Christian Viewpoint
- By "Simon" -
A FAITH FOR MODERN TIMES

Weeks ago I crossed the bridge which doubtless has been used in your travels and need only be interpreted in terms of the greater stress and demands made upon the structure in this highly mechanized age.

What is true of the principles which underlie the construction of a bridge is also true of the faith that undergirds our lives. Often we sing a very lovely hymn - "Faith of our fathers, living still, in simpler times there are many who think this faith is antiquated and totally inadequate for the needs of modern man. This is wholly untrue for this faith is sufficient, its principles are the same yesterday, today and forever. We do not need a new faith, but rather we need the Faith A faith through the years is strengthened and made adequate for the peculiar strains and stress of these modern days. We may have to stretch the cords and strengthen the stakes, but the faith once delivered to the saints is the only faith that can meet the needs of the human heart and make men strong in times like these.

TAXES ARE O.K. IF FAIR!
Now I believe the Provincial 3% Sales Tax is a step in the right direction if we accept its principle and follow it up and tax everyone according to "ability to pay", or by other means that we should decrease, rather than increase our property assessments to allow for more property improvement and building expansion.
