Tom Matson has lived his life the way he likes, sailing his Great Lakes steamer through the maze of rivers, lakes and canals from the Lakehead to the St. Lawrence. After retirement next year, he's going to go on sailing in his own trim craft... a happy plan made possible by banking his savings regularly.

Mary Parsons doesn't know port from starboard but she keeps a very shipshape home. Paying bills through her Personal Chequing Account gives her a firm hold on household expenses and helps her save too.

Two very different people, but both of them find the friendly, courteous service of The Canadian Bank of Commerce a real help in planning their futures and enjoying the rewards of their work.

"I'm first... after all, this used to be OUR clothesline!"

Clotheslines make dandy skipping ropes. And that's about all that can be said in favour of clotheslines in this modern world of electricity.

What a "Cinderella" change has come over our woman's world with today's weather-proof automatic electric dryers. Never a care about the weather on washday... no more heavy laundry basket to lift... no more tedious, back-breaking "hanging-out."

Your surroundings change, too, when you own an automatic electric dryer... no more dripping, dripping basement washings... more space in the yard for outdoor living.

Isn't it time you made some little "skipper" a present of your clothesline?
