#### Show Business Is Tough Business

On stage in the studio, an irresistible force - the piercing voice of Ethel Merman - was colliding with a seemingly immovable object - an unwieldy George Gershwin tune, "Let 'em Eat Cake." Engulfed in a sea of dancers, Miss Merman groped with the lyrics while cameras and chorus swirled around her.

Suddenly she stopped singing. her pie face contrite. "I don't know the lyrics — I'm sorry," she bellowed as she adjusted a \$40 beige cowboy hat perched insolently on her poufy hair. A cue-card man scurried in front of her, The Merm repeated the words, and then confidently announced: "OK, OK, let's go."

"OK. OK." echoed director Norman Campbell from the control booth. "Lots of energy, kids, 'cause this may be it - and it had better be." And with that, the taping of the musical scene in which Miss Merman plays Presidential candidate out on the stump — resumed again.

It was late in the afternoon, and Miss Merman, currently cavorting in "Gypsy," had been on hand since 8:55 that morning to rehearse and tape a nine-minute segment for CBS's "The Gersh-Years," a 90-minute look at U.S. life in the 1920's and '30's, set against a backdrop of some 60 George Gershwin songs.

Conceived last summer under the egis of executive producer Leland Hayward, the January special, which was also to star Eileen Farrell and Julie London, had been entangled in frustra-tions. Two hoped-for performers -Nat Cole and Ella Fitzgeraldhad been unable to make it because of commitments. Its narrator, writer-director Moss Hart, had been forced out by a heart attack and replaced by composer Richard Rodgers. Only a few days before, a disastrous me-24-piece orchestra on chanical error had erased half of a ten-minute taped "Porgy and "Who Cares?" and Bess' sequence shot on loca-

tion along a shantytown street Rockaway, N.Y. And now it looked as if a promise made to the lunchless Miss Merman because of a traffic mix-up. hat she would be sprung by 5:30 so she might rest before her evening performance of better be it," called out director Campbell. And on they went— "Gypsy" - would not be kept. "This is a bitch of a show and

you can quote me," rasped pro-ducer Hayward as he gazed dolorously at the proceedings. Originally, I wanted to do the Rodgers and Hart songbook, and right now I kind of wish I had." For the 52-year-old Miss Merman, a veteran of thirteen Broadway hits, it had proved a particularly wearisome day,

And so they did, everyone fir ally adjourning into the snowy streets at 7:20. And that, as they say, is show biz.

POPE JOHN'S CHRISTMAS MESSAGE - Standing before a lighted montage of St. Peter's Square, Pope John XXIII records his third annual Christmas message. The Pope called on the world's Catholics to fight what he called a "diabolical conspiracy against truth" being carried out through all forms of art and mass communications media. The Pontiff's 5,500-word address was broadcast around the globe by the powerful Vatican radio and by a link-up of national stations in other countries.

# HRONICLES GINGER FARM

Now, at last, Christmas for us, as well as for you, is over. It seemed a long time a-coming but it finally got here. But, oh dear, Friday night we thought we were going to be done out of our Christmas dinner! And Christmas morning it looked as if we might lose our little dog Taffy. Now those two incidents require a little explanation. So here goes.

As I told you before Dee and Art were holding Christmas for all of us in Toronto - the same as they have done for the last three years. We try to equalize things this way. We pay for the turkey, Dee chooses it and cooks it. I make the Christmas pudding. Two weeks before Christmas . . . get that, TWO WEEKS BEFORE CHRISTMAS . . . Dee ordered a 17-lb, turkey from the chain store at the plaza where

she does all her shopping, which usually amounts to over \$25 a week. They took her order, he name, address and telephone number, and the turkey was be held and picked up on the evening of December 23. The weight of the bird was impor tant. It had to be big enough to feed us all and some left over for eating cold. But it could not be too big otherwise it would not go into Dee's apartment-size

Friday night Dee and Art went shopping as usual; asked for the turkey that had been orderedand presumably set aside. But the clerk said - "We don't have best we can do is either 13 lbs. or 22."

you must surely have set one aside." The clerk shook her head. "We haven't got any birds left that

size," she repeated. Then Dee began to see red; went out to the car and got Art to come in. From what I was told I gather there was quite a hot argument! The clerk had no real explanation for the mixup, or as to why they had made no attempt to notify Dee by tele-phone. Art asked to see the manager but he couldn't be found — one clerk said he had gone out some place for a few ninutes. It finally ended up with Art saying - "Well, all right, if that's the way you do bus you can keep your groceries!" S he and Dee both walked out and left their entire order sitting in the shopping cart. Next morning Art tried to get in touch with the general manager but, it being Saturday, the head office was closed. Art swears he will never do business with that

would you do? Naturally this little set-to

threw a monkey-wrench into Dee's schedule. Saturday morning she had to start out againturkey. She got the size she wanted but not a particularly nice bird as, of course by that time they had been pretty well picked over.

just recently I read an article which said among other things, "If you are pleased with the service or product you get from any particular store write and tell the management about it. It will be appreciated. On the other hand if you have any complaint, let them know that too. Any reputable business will lis-So that's that. We finally did get our Christmas dinner - af-

morning, about eight o'clock, we put Taffy outside for a run on his rope, as we always do. He has about thirty feet of rope and that way can get all the exercise he needs. As we sat at

The northern angler who has never had the opportunity to fish for southern weakfish, better known as spotted weakfish or sea trout, will be amazed to learn that these fish will strike a yellow or white bucktail jig, a small plug or pearl spoon with a savage strike. Once they are le that is surprising.

An excellent way of catching still-fishing with a popping cork float. Strange as it may seem, sea trout are attracted by a sura given a short jerk, causing it about grass patches, along edges

tackle has opened a brand-new way of catching many species of salt-water fish. A rod of 61/2 or 7 feet with power enough to cast a lure weighing between ¼ and low Florida waters.

It is entirely fitting that fish should be one of the state's chief attractions, for it is nearly surrounded by water, and there are umerous rivers and lakes within its borders where many record catches have been made.— By Robert D. Hall, Salt Water Editor "Sports Afield."

ching Big Ones Southern Waters

The most outstanding fishing unds off the eastern coast of orida are without question the w-moving waters of the fa-us Gulf Stream. This is really ens of the deep. Along the edges of this stream, sailfish, dolphin, wahoo, kingfish, and other great game fish are found. Sailfish are usually found from

the Florida Keys to Juniper Inlet in fairly good numbers durrange of travel depends a great deal upon the water temperature and food supply. They usually swim along the edge of the Gulf Stream, but on numerous occasions they are found in the green inshore waters feeding upon balao, mullet, and other small fishes. - There are various fish ing centers along Florida's east coast where boats and experienced sailfish skippers are available for such offshore fishing.

Four of the most prominent ports are Miami, Fort Lauder dale, Palm Beach, and Stuart. The offshore waters offer

numerous species of fish that will strike a moving spoon, fea-ther jig, or a strip of cut bait. Various species of mackerel, such as the Spanish cero, king, and the wahoo (occasionally) referred to as the queen mack erel, are ready customers for an angler's bait when larger fish are not plentiful. The king mackerel, more commonly known as kingfish in southern waters, is one of the sportiest to take with salt-water spinning gear.

There appears to be little written about the fun there is in fishing for pompaho, but vol-umes have been written about how delicious they are to eat. The common pompano (Trachin-otus carolinus) is one of the most beautiful fish of the warm seas. Their size usually average only 1 or 1½ pounds, but they give a good account of themselves on priced" car market, a comfort-able 39.9 per cent ten years ago, spinning tackle.

per cent late in 1960. The pompano's peak of abun-dance is on the Florida Gulf Sometime last month, a dealer somewhere in the U.S. retailed Coast, where it moves from along the beaches into inlets and passes and is often found feeding in shallow lagoons on small erustaceans, sand fleas, and live the 143,612th Cadillac to be sold in calendar 1960, thereby breaking Cadillac's alltime one-year sales record set in booming 1955. Target for the year: 151,000. shrimp. Only in recent years has The fact is that Caddy is sell-

ing all the cars it can producethe ultimate standard of succes in Detroit. And strangely, Cadillac doesn't particularly want to sell any more. Why not? "We'r in balance," explains Harold Warner, the silver-haired 52year-old GM vice president is general manager of the Cad-illac division. To increase volume, he adds, "we would have to expand all phases of the operation . . . But we could run ten

years at this rate and never lose a stroke." To boost its normal productio schedule of 642 cars a day, 150,-000 cars a year, Cadillac would have to add a third shift and two working days to the normal two-shift, five-day-a-week schedule in its single assembly plant at Detroit, and spend millions to boost capacity at every point on its assembly line. But more to the point, says Warner, it would force Cadillac to compromise its fine-honed mainten-ance and quality-control schedules. (And whether it was an accident or something else that created the Caddy's reputation the fact is that it's the car's solid

quality that maintains its reputation.) "Rolls-Royce will polish a part whether it's needed or not — that's supposed to denote crafts-manship," says Warner, who con-siders the Rolls more of a curiosity than a competitor. prefer to let the product decide what it needs. We'll spare no expense on something that will help improve the car, and we won't spend a nickel on some-thing that contributes nothing." Sample: Cadillac spent \$65,000 on a machine just to wash the insides of gas tanks; it makes eleven different-size pistons varying only by two-thousandths

just the right fit. All this has helped build what amounts to a fierce loyalty among Cadillac owners. A walloping 75 per cent of all Cadillac sales are repeat business.

Against a bright backdrop red ink, the Houston Oilers, champions of the Eastern Division, met the Los Angeles Football League's first title game ires who invested in the new league (among them: Dallas, and hotel man Conrad Hilton's son, Barron, of Los completes a dismal introduction to professional football. Losses in the AFL, rangin

from a high near \$900,000 in Lo Angeles to a low near \$50,000 in Denver, exceeded expectations. 4.771 in Oakland to a high of 27,132 in Boston, fell far short of expectations. Players popped up and disappeared with awe-some rapidity. During the year, the Boston Patriots listed a total of 239 different players on their year contracts, failed to make contracts as office helpers.) Would the AFL survive? De-
