Gorn producers in Ontario will be working on a marketing plan for grain corn from January 15 to February 5. The arguments for the Corn Marketing Plan have centred around the need for grain corn growers to develop protection for their industry against imported American corn.

The members of the Corn Growers Association, which is supporting the plan, point out that corn growers have been unsuccessful in the past in getting the Fedreal Government to consider their requests for help.

They have been told that it is because the Association does not represent a majority of corn producers A Marketing Board which is voted into being by sixty-six and two-thirds or the corn producers who vote should provide the necessary majority voice says the Association.
