He foretold The Reval Massacre

Who was to know that the strange village lad was one day to become a figure of desiny? It was true the boy was a little wild. Some said he was too fond of kissing the girls. Well, what country boy wasn't when spring covered the Russian steppes with greenery and the gipsy caravans wandered among the valleys?

There were rumours that the lad had magic powers, evil powers. Others told how he cured a child of fever; or of the old woman who, bedridden for years, had through his prayers walked to church on Easter Day and blessed him as a messenger

What was it that made him a saint to some, a devil incarate to others? Was he a village fool or an inspired diplomat who almost saved Russia from revolution?

Grigori Yefinovitch - later to become notorious as Rasputin. "the mad monk" - was born in a small village in the Tartar district of Russia in the middle years of the nineteenth century. He was a lot brighter than his fellows, and had learned to read and write, an achievement for any working-class boy in those

When young Grigori was only seventeen his father died and he became a carrier, driving the mail vans. He was twice charged with minor crimes but was never convicted, and eventually, after meeting a wandering holy man on the roads, went to live in a monastery tucked away in the Asian mountains.

Grigori Yefinovitch entered the cloister a riotous ne'er-do-well and emerged a miracle-worker who soon became the storm centre of hatred and affection in his native village.

There were tales of miraculous cures; there were also rumours of drunken orgies and wenching parties. Meanwhile, hundreds of miles

away, in the gay and turbulent city of St. Petersburg (now Leningrad), the Tsar of all the Russias was living surrounded by a scheming and plotting and deeadent court. The Tsar was well intentioned but weak; his wife, a hysterical woman, surrounded herself by

fortune tellers and charlatans who traded on her possessive love for her son, the Tsarewitch, who suffered from an incurable dis-It was into this situation, already fraught with danger, that Grigori was thrust when one crowd of schemers seeking to

Petersburg to be, or so they thought, their willing tool. The blood disease from which the young Crown Prince suffered was haemophilia. The least scratch could bring death since no way had been found to stop

One day the worst happened A fall in the royal gardens led to internal bleeding and within a few hours the boy was dying. The doctors could do nothing. The miracle workers at the Court had failed. Then Anna, the Grand Duchess, whispered the magic name of Grigori into the

Tsarina's ear. "Let him be fetched at once," the Tsarina demanded. They found the man a little drunk and certainly very hilarious, in the midst of an orgy. In the holy name of the Tsar they ordered that he accompany them to the bedside of the dying Prince. A startling change came over

the company. The gypsy violins became silent; the dancers ceased their wild gyrations; the mad monk, as he is now known star ed with dark luminous eyes into the faces of his visitors. "The boy will live. I, Ras

putin, have willed it!" With these words he followed them to the royal palace. No one knows whether Ras

putin was a hypnotist, a holy man, or an unscrupulous blackguard seeking and finding corded is that from the moment he uttered these words the boy rallied and soon recovered from an illness his doctors had diagnosed as fatal,

This incident set the pattern for all that was to follow. Miracle followed miracle and the peasant boy from Siberia soon became the virtual ruler of Rus-

Many sought to overthrow him, in fact twice they succeeded in persuading the Tsar to expel him from the Court, but each time the sudden illness of the Crown Prince led to panic, Rasputin's immediate recall and the Crown Prince's immediate

Another illustration of Rasputin's strange powers occurred when Anna, the Grand Duchess, who had plotted against him, was badly injured in a train smash. She lay unconscious, life was slowly ebbing away, as Rasputin gazed at her and commanded her recovery. Once more, in spite of doctors predicting death, she lived.

The Tsarina stood by her friend's bedside and saw this happen. Seizing Rasputin's hand she covered it with kisses. He looked at her, then called out in a loud voice for all to hear: "While I am alive and with you, all is well, but if I die your son will die, your throne will totter and Russia as we know it will

cease to be". The climax came swifter than any had anticipated. Rasputin's power exceeded that of any statesman in Europe or Asia. His word was law and the Tsarina saw him as almost the embodiment of divinity itself. His enemies grew in numbers and strength and then came the fatal night in December, 1915.

Army leaders, diplomats and members of the Russian aristocracy worked out a skilful plot to poison Rasputin. Prince Yussaov, scion of the Royal House, posing as Rasputin's friend, was to be the assassin. But, after drinking enough poison to kill ten men, Rasputin was still alive! His assassin then felled the monk with a round of revolver

Half an hour later, Rasputin rose to his feet and struggled to escape from the basement room in the Prince's palace to which he had been lured. At sight of the man he had be-

lieved to be dead, the Prince panicked and, after further shots, finished off his victim with a rubber truncheon. He then pushed the body through a hole on the ice-covered river. But the scheme failed. Ras-

putin's body was found a few days later. His assassin was banished from court and kept a prisoner on his country estate. Rasputin was given a state funeral by the Tsar that was the last word in magnificence. Rasputin was dead and soon

the Crown Prince was to die and when one of his daughters got his parents, the Tsar and Tsarina, were to be massacred by the butchers of the Revolution. He, Rasputin, had foretold it all. Was he a madman pursuing

power, or a man of wisdom who tried to save Russia from the Revolution that engulfed her?

linked up with history. Experts and collectors of Civil War relics insist there is an increasing flow of Civil War "souvenirs" coming from Europe.

Little girl, left, carries the Winkie Doll by its handy loving-cup ears. Mother and daughter, right, are caught in the craze. Dolls cling to anything; eyes "wink" as light strikes the

The doll delirium is spreading to other products. One of them is this blanket, decorated with a likeness of the Winkie Doll.

CHRONICLES

& Gwendoline P. Clarke

rural section of Ontario - Mr.

Moses Zener, of Toronto. Even

as far back as 30 years ago, far-

mers living within a radius of

50 miles of Toronto, and who

kept poultry as a sideline, would

think something was amiss if

they did not get a call from

Moses Zener several times dur-

ing the year. Mr. Zener was a

gentleman of the Jewish taith

who bought and sold live poul-

try - and I do mean gentleman.

He was a shrewd businessman

always courteous and oblig-

ing - even if he did try to make

you believe he was losing money

by offering to buy hens at the

price he offered. However, when

he made you an offer you could

either take it or leave without

giving offence. And another

thing in his favour - if Moses

promised to come on Tuesday

he came. If not he would phone

and let you know. And he cer-

tainly knew how to judge and

handle poultry. Many a deal we

had with Mose Zener through

the years and we were always

more or less satisfied. We could

hardly blame him for low prices

if the market was glutted with

poultry or if we happened to be

And now poor old Mose is

dead, killed in an accident last

week on Highway 27, involving

a car and the pick-up truck he

was driving. We were truly

sorry to hear it. We liked Mose

Zener and we found him inter-

esting and well-informed. He

told us many things about Jew-

ish customs and gave us a first-

hand account of the wedding

married. If I remember rightly

it was a three-day celebration.

If it was cold when Mose called

he would often come into the

kitchen to get warm and have a

cup of tea. In summer he would

stand around in the barn and

talk as long as we were willing.

I am sure many farmers besides

Zener met death in such a tragic

way. When he used to come to

OTTAWA

One of the Rana's sons told Moraes that his father wanted to send him to Eton. To finance the trip they had to go to the family head, the grandfather, who flew into a rage and said: "No grandson of mine will be

permitted to defile himself by crossing the black waters to England. But I will be reasonable. If you like, you may hire all the masters from Eton and bring them here."

Later, the grandfather fell ill. A British surgeon was fetched from India. He found that the palace was on top of an unroaded hill and wondered how on earth he could get his equipment up. That night he slept in a tent at the foot of the hill and awoke next morning to find a road leading from his tent door to the palace gate. It had been built in six hours by slavegang relays working through the

Keeping Time Enter the atomic clock, the latest, but not the last word in time-keeping precision. Developed by the American Bureau of Standards at Boulder, Colorado, the clock runs to an accuracy of one millionth of a second. At that rate, says its designers, it can keep time for 5,000 years and

not lose as much as a second! The clock "ticks" by registering the vibrations of cesium atoms. These vibrate at such a giddy speed that they split the second into 9,200,000 parts. This contrasts with the beat of an ordinary wrist watch, whose balance wheels tick to and fro five times a second. And, after some years, that wheel is prone to metal fatigue.

The Bureau of Standards is actually trying to improve upon the atomic clock's accuracy, already guaranteed. As its experts point out, in this age of missile tracking and sputnik orbits, synchronization of superfine accuracy is an essential tool of space

Before man can project himself among the stars, he must have clocks set to celestial time tables, and under both fool and shockproof control. An error A one millionth part of a second could easily cost a space travel-

ent where he intended to get rid of his loot. But as he was boarding the cross-Channel steatravel. mer he slipped and the bag with its precious contents fell into the sea and sank. Highway sign reported out Fargo, North Dakota, way: "Watch Out 'or School Children -Especially If They're Driving!" ler his life.
