Most of the books on space travel, from H.G. Wells' down to the pre-sent day, are in the category of Science Fiction, which is a contra-diction in terms. The word science is defined as "knowledge co-ordina-ted, arranged and systematized." Fiction is "that which is feigned, in-vented or imagined; a tale or story for amusement or entertainmen There is a place for fiction, but it is perniciously out of place in national and international politics. In those cases fiction has been degraded into downright lies which have led to so-cial and industrial disruption and in-ternational enmity and war.

ternational enmity and war.

Judging by the periodic repetition of crises that have occurred in Eastern Europe and in the Middle and Far East, it would seem that the Kremlin has a fiction factory which works nights thinking up some new or old way of disrupting international relatons and making our flesh creep. It is the old story of "Wolf! wolf!" And now "the wolf behowls the moon."

Cayuga Detachment of the O.P.P. report that recently they have received complaints throughout Haldimand County of men presenting themselve as home remodellers and repairmen It is found that it is usually siding and roofing that is involved.

Investigations have revealed that persons approached are either elderly persons or those who own homes that appear to be in need of repair.

Usually there is an examination made of the homes, at the conclusion of which there is a price quoted. A contract is then drawn up for repairs, which the owner is persuaded to sign.

It has been found that the contracts bear a business name but in bossed numbers easily discernible to the provider of the significant contract is the owner is persuaded to sign.
