Reporting From the Far East

JAPANESE DANCING
By Diane Miller

THROUGH THE KINDNESS of a Japanese-Canadian man who lives here in Tokyo with his family, I was introduced to Japanese dancing recently. This gentleman had two young daughters performing in one of the local auditoriums here so before the performance I was taken backstage to see first-hand how the girl was painted and dressed. Each seemed to have painful expressions on their faces. If one could understand Japanese, the dancing would probably have more meaning but I was completely in the dark.
