

HOW TO BOWL FIVE PINS

By Bert Garside & Jim Hault
Chief Bowling Instructors
Double Diamond Advisory Council
FOUR WAYS TO AIM THAT BALL

A perfect grip, a balanced stance, a smooth delivery—bowling, all these combine to make the ball go where you aimed it.

Instead, you should try to "pick" the ball out with a dead-end, "push" or "pull" motion. This means your aim is perfect. You must hit the target to score a strike. By the law of averages you will get a strike much often than you "pick" a pin.

Following are two prize-winning essays in the West Haldimand Hospital Contest.

Why West Haldimand Needs a Hospital. There are many answers to this question. The first benefit will be convenience. If you are in a hospital, you feel lonely and very sick. If your friends come to visit you, you seem to perk up. Doctors say that a happy patient gets better faster than an unhappy one.

Our hospital will be economical. There is an emergency around our community. People have to rush to Hamilton and back. It is a waste of money and time.

Our hospital will give employment to many people. It will be a source of pride for the community. It will be a landmark in the town.

Our hospital will be a source of pride for the community. It will be a landmark in the town. It will be a source of pride for the community.

Our hospital will be a source of pride for the community. It will be a landmark in the town. It will be a source of pride for the community.

Our hospital will be a source of pride for the community. It will be a landmark in the town. It will be a source of pride for the community.

Our hospital will be a source of pride for the community. It will be a landmark in the town. It will be a source of pride for the community.

Our hospital will be a source of pride for the community. It will be a landmark in the town. It will be a source of pride for the community.

Our hospital will be a source of pride for the community. It will be a landmark in the town. It will be a source of pride for the community.

Our hospital will be a source of pride for the community. It will be a landmark in the town. It will be a source of pride for the community.

Our hospital will be a source of pride for the community. It will be a landmark in the town. It will be a source of pride for the community.

Our hospital will be a source of pride for the community. It will be a landmark in the town. It will be a source of pride for the community.

By Allan Murray
(Continued from a previous issue)

The Annual Meeting of West Producers in Welland and Haldimand was held in Moulton Township last week. Producers heard a progress report from Mr. Roy Coulter, 2nd vice-president of the Ontario Wheat Producers Marketing Board.

It is a privilege to be invited to West to have such a hospital built in West Haldimand. It is something to be proud of and to look forward to.

It will be a convenience for you as a patient because you will be near to home, your family and friends. It will be a source of pride for the community.

It will be a source of pride for the community. It will be a landmark in the town. It will be a source of pride for the community.

It will be a source of pride for the community. It will be a landmark in the town. It will be a source of pride for the community.

ON THE FARM FRONT

Brief Notes for the Busy Farmer

Haldimand Hog Producers marketed 2,276 hogs during the month of January according to a report recently issued by the Canada Department of Agriculture. Unfortunately, there is no information as to the quality of the carcasses from these hogs.

In a survey conducted by the Canada Department of Agriculture last year, overfinish is the biggest factor in lowering hog carcass grades from "A" to "B". The survey indicates that 83 per cent of all the grade B hogs across Canada would not make grade A for the simple reason they were too highly finished.

Another factor in making or missing the grade A classification was that almost one-quarter of all the grade B hogs were not in the right weight range of 135 pounds to 170 pounds warm carcass weight.

Our family farm economy has developed the world's most productive agriculture, partly because his own himself has the incentive to do a good job because he will be rewarded with a better life.

It is different from a state-owned enterprise in that the farmer has the incentive and enterprise that come with individual ownership.

Another factor in making or missing the grade A classification was that almost one-quarter of all the grade B hogs were not in the right weight range of 135 pounds to 170 pounds warm carcass weight.
