

We wish we were in a position to tell our readers exactly how much money has been contributed to the West Haldimand Hospital Campaign, because we know everyone is anxious to know how the effort turned out. It will be realized, however, that tabulating the returns is a big job and it will be extremely dangerous to make a premature forecast in an undertaking such as this. We hope it will be enough for the present to know that our local chairman appears to be gratified by the response.

From our point of view we are extremely happy. We cannot find words to express our satisfaction with the whole-hearted support given the undertaking by nearly 500 canvassers throughout the West Haldimand area. We have never seen this happen before and it indicates to us the heartfelt support that is behind the undertaking. To those people who go our sincere thanks for a job well done.

We are also very happy in the knowledge that, almost without exception, our canvassers were cordially received by the people of the area. This further manifests the keen

interest in the project at hand. What could be more heart-warming than this. From the out-set of the Hospital Fund Campaign literally hundreds of people have worked faithfully. Every single person involved had a key position to play and they played it faithfully and well. We have no doubt that when the figures are tallied we will all be able to cherish the satisfaction that comes from a job well done.

We were reminded on Tuesday night that the Show of the year takes place in two weeks time. We are referring of course, to the Jarvis Lions Club Minstrel Show. The show takes place on Wednesday, Thursday and Friday nights, March 28, 29 and 30th. Like every other member of the Club, we have a few tickets available for each of these nights and would be happy to consider applications for them from anyone who might be interested.

We think most people will agree that the Jarvis Lions Club is worthy of support in the projects they undertake as a means of raising money for worthy causes. It was extremely gratifying to see the Club vote unanimously to the extent of furnishing a four bed ward in the new Hospital before the Club last Monday night. Any organization that gives this kind of support certainly deserves the goodwill it currently enjoys in this community.

A rainstorm cuts driving visibility, and it also reduces a driver's ability to hear warning sounds—such as the noise of overtaking vehicles, horn signals, train whistles. Always reduce speed and put on your headlights in heavy rain, counsels the Ontario Safety League.

In 1963 U.S. automobile manufacturers will begin using amber lights instead of white for front turn signals, reports the Ontario Safety League. Research has found that amber signals can be seen more readily than white against glaring reflections, and also provide greater contrast against headlights at night.

CUBS AND SCOUTS
WITH THE SCOUTS
Monday night saw the Scout Troop putting the final touches on some of their displays for the Father and Son Banquet. These displays as far as we are concerned, are very good.
Don't forget, Boys, Friday night, the 16th, is the night you take Daddy by the hand or ear and lead him to the Community Hall for a good feed of turkey and then some entertainment. Let's see a full house.
We wish to say anyone interested in the Scout movement is certainly welcome to come to the Hall around 8:30 or 9 P.M. to watch the Jarvis Cub and Scouts with their Fathers having a good time. Also we hope to have a film of the 1960 Saskatchewan Jamboree which our Scoutmaster
