BRANT-HALDIMAND What do you want for Canada? Don't you agree that the bespossible living and working conditions for all Canadians should be Have our past Governments provided this? Do you consider a 25 BILLION DOLLAR National Debt, costing 900 MILLION DOLLARS in interest every year to be success? Do you consider 600,000 unemployed good for the country? WE DEFINITELY DO

Is it a coincidence that British Columbia and Alberta are the two fastest growing provinces and both have a SOCIAL CREDIT Government? WE DO NOT THINK SO! SOCIAL CREDIT stands for financial reform, that will make the Bank of Canada responsible for the money supply of the country. SOCIAL CREDIT stands for good management that will handle our natural resources profitably for all Canadians. SOCIAL CREDIT will not sell you out as previous governments have done by dissipating natural resources and then taxing the have done, by dissipating natural resources and then Canadian people to pay for mistakes.

SOCIAL CREDIT is the opposite of social debt. Befor on June 18, investigate SOCIAL CREDIT.
