Obviously they are in the process of restoring the establishment as the down town club for the fellows who tike to get away from their wives for a while in the evenings. From the way they are going at it the old place will not look the same although they may be able to retain some thing of the old atmosphere which has made this establishment the favorite meeting place for the men over the years while the women do their shopping.

We see by the paper there will be a meeting of ratepayers when the school question will be discussed. This is to take place on Friday night November 4th and should attract a hall full of people with a sincere determination to find a solution to a problem that exists whether we want to see it or not.
