Neckties Should Be

A maker of neckties, appealing to the present Christmas trade, is marking his product with a helpful tag that tells you the color scheme. You turn the tie over, and a little tag says, "Wear with brown suit." So, I think it is time to draw the line. If the necktie code has been carried to such length, a rebel

voice is needed. I happened to have a thirteenvolume encyclopedia published by Carey and Lee in Philadelphia in 1830. They tell me it yould fetch a pretty penny, as it is in excellent condition, but I plan to keep it because it is fun to read. As to neckties, pleases me much, for I find vat." It runs: "CRAVAT, an unhealthy, uncomfortable, unbecoming article of European and American dress. The ancients were unacquainted with this

of bundling up the neck. Etc." In spite of this, I happen to have a necktie. Country living is not too demanding, so whenever I wear it, I wear it with my suit. If the color scheme is askew, that's too bad. If I found "Wear with brown suit" on my necktie, I would be in trouble, for my suit is black. Thus it is.

detachable shirt collar - you'd get at least two days from one

shirt — and if you left off your necktie there would be your big brass collar button sticking out in front, shining in the morning sun and lighting you all the way to school. The girls seemed to think this was funny. There were no sports shirts then, and a collar open at the neck I was good at tying my tie.

My program was to get up, dress loosely, and get into overalls for the barn chores. After chores I'd clean up at the kitchen sink, have breakfast, and then tie my tie just before walking to school. I had mastered this last duty so I didn't need a mirror, and this impressed Mr. Moulton. Mr. Moulton was an older neighbor who walked up every morning for a quart of milk, and he vas all thumbs on neckties. This was before the dairy

business became a legal technieality, and it was allowable to fill Mr. Moulton's tin container directly from the milk pail. He used to leave five cents on the sink shelf every morning to pay for this service. Then he'd sit or a kitchen chair and wait for me to tie my tie. He'd waggle his head and express amazement He couldn't even tie one looking in a glass, and usually had to have Abbie do it. But here I was, not even looking! For some eight years Mr. Moulton watched me tie my tie every I never had so many ties that

needed advice as to when and how to wear them. Keeping a subdued one for Sundays, would wear the other one until it had accumulated a sheen and patina, and a disciplined reflex so it almost tied itself. It would get washed once in a while out I think I can make the point that wearing a tie was much more important than what it looked like while you wore it.

tie in my life. I made one. once. I knit it from grain-bag strings, and Mother threw it in with some rug rags so it came out dyed a walnut brown This was pure whimsy. There was a "gag" running around then, to wit: "Do you make your own ties?" I suppose the rock-androll era has some similar devastating remark. It seemed to me a wonderful answer to this wiserack would be a plain, "Yes, I do." So I made one, and the

and bright red It made quite a noise, but by the standards of

On that basis, I think I'm willing to approve neckties. But

> of the old farm. Back in 1822 a canny Scot by the name of MacNabb had settled on this property, known then only as Lot 2, Concession 3, Township of Esquesing. Here he built his log cabin and commenced his settling duties. A few years later a meeting of the pioneer fathers was called --

their meeting place was along the wooded trail of what is now Highway 25. As a result of the Gould in The Christian Science meeting it was decided to build a rough log school house on the the "Scotch Block District".

Macnabb property - the first to be built in what is known as It was some years later before pioneer MacNabb applied for the Crown deed and about that same time he built a frame house close to the road. It sheltered his growing family until 1854 when the present house was built. It is a wonderful old house, built of hand-pressed brick on a solid stone foundation with two massive fireplaces, one complete with crane, big enough for burning the huge pine roots that were left as the land was gradually cleared of timber. The nails used in the construction were square, handcut nails, a number of which we saved as curiosities. The farm has changed hands only three times — from MacNabbs to a man named Inglis who, after four years, sold out to us - that was in 1923. At that time there was no hydro or plumbing and a furnace that was unsafe to use. And the main road - that

Gets Bad Break

the Air France baggage depot was labeled "glassware" in large red letters. "C'est fragile." explained Ange Fernel, the 24year-old Frenchman to whom it belonged. Inside, however, was Ange's confederate, 31-year-old Fernand Romani, fortified by a loaf of bread, cheese, some sau sage, and a bottle of cognac. As baggagemen for Air France, Ange and Fernand had cooked up a complex scheme to com-mit the prefect crime—in mid-

structed it last month, was this: Ange would airship the crate containing Fernand along with two empty suitcases to Mar-seilles on the same flight that carried a \$60,000 shipment of jewels bound for Algiers. Once the plane was in flight, Fernand would climb out of his crate, pinch the jewels, and put them into the empty suitcases. Then he would climb back into his hiding place and wait until Ange, a passenger aboard the same plane, retrieved both the crate and the suitcases at Marseilles air terminal.

Fernand patiently waited in the narrow box for almost twelve hours before it was loaded aboard the plane. But in the air everything started going wrong. Pepped up by the crate, Fernand broke the top, so that he couldn't close again. Instead, he had to pocke jewels and make a break for it when he landed in Ma

Fernand got away - with Ange hot on his trail. But when police examined the empty crate, they discovered that Ange had labelled it with his own name and address. There, police found some more baggage, a girl named Andrée. Her story them to a Turkish fence in Marseilles, who had paid a mere \$200 "advance" for the gems and still had them tucked away in his store. The jewels were safely returned - and only the two ingenious baggagemen, Ange and Fernand, were still missing.

Is The Paddle The Best Cure?

It is perfectly legal for a schoolteacher in Stamford, Conn., to paddle an unruly youngster
— but "on the buttocks only."
Since this Board of Education rule allowing teachers to use corporal punishment went into effect last April at Stamford's twenty public schools, about 30 out of a kindergarten to high-school population of 15,000 have been disciplined by spanking, with paddles of various sizes, shapes, and thicknesses.

But should these paddles be of

uniform size? This bureaucratic question was raised by parents at a recent board meeting and in true red-tape tradition, a facul-ty committee was then appointed to draw up specifications.

"There is a real problem of definitions," said Miss Helen Tobin, acting superintendent of schools, last month. "We think that everyone should think this through."

Yet to loseph Franchina.

crew-cut principal of husky, crew-cut principal of Burdick Junior High, the pad-dle-size issue was ridiculous." "Use a paddle that its the needs," he said. Personally, he wields a half-inch-thick plywood job. 8 to 9 inches in diameter of the business end, and manufac-tured in the school shop. "We've had some good read tions from studer ts," he noted.

Single-Handed!

The authorities in several American states felt considerably relieved when Tom Slaughter, the most notorious desperado in the South-West, was arrested near Sedan, Kansas, on October 20th, 1920. They could not know then that Slaughter was soon to build a reputation as America's No. 1 prison-escape expert.

Slaughter was originally want-

Slaughter lost no time in demonstrating his determination to escape. When being led away by his captors he wrenched himself free and drew a revolver, but was disarmed before he had time to use it.

it was discovered that one of the window bars in his cell had been almost sawn through. A search of the cell revealed a collection of saws, knives and razor-blades.

He was sentenced to life imprisonment in the Little Rock penitentiary, and soon after his transfer there another escape plot disarmed and imprisoned every guard he encountered. On his fantastic tour of the prison, Slaughter collected six convicts break-out.

Marching in single file behind

marching in single hie besiden the nurse, the sinister procession made its way to the quarters of Warden E. H. Dempsey. The warden, his wife and their three children, were herded from their beds and locked in the condemn-At the beginning of 1921, there was a change in the administration of the penitentiary and the "reformed" Slaughter was trans-Before incarcerating the war-den, Slaughter compelled him to give the outer guard the signal

For several months he played the role of gentleman convict. He gave no trouble, worked diligently and gave every indication of having knuckled down to prison authority. Nothing could have been farther from the truth. The idea of escaping dominated his mind.

Slaughter was tried for mur der and sentenced to death. He was transferred to the death cell in Little Rock penitentiary and his execution date fixed

to the warden and his family. Next Slaughter and his fellow convicts made for the prison store. He and the others took their time selecting outfits of civilian clothes and changing from their prison garb. It was not until 2.30 a.m. that the seven made their getaway in Warden Demp-

sey's car and headed south.
As soon as he heard them drive away, Dempsey shouted to some convicts above him to cut a hole in the ceiling. Then he climbed through and rushed to the office. The telephone wires had been

> to the nearest telephone to alert the police. Five of the men with Slaughter were Negroes, all but one under death sentence. The sixth man was Jack C. Howard, who had been serving a three-year term for forgery. On the evening of December

cut, so a guard was dispatched

9th the gang abandoned their escape car and made for some woods. They lit a fire and settled down for the night. Slaughter had just dozed off when he heard Howard call him. Before he was properly awake three bullets smashed into his body from Howard's gun.

Slaughter died instantly, a victim of a cowardly attack from a man he had freed. Howard later claimed that he and two of the Negroes had hatched a plot to kill Slaughter soon after leaving the penitentiary. Wells and Taylor had disas they slept, then Howard had fired the fatal shots.

The Negroes not in the plot fled but were recaptured by a police party. Howard, Taylor and Wells collected all the guns together and went to a near-by

On the following day Slaugh-Apart from the puzzle of how

the gun and ammunition has been smuggled in to Slaughter while he was in the death cell, one more intriguing mystery remains. Some weeks before his escape Slaughter had arranged to meet an insurance agent to tell him where he had hidden the loot from his many bank hold-ups The appointment was made for December 13th, two-days befor Slaughter was due to hang. But Slaughter's secret died with him. Somewhere in Arkan

s never been found.

Seen, Not Worn

When I see the present youth riding happily to school, their garb relaxed and indifferent, 1 notice the necktie has fallen from fashion. In my day we always wore one. If you forgot to Those were the days of the

I don't think I've ever bought

next time they asked me, I said yes.

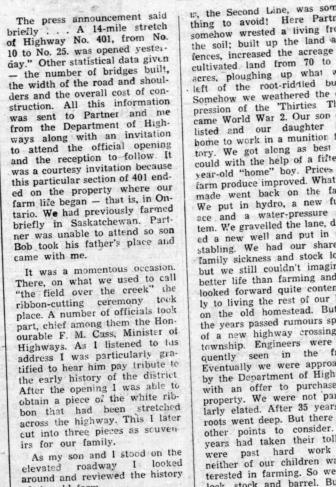

I never made but the one and all the other ties I've owned were given me. On gift days I'd get a couple or so, and my recollection is that nobody ever expended the slightest thought as to colors. A generous aunt would fix me up with a gay foulard in bright yellow squares, set upon a green field with alternate maroon dots, and I'd wear it with a Swedish-stitch pullover sweater in cinnamon

the time I was dressed. There was a virtue in this, all the same. Fais-ce-que-tu-veux was not predicated on wanton abandon, but carried the traditional requirement that a well-ordered citizen would not materially err. We were supas if some basis of proper human relationships were involved. The tie. itself, was merely a symbol of inculcated propriety

think it's a curious way to make a point I keep my tie in the bureau drawer, and my suit on a hanger in the closet. and I wear them as seldom as possibly can - yet I'm perfectly willing to admit the necktie was important in my grow-ing up, and helped lead me into paths of thought which have proved useful. The objection I have is to this categorical conformity, new to me, that you ought to pay attention to the color. I believe a man can be a gentleman. If he wants to, on one tie and one suit. -By John

angled to the front or rear of the blind.

Completely composed through-

The Real Faker either a statue of great antiquity or the fossilized remains of an

the present time. George Hull was the originaor of the hoax. After hearing revivalist preacher speak about the giants that once trod the earth, he obtained, near Chicago, a 5-ton block of gypsum, a hard type of stone and had a sculptor make him "a naked giant." He had the statue crated and shipped East.

Then he buried in on land

village of Cardiff south of Syrahis cousin dug it up and announced his great discovery. P. T. Barnum, the great show-man, heard about the attraction, as did the entire country, and when the original faker, who was getting by with only a few

and exhibited it in his museum in New York. This is the only known example of two fakes being accepted simultaneously. A real fake
