield - or a rug, or drapes - like my friend Edna, how much nicer my livingroom would look!" Well, there is a saying --"Don't let your wishbone be where your backbone ought to be". Don't wish for changes in your home - make them. Dare to be original. But don't talk it over with your husband first that is fatal! He will be sure to say - "What's the matter with the room the way it is - it looks all right to me?" To that sort of question a woman rarely has a logical answer. So, to keep peace in the family she subdues her splurge of creative thinking and everything remains the same

- except for her own feeling of frustration. Now "don't get me wrong" I think a husband and wife should talk things over - and sometimes very carefully, particularly when a purchase is inolved. But I cannot see the point of a major discussion over moving a piece of furniture, a picture, or arranging a different set-up in the kitchen. The home is primarily the woman's concern. It is often up to her to to the best she can with what she has, making her home as comfortable and convenient as she can for the whole family. So, if father likes his livingroom chair in one particular spot, for heaven's sake don't move it, but arrange the rest of the room to suit yourself. Finding the best place for your TV set is a

matter for a family conference, as it concerns everyone. And what a problem it can be. Now you may wonder what led up to all these ideas. Actualy nothing too drastic. A little different seating arrangement in our livingroom; an unwanted table taken down to the base ment; ferns changed around; a lamp from the den given a place in the livingroom and s.T. tables changed around for guest room to den. The overall result has been more space and I no longer feel it necessary to buy the nest of tables I thought we couldn't possibly do without. Now that should commend itself to the man of the family. don't you think? Not that I am entirely satisfied even yet but the present arrangement will do

until I get another brainwave. You know, I think half the trouble with most of us is that we lack vision. We get so used to seeing things, good and bad, the way they are that in time we actually don't see them at all.

Partner says he is afraid to | For instance, one friend was visiting another for the first time. She was entranced by the beautiful scenery. "Oh, how I envy you this view." And then she

> it." She was absolutely right. ing it on TV."

dishes from which we eat and drink; yet for most of man's existence on the earth these things were unknown and un-dreamed of. Settled farming began somewhere about 7,000 years ago, in the New Stone Age: that seems like a long time ago, but it is only about 200 generations from our own time. Our two-hundreth grandfather was one of the first farmers. But before that there was a long, ong period-not ten times as great but something like a hundred times as great — during which our forefathers lived in caves and hunted the wild ani-
