ATTENTION! ATTENTION!

EDUCATION CLINICS FOR ADULTS AND PRE-SCHOOL CHILDREN IN JARVIS AND WALPOLE TOWNSHIP

Clinics will be held on the following dates and at the Centres and Times specified:

(1) At Jarvis Community Hall, 29th, 1960 from 1:00 P.M. to 2:00 P.M.

(2) At Springdale Community Hall on January 11th, February 15th and March 14th, 1960 from 11:00 A.M. to 12:00 noon.

(3) At Nanticoke Hall — January 22nd, February 19th and March 18th, 1960 from 1:00 P.M. to 2:00 P.M.

(4) At Selkirk J.O.F. Hall — January 29th, February 26th and March 26th, 1960 from 1:00 P.M. to 2:00 P.M.

Pre-School Children 6 months of age and over may attend ANY of the above clinics at their first, second and third doses of Quadruple Vaccine (combined Diphtheria, Whooping Cough, Tetanus and Polio).

Re-informing doses also will be given at any of the CLINICS to pre-school children requiring the same.

ADULTS desiring Polio-vaccination may receive their first and second doses at the first two clinics at any of the above places, with the third dose in 1961.

At the March Clinics the Third dose of Polio Vaccine will be given to those who received their first and second doses in 1959.

At the March Clinics also the Fourth dose of Quadruple Vaccine will be given to those who received their three doses in 1959 (May, June and September).

1959 CONTRIBUTIONS NANTICOKE CEMETERY

David Vokes Estate \$ 5.00
 Mrs. Ellen Whitwell, widow of the late E. A. Lea passed away December 28, 1959 in her 87th year. She was born in Jarvis, the daughter of James Whitwell and Sarah (Holland) of Hamilton, in his 87th year. She was a member of the Anglican Church and was well known in this community. Surviving are one daughter, Mrs. Frank Vokes of Hagersville, R.R. 1, Mrs. C. C. Vokes of Hagersville, Mrs. Anderson, Herbert, of Hagersville, and Miss Mabel Whit at Jarvis. The funeral service was held at St. Paul's Church, Hagersville, on Friday, December 30th, with burial in the cemetery. Mrs. Vokes is survived by her husband, Rev. Kenneth Bruce, officiating.

SARAH JANE MASON
 Sarah Jane Mason, widow of the late Edward Hyde, passed away at home just south of Jarvis on Sunday, January 10th, in her 88th year and had been in poor health for some time. She was a native of Jarvis and had lived in Jarvis for many years. She was a quiet woman and endeared herself to all who knew her. She was a member of St. Paul's Anglican Church, Hagersville. Surviving are one son, Albert, at home; one daughter, Mrs. Harry Matthei of Walpole. Also one brother, George, at home. The funeral service was held at the St. Paul's Church, Hagersville, on Tuesday, January 12th, at 2:30 P.M. with burial in the cemetery. Mrs. Mason is survived by her husband, Rev. Kenneth Bruce, officiating.

THE JARVIS RECORD

"Let Us Have Faith That Right Makes Might and In That Faith Let Us Dare To Do Our Duty As We Understand It"

JARVIS, ONTARIO, THURSDAY, JANUARY 14th, 1960
 Published as a Second Class Mail, Post Office Department, Ottawa

Christian Viewpoint

By "Simon"

 WHERE ARE YOU GOING?

A prominent business man scheduled to speak at a public function in a town some distance from his home. Travelling by train, he became more and more distressed by the delays experienced on the journey and finally arrived at his destination a very distracted man. He was leaving from the station as the train started to move. He was looking at the driver. "Aren't we nearly there?" To which the driver responded, "You haven't told me where you are going."

Here in modern life is a parallel about the lives of a great many people to-day. Life is hectic, confusing and demanding. Tension and anxiety abound and each day we live to get out of school as soon as possible and be 'grown up.' Many rush into marriage before maturity has been reached. All of us tend to drive ourselves furiously at work, at home, at play, for the most part uncertain of the character of the things we are doing. A social business man under economic pressure finds himself prematurely old, too weary to enjoy his leisure hours. This condition is responsible also for much of the unrest and breakdown in our homes, where family and domestic responsibilities have crowded out the youthful ambitions of our love. It accounts for the distressing fact that so many of our young people are leaving school before they have been able to avail themselves of the knowledge that is offered to them. Is there no answer to this crisis?

Yes, there is an answer, but it is not to be found in good resolutions, but in a central purpose and unflinching loyalty. Just as each one of us was born a citizen of the Kingdom of God, citizenship brings with it responsibilities as well as privilege and fulfillment of our blessings.

God, in His all-wise purpose, has chosen to reveal to men more and more of the mysteries of the Universe, to the end that they may acquire this knowledge and use it for the benefit of the world. Marriage, God has instituted a personal relationship designed not for the satisfaction of selfish desires, we are going through the intimate blending of two lives, human personality may be enriched and completed. Through work God seeks not to punish man for his sinful nature, but rather invites man to prepare himself through learning for the duties of citizenship.

St. Paul once said, "I press toward the high calling of God in Jesus Christ." It is very good that we should prepare ourselves through learning for the duties of citizenship.

St. Paul once said, "I press toward the high calling of God in Jesus Christ." It is very good that we should prepare ourselves through learning for the duties of citizenship.

Milk Producers Move To End Big Butter Profit By Dairies

By a vote of almost two to one, 461 delegates to the Annual Meeting of the Ontario Whole Milk Producers' League held January 7th in Toronto approved a change in the differential used in buying milk for the fluid market so that it would be in direct relation to the wholesale price of butter. This means that the differential sent price of butter the differential price of butter rather than the 2.5 cents currently in use. The League was empowered to open negotiations with the already embarrasing surplus of butter. This at a time when the trend is away from fast production of butter.

The change means a return to a policy that was in effect in the thirties when the differential was fixed to the price of butter. When butter prices reached 40 cents in 1940 the differential was frozen at the 3.5 cent level and has remained there since despite a recommendation by a Royal Commission that studied the milk industry in 1947 that it be tied to the price of butter.

It is expected that this pricing change will help to relieve the unsettled conditions that at present exist in many Ontario milk markets.

Life In Africa Described At Lions Club Meeting

Church Notes

Life in the Kenya Colony, in Africa, was described by Dr. John Hare and depicted in pictures at the Jarvis Lions Club meeting on Monday night, Dr. Hare and his wife, both veterinarians, spent two years in Africa following their graduation from the O.A.C. Guelph. They are presently practicing in Simcoe.

Dr. Hare introduced to the gathering by a fellow veterinarian, Dr. W. E. Austin, of Jarvis. He told of the character of the African continent and the work which he was assigned to there. Primitive customs and conditions were described by the picture later shown by Dr. Hare. A vote of thanks was given to the speaker by Lion Glen Reichel.

Also present at the meeting was Deputy Governor Harry Thompson, of Victoria who was accompanied by a number from the Victoria Club. Deputy Governor Harry was introduced by Past Deputy Governor George W. Walker. A vote of thanks was extended to him by Lion Bill Snowden who also presented to him with a gift as a memento of the occasion.

Lion Ken Parkinson reported the distribution of several hampers of food at the Christmas season and Lion Dave Barker reported the purchase of glasses for a grade 8 student. Lion Star Mitchell, treasurer, reported a net of \$2,375 on the Turkey Raffle held in December.

Lion Chief, Len Marshall, presided for the proceeding.

ON THE FARM FRONT

Brief Notes for the Busy Farmer

By Halimond Harry

The production of alfalfa seed across the Dominion during 1959 was only about 100,000 tons and during the year 1958 and only slightly more than half the average yearly production for the 10 years 1949 to 1958. On the other hand it is now reported that seed production in Ontario was close to double that of 1958 and a little up on the ten year average. Lately the Soil Improvement Commission has had a more than normal yield of this legume seed. The bulk of the alfalfa seed produced in Ontario last year was produced in Ontario last year.

There was a good time of year to start crop of timothy seed produced in 1959 with two-thirds of it coming from Ontario. The total production was the largest since 1952, 40 per cent higher than in 1958, and 22 per cent higher than the ten year average. The estimated production for Ontario is 50,000 tons which is a long way from the production of a few years ago.

The testing of cattle under the Brucellosis Control Area Plan is proceeding at a normal pace and while a few reactors are being found, no serious break has turned up so far. Not sufficient figures have been received as yet on the results but as soon as they are available to be published. Up to the end of November, there were 365,640 that had been tested in 18 counties now under test. A total of 5,795 reactors had been found which is 0.16 per cent of the total cattle tested for the year. In Ontario, there were 4,000 reactors; found in 8.08 per cent of the herds.

This is a good time of year to check the quantities of feed fed year until noon and winter feeding season is not half over as yet it is easy to figure out approximately how many tons of feed have been fed. It has just been reported that during the period, January to October of 1959, there was an average increase of 2.5 cents in the number of eggs being kept. It is interesting to note, however, that egg production increased by 4.5 per cent during the same period. That may have had something to do with the present marketing situation in the egg business.

Aquatic weeds including algae seem to be on the increase. Certainly they do create a problem in farms and many a farmer has wished for some way of getting rid of them. There are now on the market some chemicals that will control them. The rule to follow individually still applies. Too frequently dyes are used on a group basis. Some are as individual in their likes and dislikes as human beings. They will respond to them in the same way by being more or less affected. Giving more milk for the feed they consume than other cows. Some like the chop on top of the silage and some like the other way around. It is up to the feeder to find the preference of the cows he is feeding. It has just been reported that brown milk bottles are replacing the conventional bottle in Denmark. The argument in favour of the change is that small glass bottles will permit the loss of vitamin C which the bottle should receive about one pound of milk is clear in the sun for even a short period of time. It has been shown that 70 per cent of the vitamin content can be lost in this way. This might be increased to 90 per cent if the milk is left in the sun for more than 15 per cent of the time. Here again the feeder must be thoroughly observant and watch the milk in the sunshine in any case and particularly in the summer to the feed that is given. If the time when the temperature of the milk is brought up to the point where bacteria can start to grow and develop.

Former Jarvis Resident Marks 100th Birthday

A resident of the Jarvis area for many years, Mrs. Wesley Schuyler, marked her 100th birthday earlier this week. Mrs. Schuyler now lives with her daughter, Mrs. T. A. Blaney, in Waterloo.

Mrs. Schuyler is the daughter of pioneer Rockford residents, Mr. and Mrs. William Irvine. She married Wesley Schuyler in 1882, and they farmed about one mile west of Jarvis on the farm presently occupied by George Anderson. Retiring from the farm in 1933, they moved to Waterloo and Mr. Schuyler passed away in 1943. Mrs. Schuyler continues housekeeping for herself until reaching the age of 83. Since that time she has lived with her daughter, Mrs. Blaney, in Waterloo. She now remains mentally alert.

We join with her friends in the Jarvis area in extending felicitations on this great occasion.

BIRTHDAY HONOURS AT THE PARSONAGE

Master Paul Warren celebrated his seventh birthday on December 28th, January 1960 a daughter, at Beckliffe Private Hospital, Hagersville.

COVERDALE — To Mr. and Mrs. Jack Coverdale, of R.R. 2, Canfield on Thursday, January 7, 1960, a daughter, Sharon Marie, a sister for Debbie and John at Beckliffe Private Hospital, Hagersville.

LINDSAY — To Mr. and Mrs. James W. Lindsay, of Nanticoke, on Tuesday, January 12, 1960 a daughter, a sister for Nancy, Leonard, Susan and Sandra, at Beckliffe Private Hospital, Hagersville.

HOW TO BEAT A SKID

If you're going too fast when you skid, the car won't always respond to the wheel. When it does, it will be in the wrong direction. The skid will not stop until you have turned the wheel in the direction of the skid. Don't brake and don't accelerate. Remember skidding is more apt to occur when the temperature is about 32 degrees than when it's colder.
