Tenders are hereby invited by the County of Haldimand for the purpose of a contributory group life insurance and weekly indemnity program for employees of the County of Haldimand according to the following schedule:

Classification	Life Insurance	Weekly Indemnity
MALES	\$1,000.00	\$20.00
FEMALES	2,000.00	25.00

Tenders should be mailed in a sealed envelope to the undersigned and should be marked on the outside "Tender for Group Life Insurance."

Tenders should contain and cover the following points:

- Group Life Insurance is to terminate on termination of employment or employees age 65, except where he becomes totally and permanently disabled prior to age 60, in which event his insurance coverage shall be kept in force and the premiums, therefore, shall be waived during the continuation of his disability.
- Policy is to include the right to convert the employee's insurance coverage on termination of employment, without medical examination, into any form of life insurance customarily issued by your Company to individuals at that time. Please state the terms of insurance, if any, that would not be available on conversion.
- Upon retirement an employee will have the right to convert one-half the amount of his group life insurance.
- Weekly indemnity is to commence on the 1st day of an accident, the 8th day of sickness and continue for a maximum of 26 weeks per disability. It is to be a non-occupational benefit.
- Premium is to be shown on a monthly basis equally split between the employee and the County.

Tenders are to be in the hands of the undersigned by 2 P.M. on the 15th day of JULY, 1959.

MORE WONDERFUL YEARS OF LIVING!

Look down that road next time you're driving. What's ahead—a lot of living, or the one second of carelessness it takes to die? Why not trade a little free time to live a lot longer. The difference between 50 and 70 mph. isn't worth the risk... the few seconds you save are rarely that important.

In this freedom-loving land of ours, everyone has a chance to make his dreams come true. Give them that chance; your Ontario Department of Transport urges you to observe the speed limits. Slow down and live.

## Will We Build Hospital?

For the past several months responsible officials have been giving serious thought to the necessity of providing hospital accommodation in the West Haldimand Area through the co-operation of the Ontario Hospital Services Commission they have reached a decision.

If Hospital services are to be assured then, definitely, a hospital must be built. It must be of adequate size to meet the apparent needs of the community. It must be built not too distant future.

The Hospital Services Commission has recommended a hospital that will accommodate forty-five active patient beds and fifty chronic beds. Such a plant will cost in the neighborhood of one million dollars. Federal and Provincial grants on such a structure would amount to approximately \$500,000, leaving \$450,000 to be raised locally.

While the Governments provide generous grants for hospitals, they feel that if such an establishment is to function successfully in a community, it must have the fullest support of the community. In other words, the leadership for the building of a hospital must come from the community itself, and not from the Government. For this reason they strongly recommend a public subscription campaign which would act as a barometer to gauge the extent that the community feels the need for the hospital.

We have made a spot survey in the Village of Jarvis this week and the results of this survey would indicate that the average person couldn't care less whether or not a hospital is built. We regret to say this because we feel such an undertaking deserves first place in the thoughts of all thinking persons. We'll admit the undertaking hasn't been presented so forcibly thus far and, possibly, it is natural for individuals to feel any personal responsibility in a matter of this kind. The fact must be made known that it is a matter of personal responsibility. And, if a Hospital is to become a reality, it must have the earnest support of everyone.

It has been suggested to us that the project should be preceded with the issuance of debentures to take care of the entire cost. True, there is a certain merit to this suggestion. It would eliminate the personal effort required through public subscription campaign. It would save a few dedicated and serious minded individuals of a lot of hard work and planning. On the other hand, it would place the whole load of financing on the property owner and few, we think, will regret this as completely fair. After all, there is a sizeable percentage of people, who would be serviced by the Hospital, who are not property owners. Surely they would want to share in this undertaking and their only means would be by direct contributions. The debenture plan would mean that property owners would be subsidizing that other sector of the population.

There may be those who say that if you need the services of a Hospital you can always get accommodation in Hamilton, Simcoe or Dunnville. That has been true in the past but it is not going to be true in the future. These Hospitals, built largely by the people of the communities in which they are located, are filled to capacity. In fact they are unable to take care of their local needs. Except for token contributions, we haven't spent anything on the capital costs of these institutions. Therefore we cannot expect to be serviced by these institutions when they are functioning at capacity. Furthermore, do we have any right to expect other areas to subsidize the cost of our illnesses?

All these matters have been considered by Municipal Councils and other interested citizens in recent weeks and a West Haldimand Hospital Association has been formed. The membership is \$2.00 per person. A meeting is being called the latter part of this week when a nominating committee will recommend the names for a Hospital Board. If the recommendation is approved the Board will be required to reach some positive conclusions on this important matter in the near future.

If a decision is made to proceed with the building of a Hospital some important decisions will have to be made. Foremost of these will be the method of financing. This is a real concern to everyone in the community. Then there will be the size and type of construction; location and many other matters, all of individual concern. Everyone should be interested in this matter and they will have the right to voice their opinions in reaching the many important decisions simply by taking out membership in the West Haldimand Hospital Association. This can be done by mailing \$2.00 to Mr. Arthur Booth, Clerk, Village of Hagersville, who is acting Secretary of the group now formed.

She was thanked for her fine address by Mrs. A. E. Doughty. An interesting feature of the meeting was an affiliation service of the Nanticoke group of C.G.I.T. with the W.M.S. of the United Church and the Anglican W.A. This service was conducted by Mrs. Graydon Field, to whom mention is due.

This service was timely, due to the fact that Miss Werner's work is with the girls in Trinidad. Mrs. Field closed the service with the benediction.

A social hour followed in the Sunday School room, where lunch was served by the W.M.S. and C.G.I.T. members.

**CARD OF THANKS**  
I want to thank my friends for flowers, cards and cigarettes while I was confined to the Nora Francis Hospital in Hamilton and since returning home. —Ernie Brand

## ON THE FARM FRONT

Brief Notes for the Busy Farmer

By Haldimand Harry

If you think you might have trouble with White Grubs destroying the farm lawn now is a good time to take action. This is the year when White Grubs which really are a pest but can still do considerable damage to the grass roots. Of course the real damage will take place when the grubs are larger and are eating the grass roots.

Follow the manufacturer's directions when applying.

The amount of broiler meat in storage on June 1st of this year was held at the same time a year ago. In spite of this the paying prices for live weight broilers advanced from five cents at the major market to three cents at the week end.

Up to date justifying a total of \$5,648,494 pounds of broiler meat had gone to market across Canada this year as compared with \$2,187,547 pounds during the same period a year ago. From bulk of this has, of course, come from Ontario.

Haldimand county grew 698 acres of "factory" or canned tomatoes last year which is an increase of 166 acres when compared with 1957. The yield was, however, down slightly from the previous year. In 1958 the average yield was 5.75 tons per acre against 5.61 tons in 1957.

Neither the average yield nor the average tonnage per acre is as high as in previous years. It has been nearer 20 tons per acre. It has been demonstrated that the Haldimand Soil Conservation Committee that much higher and more economical yields can be obtained by doing nothing more than increasing the rate of application of fertilizer. It is not unusual to get 20 tons per acre. If you are interested in getting further information, drop a note to the Department of Agriculture Office in Cayuga.

**National Farm Safety Week** is continuing and farm folk should make a special effort during that period to practice safety as never before. While it is important that attention be focused on safety by having such a week, it is equally important that every week be safe.

The "Week" is "Safety Means Sense". Let us get behind this movement to make the farm a safer place to live and work.

A total of 526 bulls were tested under the Advanced Registry programme for beef cattle in Ontario during the 11 months ending on March 31st last. The average daily lifetime gain for these bulls was 2.26 pounds and the daily gain while on test was 2.42 pounds. There were 27 bulls that gained more than 3 pounds per day and one bull made a gain of 3.51 pounds. The lowest gain was 1.57 pounds. Some 97 of these bulls were fed at the test station and feed records were kept on them. They averaged out at 5.36 pounds of grain per pound of gain with a range of \$2.2 to 7.5 pounds.

There was a direct correlation between rate of gain and economy of gain. The bulls gaining more than 2.75 pounds per day consumed 4.54 pounds of grain per pound of gain whereas those gaining less than 2.25 pounds consumed 6.10 pounds of grain.

Speaking recently, Dr. C. N. Fraser of the Ontario Veterinary College suggested that the use of pasture containing at least one-half acre may be just about as good a remedy for bloating as any. There are a great many theories regarding bloating but there is still a great deal to learn about it before a sure cure is available. In some areas the use of penicillin in small quantities has been of some value in cases where there are signs of quick action is essential as death can occur very quickly if treatment is not given. The use of the Trocar may be necessary in order to bring relief.

### Past Noble Grands Meet

The Past Noble Grands Club held their last meeting for the season on Thursday afternoon at the home of Mrs. Rose Domes of the President conducting the business. The meeting opened with one verse of "Blest Be The Power" and repeating the Lord's Prayer in unison. A two minute silence was held in remembrance of our dear sister Stella, who passed away on June 24th. A scripture lesson was read by Mrs. Gertrude Belbeck, and the minutes were read and adopted. Treasurer's report was satisfactory. Mrs. Mary Craddock won the pair of pillow cases. It was decided to hold a picnic in August, and members were asked to bring a friend, lunch, cup, plate, and cutlery for themselves and guest. The mystery prize was drawn by Mrs. Florence Banks. The September meeting will be held at the home of Mrs. Earl Marr, with lunch on the premises. Mrs. Marjorie Mitchell, a meeting was served by the hostess and her committee.
