clear - the new-size, you-size '61 Chevrolet. A car so right for you in so many ways that once you compare it with the rest of the crop you'll agree nothing else near the money measures

We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and manoeuvring) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees and elbows the undisputed right of way. And the new easy-chair seats are as much as 14% higher - just right for seeing, just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions (in the Sport Coupes, for example, headroom has been upped as much as 2 inches, and there's more legroom, too - front and rear). Chevy's new trunk is something else that will please you hugely - what with its deep-well shape and bumperlevel loading it holds things you've never

been able to get in a trunk before. Yet, generously endowed as this car i with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details that make this sensationally sensible '61 Chevy a new measure of your

They're the greatest thing for families since houses. The Lakewood Station
