Quote from Hon. John Roberts,
Minister of Education. "I view the
world of education as dynamic, and
thus change will be necessary from
time to time if our system of education is to maintain its position as
our society develops." The Ontario
Safety League believes that as our
society develops, our need for (extra
curricular) Driver Education in the
high school increases. The League
hopes that the Minister's progressive
outlook will be reflected in early and
substantial increase in the number of
Ontario schools offering this course
of instruction which, in addition to
saving lives, has considerable character development value for students
